YELLOW FEVER CAMP

Established for the Detention of All Cases.

PRECAUTIONARY MEASURES.

The Scourge Spreading in New Orleans--New Cases.

WASHINGTON, Sept. 8.—The treasury department has procured 200 tents from the war department, for use at the permanent yellow fever detention camp, which is established at Waynesville, Ga. The camp has been established as a precautionary measure. The marine hospital received two dispatches from Dr. Wasdin, from Mobile; one reported another death from yellow fever in New Orleans and three new cases. The other telegram said that two new cases were reported from New Orleans.

Will Render Assistance.

WASHINGTON, Sept. 8.—The general government will render all the assistance in its power to check the spread of the dreaded scourge. This will be done mainly through the hospital and marine service. Dr. Walter Wyman, head of the bureau returned to this city, and assumed active charge in directing the work in assisting the state officials of Mississippi in their efforts to confine the disease to the locality where it appears to have started. Dr. Wyman says the situation at Ocean Springs is entirely in the hands of the state board of health, which the marine hospital bureau is doing everything possible to assist.

Scarcity of Food

NEW YORK, Sept. 8.—A dispatch to the World from London says: World's special inquires throughout Ireland fully corroborate the alarming predictions cabled Saturday of the failure of the harvest and a consequent impending famine. Cries of warning to the government are rising in a crescendo scale from all parts of Ireland. They are not confined, to the congested districts of the western seaboard.

From Mullinger, the most prosperous part of the midlands, a correspondent telegraphs: "The crops are now irretrievably destroyed. It will be impossible for the farmers to make anything out of the cereals this year, as they are quickly rotting. In the churches a prayer for fine weather was recited, and if a change does not come immediately, the crop might as well be left to manure the ground."

From county of Wexford, noted as one of the richest in the country, the tidings are: "The green crop may be described a gigantic failure in county Wexford this year. The greater part of the potato crop is only fit for cattle feeding."

From Fermanagh, a correspondent telegraphs: "At a meeting held here to ask for a reduction in rents, the parish priest presiding declared not since Black 1847 has the prospect for farmers in this district been so bad. In several places the potatoes have been a failure. Hundreds of tons of hay have been ruined by the heavy rains and floods."

From Carlow, known as "the model county," comes the following dispatch: "There is before our farmers an outlook as disastrous as it is possible to conceive, owing to the frightful weather. A great deal of corn cut early remains in the stacks injured beyond repair. In many districts they have been unable to cut their crops, which present the saddening spectacle of being leveled to the earth by the persistent rains. Apprehensions concerning potatoes also have been dimly realized."

THE STRIKE SITUATION.

Deputies Are Defeated and Many Men Hurt.

PITTSBURG, Sept. 8.—Efforts to evict the striking miners of the Pittsburgh & Chicago Coal Company, at Orangeville, one and a half miles from Gastonville, resulted in a riot of no mean proportions, and the utter failure of the company to accomplish its object.

Deputies from Washington, Pa., in charge of Chief Deputy Wetherill, have reached Finleyville, where they were met by a large crowd of strikers. Each deputy was armed with Winchester and revolver, but in spite of this the strikers, headed by 100 Polish women, closed in on them and they were forced back and finally retreated to Gastonville, followed by about 200 men and women.

At Gastonville the deputies took refuge in the office of the company, where they were kept all night, during which time the building was bombarded with stones and an occasional shot fired.

At 7 o'clock in the morning the trouble of the night reached a climax, when the deputies sallied out from their besieged quarters and started to march to Orangeville.

Headed by women, the strikers rushed on the deputies with stones and clubs and pick handles and the blows fell thick and fast. One big woman wrested a rifle from a deputy's hands and struck him on the head with it, inflicting a serious injury. By this time 1000 men, women and children had joined the crowd. They came from Venetia, Snowden, Calamity, and Finleyville.

The deputies made their way to Orangeville and took refuge in a vacant house, closely followed by the mob, which surrounded the building and threatened to burn it. One of the strikers approached the house with a flag of truce and a conference was held. The deputies were ordered to leave town. After a short parley it was decided to do so. They emerged from the house badly scared lot of men and walking between the open ranks of the strikers, started for Gastonville.

Almost every man in the posse was cut and bleeding and several were badly hurt. As the defeated deputies ran the gauntlet, they were greeted with hisses curses and ridicule. The strikers then closed behind them and marched them to the station, where they took the train for Washington. After their departure the mob disappeared and everything is quiet now.

DRAIN ITEMS.

Mr. Smith, the night operator at this place and Miss Myrtle Doyle, of Creswell, were united in the holy bonds of matrimony last week. They will begin housekeeping at once.

The State Normal will open here next Monday, Sept. 13th, with a large attendance. The training department will begin one week later.

Levi Kent and son Walter are erecting a large two story building on main street, which will be used for a hardware store. It will be a valuable addition to the town.

Abe Matton and John Craig, with a good force of men, are preparing to burn a kiln of 100,000 brick on the old yard just west of town.

Mrs. John Sneed died last Sunday, at her home one mile west of Drain. Her trouble was cancer of the liver. The interment was held Monday, in the cemetery at this place. She was loved by all who knew her.

A busy scene is presented at the normal buildings this week. New heating apparatus is being put in, campus cleared, buildings repaired and general preparations are going on.

We are spending more than our profits on *Schilling's Best* tea to get you to try it—just to try it.

Your money back if you don't like it.

FOUND IN THE RIVER.

A Supposition That the Body Is Oswald Lankow.

BROUGHT TO SALEM TODAY.

An Inquest Will Be Held Over the Remains.

The body of a boy was discovered in the Willamette river by the crew of the steamer Gypsy, Tuesday afternoon, at a point about twenty miles below Salem, near the mouth of Duke's slough. It is the general supposition that the body is that of Awald Lankow, the 13-year-old boy, who so mysteriously disappeared from the C. C. T. company's dock on the evening of Sunday, August 29.

The following account of the boy's disappearance appeared in the JOURNAL on Monday following: "A mother and two sons aged about 13 and 8 respectively, were among the Portland contingent of hop pickers reaching Salem on the steamer Ramonia last night. The mother and youngest son requested the oldest boy to sleep on the boat with them but he refused to do so, preferring to spend the night on land. Accompanied by another boy of an equal age, he went ashore, since which time he has not been seen. The mother is distracted with grief and is anxious to learn of her son's whereabouts. From the fact that the boy was not very bright it is likely he wandered about the streets and lost his way but will likely return in a few days."

When discovered the body was lying face down-ward and was attired in blue overalls which correspond with the apparel worn by the boy at the time of his disappearance. The body was attached to the Marion county bank and the steamer continued its way to Salem when Coroner A. M. Clough was notified. That gentleman was a passenger down the river on the Gypsy to get possession of the body.

At 3:30 o'clock this afternoon Coroner A. M. Clough had not returned with the body, but it is expected he will reach Salem on one of the evening boats when an inquest will be held.

Fred Lankow, and Wm. Lankow, brother and cousin, respectively, of Awald Lankow, arrived in the city from Portland on the Roseburg mail this morning. They will take possession of the body immediately after the inquest has been held and convey it to Portland where burial will be had.

AT THE COURT HOUSE.

County Court Met Today—Business Transacted.

The Marion County Court convened this morning in regular monthly session, Judge G. P. Terrell and Commissioners Watson and Davis being present.

B. M. Dimick was awarded the contract for replanking the west approach of the Townsend bridge near Woodburn at 18 cents per linear foot.

The clerk was ordered to issue a warrant to Postmaster B. F. Bonham for \$53.90 in payment for 2,000 stamped envelopes for school superintendent and sheriff, and 500 2-cent stamps for county officers.

Nineteen sealed proposals for caring for the poor of the county have been submitted to the county court.

The bids will be opened and a superintendent of the poor farm selected therefrom.

Fourteen bids for wood to furnish the court house have been filed with the clerk to be opened sometime during the session when an award will be made.

BOUNTY WARRANTS.

During the past two days County Clerk L. V. Ehlen has issued bounty warrants aggregating \$10.60 as follows:

T. C. Darby, \$1.00; J. F. Cork, \$2; J. Kester, \$3.50; C. Hibbard, \$1.04; W. Dentventry, \$1.20 and Chas. Neal, \$1.26.

TO WED.

Milton B. Kester and Louisa Dayton were the recipients of a marriage license from County Clerk L. V. Ehlen today.

JOURNAL "X-RAYS."

In an interview with local hop growers and buyers regarding the situation, outlook, etc., of the Oregon hop crop, and especially that of the Willamette valley, it is remarkable how materially the statements made by the two classes differ. The grower, who has his crop at stake, is most hopeful and cheerful over the situation. He predicts a heavy yield of an excellent quality. He reports the yards comparatively free from lice while mold has not yet put in an appearance. The buyer will picture the situation as most deplorable. All yards are more or less affected with lice, while the rainy weather of the past two weeks has caused mountains of mold to appear, which is spreading very rapidly. The yield will scarcely be a half-crop. Strange how intelligent men can differ in their views on important matters.

"Neglect of duty" in Salem's municipal circles is frequently much less expensive to the tax-payers than an over-performance of the same.

The Statesman says the Oregonian's columns are "prostituted." Is the pot calling the kettle black?

School Clerk Flagg ought to go into the insurance business if he is smart.

If a state officer can corral insurance business by virtue of his office, why can't a school clerk do the same?

A sample of the fool figuring of the day is the statement of a man in the agricultural department that the farmers will receive from \$400,000,000 to \$500,000,000 in excess of what was received last year. In order to be true it would be necessary for wheat to have increased \$1 a bushel, whereas it has increased about 20 cents.—Albany statesman.

When the Statesman, this morning, printed the names of citizens petitioning for the reinstatement of Mr. Gamble, why did it omit Bob Hendrick's?

How much office rent does the Hodgkin insurance agency pay?

C. B. Moores says he thinks he's entitled to the Fairground post office anyway, and wants Nolt to move right out. Any old thing will do Charley.

HARVEST FESTIVAL.—The annual Harvest festival will be held at the Salvation Army hall on Saturday, Sunday, Monday and Tuesday, September 18 to 21, inclusive. "The Harvest Truly Is Plenteous."—Matt. 9:37. Will you give? Officers in charge, Ensign and Mrs. Jewell.

THE WRONG MAN.—In the police court report yesterday H. B. McDowell was charged with forfeiting bail, when it should have been J. W. McDowell. H. B. is a sober man, and the use of his name was a mistake.

PLUNDER.

A. P. A. "Patriotism" Is Used.

Another Sample of Local Politics for Revenue.

The resolutions presented by Messrs Cherrington and Ohmart at the last meeting of the school board asked that all insurance expiring during the present school year be renewed the same as it is now running, and with the same agents. This would give Bozorth Bros. \$10,000 and leave \$20,000 for all the other agents of Salem to divide among them.

Here is the resolution: "Resolved, By the board of directors of school district No. 24, Marion county, Oregon, that the fire insurance expiring on the several school buildings and furniture and fixtures belonging to said district, during the remaining months of this school year, be renewed through the same local agents and in the same amounts to each agent that issued policies expiring during that period."

This was without a particle of doubt drawn up and introduced in the interest of the A. P. A. regime that has tried to run our school district, and it is such job as this that are disgusting the better element in that organization. Many men joined the society in Marion county, under the honest conviction that it was their patriotic duty, but since they find the organization used purely by schemers for political ends and to plunder the public treasury in the name of "patriotism," they shrink from being a party to it. In the same guise has Marion county been fleeced by some unscrupulous political shrou. The people should get their eyes opened, and learn the true inwardness of these scheming operators before long.

An Idea About Silver.

EDITOR JOURNAL:—In the consideration of the silver question, there seems to be one objection, on the ground, that the silver bullion owners would be the greatest gainers.

While considering this question the following solution came to me; viz. That the government should immediately become a purchaser of silver at the highest market price, unless the price should exceed one dollar for Three Hundred and Seventy-one and one-fourth grains, paying for the same in silver coin or silver certificates, either to be legal tender.

Such a condition, it seems to me, would cause an immediate rise in the price of silver bullion and a gradual expansion of the currency. While the difference between the buying and selling price would be a source of income to the government, neither of which would be objectionable.

And last but not least, foreign silver coined at our mints would, at present prices, leave our government about 57 per cent of the bullion brought.
