

The Journal editor confesses to owning a bulldog, a homely white and brindle bull terrier whose silence and stay-at-home qualities predominate and whose snarl discloses a mouth and teeth that would scare a freight train off the track.

Dogs are like men in one respect—if they are too large they don't have brains enough to keep them out of trouble. If they are too small they have too much brains to keep out of mischief.

Now we are to have a prairie trust. At least the trust is to come to the relief of the producer. So far it began to look as if the farmers and the newspapers alone were to be excluded from the benefits of the trust.

J. Forbes Graham, a prominent prune grower of the Santa Clara valley, is in Oregon, take the preliminary step towards the organization of the prune growers, for the purpose of obtaining better prices for the producer, and at the same time enable the consumer to obtain them at a lower rate than the present.

Mr. Graham is one of the directors of the Pacific Coast Fruit association. He states the organization of the prune growers of the Santa Clara valley has already enabled them to obtain from 75 to 9 cents per pound, while Oregon growers have contented themselves with 35 to 5 cents.

There is not that difference in quality," he says, "and so the discrepancy is due to the organization of the men who are at the expense of producing the fruit."

If that can be made a success on prunes, why not sheep and hops and wheat and spuds? It leaves the newspaper alone unprotected. The newspaper is the victim of the type trust and the paper trust, the latter taking six dollars a ton more for all white printing paper than is charged for the same article when sold abroad.

A one-horse university is a little worse than none and its diplomas are not respected even if they are legal. This should be the scope and true aim of Willamette in providing a general literary and academic course for the thousands of growing boys and girls who want and need and should have a little more educational uplift than the public schools give them.

When it comes to building up special lines of professional schools, as a law school, a business college, normal school, medical school, school of music oratory, etc., school of mines, etc., we should like to show what could be done at Salem but must defer to another issue. Salem can be made a great educational center by fusing along certain lines of co-operation, concentration and specialization, as we shall try to point out.

The Spring Months are most likely to find your blood impure and lacking in the red corpuscles which enable it to carry nourishment to the nerves and other organs. Therefore you feel weak, tired and listless and are troubled with spring humors. Relief is given by Hood's Sarsaparilla which purifies, enriches and vitalizes the blood.

CASTORIA. The kind you have always bought. It is the kind you have always bought. It is the kind you have always bought.

Registration Law. Important Provisions of the Measure—How and When to Register. Follow are the most important points particularly concerning voters, which are taken from the new registration law passed by the last legislature.

It shall be the duty of every elector in the State of Oregon, between the first Monday in January, 1900, and 5 o'clock p. m. of the 15th day of May, 1900, and between the same dates and hours biennially thereafter, to register with some notary public or registrar of the peace, or with the county clerk of the county in which the elector resides, in accordance with this act.

It shall be the duty of the county clerk in each county, between the first Monday in January, 1900, and 5 o'clock p. m. on the 15th day of May, 1900, and between the same dates and hours biennially thereafter, to enter upon the proper registers every person who complies with the requirements of this act, and claims to be an elector residing in the county. If the clerk refuses to enter the name of any qualified elector, such elector may proceed by mandamus to compel him to do so.

Every elector may be registered without charge by personally appearing in the office of said clerk, and after being duly sworn, stating the following facts, which the clerk or his deputy shall appropriately enter in black ink, at first in the general county register consecutively, 1, 2, 3, etc., in each precinct, as they are registered in the general county register. The clerk shall inquire of the elector, and enter the following information in the general county register, in the division set off for the precinct in which the elector resides, to-wit:

The date of registering the elector. The full name of the elector. Leave a blank space in which the judges of election shall enter the name of the elector when he has voted. The business or occupation of the elector. The age of the elector in years. The country of nativity. If naturalized, the time, place and court of naturalization or declaration, as evidenced by the legal proof thereof, exhibited by the elector.

The actual and precise place of residence of the elector at the time of his registering, stating first the precinct, and, if in the country, the section, township and range, and in cities and towns having streets, by specifying the name of the two or three, or the street or other location of or dwelling place of the elector, with the number of such dwelling, if the same has been ascertained and identified. If the elector be the head or proprietor of the house, then it must show that fact, and upon what floor thereof, and what room such elector occupies in that house.

The fact whether or not the elector desiring to be registered is able to write his name and mark his ballot, and if he cannot do both, then the nature of such disability must be entered. The elector shall, then, next following the aforeadministered oath, sign his name in the presence of the clerk or the deputy acting, in the general register upon the same line where the preceding information is written, and the registering officer shall then sign his own name upon the said line, and add any remark required by this act or appropriate thereto for the information of the judges of election.

Every elector may be registered by personally appearing at the clerk's office and complying with the provisions of sections 7 and 8 of this act; but if said elector is unable for any reason to conveniently register as aforesaid, he may register without charge, before a notary public or justice of the peace in the county in which he resides.

Every elector upon changing his name shall be registered in the name of the new name, and the name of the old name shall be struck out of the register. An honest man in this day and age has little need to fear death by hanging. The danger that hangs over the head of the man who registers his name in the name of another man is a little more serious.

At a recent meeting of the board of health, it was decided to issue a circular to the public, explaining the danger of the disease known as typhoid fever, and the importance of cleanliness and hygiene in its prevention.

Stubbhorn Colds. A stubbhorn cold is easily taken if you catch a cold in winter and very often develops into bronchitis or consumption. You should cure a cold promptly by taking Dr. Bull's Cough Syrup. This celebrated remedy is acknowledged to be the most efficient and reliable for all affections of the throat and lungs. It cures a cold in ten days.

Dr. Bull's Cough Syrup. Promptly cures Stubbhorn Colds. Doses are small and pleasant to take. Doctors recommend it. Price six cents. All druggists.

Going It Blindfold. The man who deceives himself with the thought that grip is nothing but a severe cold and enjoys himself with the belief that old fashioned home remedies will bring him through all right is going it blindfold. LaGrippe is a disease quite as contagious and equally as dangerous as scarletina or small pox. Unless the grip germs are promptly eradicated by the proper treatment they will leave the system filled with poisonous products which continue to destroy the nerve forces and waste the vitality and strength until some chronic disorder claims the unhappy victim for an early grave.

Dr. Miles' Nerveine is the only safe and sure relief for the many forms of nervous disorders which are the results of grip poisoning. It enables the digestive organs to do their work completely and effectually, providing rich, red, highly vitalized blood, which builds up the wasted nervous tissues and drives out the poisonous products of the terrible little disease germs.

The grip was followed by nervous prostration which soon developed into sciatic rheumatism, and I lay on my back all winter. Two of our best physicians were unable to do anything to relieve my suffering. The pains were so severe at times that I was unable to turn over in bed and my long suffering nearly drove me mad. After trying several "cures" I commenced taking Dr. Miles' Nerveine, and I got relief from the first bottle. Six bottles restored me to better health than I had enjoyed before in years.

A trial package of Dr. Miles' Nerveine is sent absolutely free of cost to any person sending name and address on a postal card, requesting the sample, and mentioning the name of this paper. Address Dr. Miles' Medical Co., Elkhart, Ind.

AN ORDINANCE. To Provide for the Working of Prisons Upon Public Property. Be it ordained by the common council of the City of Salem, Oregon: SECTION 1.—Any male person who shall be duly committed to the city jail, in default of the payment of any fine or bill of costs assessed against him by the city recorder of this city, as a penalty for the violation of any of the ordinances of said city, shall be, and he is hereby, compelled to work out said fine or costs, or both, at the rate of one day's service for each \$2 of said fine or costs, or both.

SECTION 2.—Any city prisoner, as aforesaid, who shall pay into the hands of the city marshal, after such commitment, the balance due upon said fine or costs, or both, shall be discharged upon the report of the recorder's clerk upon the report of said city marshal of said payment.

SECTION 3.—It shall be lawful for the city marshal to use such manacles and other customary methods of restraint, in the working of said city prisoners, as shall to him appear necessary and proper.

SECTION 4.—This ordinance shall be in full force and effect from and after the date of its passage, and shall remain in full force and effect until repealed or amended by the common council of this city.

SECTION 5.—This ordinance shall be published in full in the official newspaper of this city, and a copy thereof shall be filed in the office of the city recorder.

SECTION 6.—This ordinance shall be in full force and effect from and after the date of its passage, and shall remain in full force and effect until repealed or amended by the common council of this city.

SECTION 7.—This ordinance shall be in full force and effect from and after the date of its passage, and shall remain in full force and effect until repealed or amended by the common council of this city.

SECTION 8.—This ordinance shall be in full force and effect from and after the date of its passage, and shall remain in full force and effect until repealed or amended by the common council of this city.

In Woman's World. The senate of North Dakota has passed the bill to regulate the matter of marriage. It provides for the appointment of a commission of three physicians in each county for the examination of all applicants for marriage licenses. No license will be granted without certificate from the board of examiners stating that the applicants are free from certain diseases and ailments, including dipomania, heredity, insanity and tuberculosis.

By act of Illinois acting governor, a marble statue of Miss Frances E. Willard was placed in Statuary Hall in the national capitol, just as the house was completing the anti-cannery bill victory in which the "white ribbon" has led on like the white plume of Henry of Navarre. This is the first statue of a woman to be placed side by side with man in the Hall and she was a woman whom the nation might well honor thus.

Dr. Crafts, of Washington says: "By all means let the statue of this white soul and white life, and white ribbon be marble, though her strength of heart and hope were as bronze."

A New Enterprise. J. Maguire, having rebuilt the Crystal Ice works at corner of State and Nineteenth streets, has added a first class grocery and provision store in connection therewith. He proposes to make ice by the first of April next.

Ex-Senator Archie Johnson, president of the old State Board of Agriculture, has called a meeting of the new board to be held on Monday, March 27, at the state house, Salem, at 10 o'clock p. m. for the purpose of organizing and completing the business arrangements for the coming state fair.

Ex-Senator Archie Johnson, president of the old State Board of Agriculture, has called a meeting of the new board to be held on Monday, March 27, at the state house, Salem, at 10 o'clock p. m. for the purpose of organizing and completing the business arrangements for the coming state fair.

Heart Disease. Some Facts Regarding the Rapid Increase of Heart Trouble. Do Not Be Alarmed, But Look for the Cause. Heart troubles, at least among the Americans, are certainly increasing, and while this may be largely due to the excitement and worry of American business life, it is more often the result of weak stomachs, of poor digestion.

Real organic disease is incurable, but not one case in a hundred of heart trouble is organic. The close relation between heart trouble and poor digestion is because both organs are controlled by the same great nerves, the Sympathic and Pneumogastric. In another way, also, the heart is affected by the form of poor digestion, which causes gas and fermentation from half digested food. There is a feeling of oppression and heaviness in the chest caused by pressure of the distended stomach on the heart and lungs, interfering with their action; hence arises palpitation and short breath.

Poor digestion also poisons the blood, making it thin and watery, which irritates and weakens the heart. The most sensible treatment for heart trouble is to improve the digestion and to insure the prompt assimilation of food. This can be done by the regular use of meals of some safe, pleasant and effective digestive preparation, like Stuart's Dyspepsia Tablets, which may be found at most drug stores and which contain valuable, harmless digestive elements in a pleasant, convenient form.

It is safe to say that the regular persistent use of Stuart's Dyspepsia Tablets at meal time will cure any form of stomach trouble except cancer of the stomach. Full sized packages of these tablets sold by druggists at 50 cents. Little book on stomach troubles mailed free. Address F. A. Stuart, Co., Marshall, Mich. 3 13 15 17
