Aching Joints.

Announce the presence of rheumatism which causes untold suffering. Rheumatism is due to lactic acid in the blood. It cannot be cured by liniments or other outward applications. Hood's Sarsaparilla purifies the blood, removes the cause of rheumatism and permanently cures this disease. This is the testimony of thousands of people who once suffered the pains of rheumatism but who have actually been cured by taking Hood's Sarsaparilla. Its great power to act upon the blood and remove every impurity is the secret of the wonderful cures by Hood's Sarsaparilla.

MAKES WOMEN WELL.

Astonishing Record of Paine's Celery Compound Among the Sick.

The fact that Paine's celery compound is today relied on and recommended, both in public and in their own family circle, by so large a portion of the most prudent and thoughtful people in every community, should not be overlooked in determining one's choice of a remedy.

Paine's celery compound is the most successful, the most warmly praised remedy—just as it was, at the time of its discovery, the most talked-of—ever offered by a physician to his fellow practitioners and to the public.

Paine's celery compound has more than fulfilled the great things that were expected of it when it was first announced to the medical men as the discovery of that distinguished scientist, Prof. Edward E. Phelps, M. D., LL. D. It is the grandest invigorator and strengthener in the world. It offers an escape from nervousness, exhaustion, neuralgia, sleeplessness and dyspepsia to every man or woman who is robbed of health.

"I have taken a number of bottles of Paine's celery compound," says Mrs. E. Warren Davidson of 305 Warren ave. Chicago, "and consider it the best in all cases of insomnia, arising from torpid liver, neuralgia, rheumatism, etc. It has done for me all that is claimed for it, and I cheerfully endorse it."

We all know women who are living on the "ragged edges" of nervous exhaustion.

They eat their food without relish, sleep without refreshment and worry along day by day half sick, but refusing to believe it.

These women who are farther along in poor health than they think, are the very persons who would find an astonishing help in Paine's celery compound. Its regulating action on their jangled nerves, and its revivifying action upon digestion and assimilation are just what their system is in need of. Why should any one not try it?
