A GOOD PLATFORM.

QUAL and exact justice for all men, of whatever persuasion, religious or political...

EDITORIAL REVIEW.

With songs of praise and thanksgiving, followed by a season of solemn prayer, the thirty-third biennial convention of the International Young Men's Christian Association...

Nearly every day the authorities of city or state are asked to appoint delegates to some great conference in some eastern state and it is usually done...

It is plain Dewey is in danger of being forgotten. He is at sea where he cannot dictate interviews, write magazine articles, mail government reports, make speeches, or announce his forthcoming books...

LIGHTENS LABOR

Cobwebs about a house are usually the sign that the housewife has more than she can do...

GOLD DUST Washing Powder

heavy work would be so lightened that the little things needn't be neglected. Gold Dust gives a woman time to rest, time to visit, time to read, and time to sew...

THE N. K. FAIRBANK COMPANY CHICAGO ST. LOUIS NEW YORK BOSTON

bristling all over with valor, every other page a portrait of himself, has filled the magazine over and under his own signature, written by himself...

SIGNS OF THE TIMES.

Although nothing has been published announcing officially the result of the conference of the Republican caucus committee on the currency question at Atlantic City...

(1) The redemption of all obligations in gold on demand. (2) The release of redeemed greenbacks only in exchange for gold.

It is further hinted that the program embraces other points taken, as were the above, from President McKinley's messages. This would mean:

(4) No national banknotes to be issued under \$10. (5) National banks to redeem their notes in gold.

Mr. Bryan has not failed to note some of those points; in one of his recent speeches he said:

They intend to give the absolute control of paper money to the national banks. They want to issue bonds in place of greenbacks, tax the people to pay the interest on the bonds and lower the taxes on banknotes.

He added that the scheme was a beautiful one to permit banks to invest their money in government bonds and getting it back to invest otherwise at the same time.

It may be remarked that even public men improve by a study of the currency question, as was illustrated in the recent speech of Mr. Bryan at the Jeffersonian dinner in Milwaukee...

"Bimetallists have contended that times will be made better by the return of the double standard and by the increased supply of standard money thus furnished for the business of the country."

How far this modification, and other expressions in the same direction, may be regarded as indicative of the platform of the Democracy of 1900, cannot be said.

The fiatists have started in with great vigor to convince the people of the agricultural sections that the retention of greenbacks by the substitution of a silver unit of value and government exchange of silver coin for its notes would reduce the rates of interest and make the circulation of money as free as air.

"Money" has printed in this number a communication from the Rev. Mr. Roberts of the Kansas Conference, which shows the activity among the western flatiries. They have a well-equipped literary bureau in Minneapolis which is flooding the farming sections of the union with tracts and pamphlets designed to impress the people that another great "crime" is contemplated because honest men demand honest money from the government.

Children deprived of fats and mineral foods have weak bones, flabby flesh and thin watery blood. The milk of nursing mothers, enfeebled by chronic diseases, or long continued nursing, produces the same results.

Scott's Emulsion is cod-liver oil partly digested and with the hypophosphites, forms a fat food which acts on the infant through the mother's milk, giving rich blood, strong nerves and sound flesh and bones to both.

It is no longer "Colonel Summers," but hereafter it will be "General Summers."

A Salem man who regularly has ague chills on Sunday is talking of becoming a Seventh Day Adventist.

"The politician is my shepherd; I shall not want any good thing during the campaign. He leadeth me in the saloon for my vote's sake; he filleteth my pocket with good cigars; my glass of beer runneth over. He prepareth my ticket for me in the presence of my better judgment. Yea, though I walk through the mud and rain to vote for him and shout myself hoarse, when he is elected straightway he forgetteth me; so, when I meet him in his own office, he knoweth me not. Surely the wool has been pulled over mine eyes all the days of my life, and I will kick myself forever."—Age of Reason.

Wait until the trusts begin pinching the big papers by cutting down advertising expenses, and you will hear a howl that will shake the universe. And will come to that in the near future. How the disinterested editors will scream to the voting dupes to help them kill the trusts and save the newspaper's idol, competition!—Yankee Socialist.

A teacher who cannot tell whether the children have learned what they been over without a month's reviewing—is, well, it has the merit of giving the slowest a chance to catch up. But what does it do to the industrious and fairly bright children? It keeps them behind to the pace of the slowest.

Movements of Delegates. The following delegates went to Portland this morning via steamer Ruth: Misses Grace Hancock, Blanch Kautner and Ella Rineman, of Salem Congregational church; Josephine Hibbard, Roxana Thompson, of Willard, Congregational church; Misses Clara Albert, Edna Parly, Lulu McHaffie, Dr. Ketchum, and daughter, G. W. Jenks, of Salem and B. E. Tuttle, of Rose-dale, Rev. Evans, and wife, of the Christian church.

Rev. F. E. Clark, founder, of the Christian Endeavor movement passed through Salem yesterday on his way to Seattle, where he will lecture, returning to Portland to the Oregon state convention.

Rev. W. C. Kautner's daughter returned from Dayton, this morning where Mr. Kautner had been to deliver an address and Miss Blanche was on a musical program at the college to assist Clifford Kautner.

The Prevalency of Things. "How the dickens do you keep your lawn so free from dandelions, Jones?" "Patent scheme. I found when I tried to raise grass, I found that dandelions, so I made a change and tried to raise dandelions."

"What good does that do?" "I get nothing but grass."—Harper's Bazar.

When we read of an elephant hunter who has been trampled to death in the wilds of India, we wonder at the foolishness of a man who will travel round the world and endure all manner of hardships in order to count death in a far away jungle. A man does not have to make a journey to India in order to count death in a manner equally foolishly.

Thousands of hard working men are daily counting death in a much more certain form, without ever leaving their native villages or cities. They are the men who neglect their health. They are the men who suffer death from consumption, or some other deadly disease due to improper or insufficient nourishment. The man who suffers from bilious or nervous disorders, indigestion, or who has lost the power to eat, rest or sleep, and who fails to take prompt steps to remedy these conditions, is courting death in the guise of some fatal malady. Dr. Pierce's Golden Medical Discovery cures 90 per cent of all cases of bronchitis, throat and laryngeal affections that lead up to consumption. It soothes the cough, facilitates expectoration and restores the lost appetite. It corrects all disorders of the digestion, makes the assimilation of the life giving elements of the food perfect. It invigorates the liver and purifies and enriches the blood. It is the great blood maker, flesh builder, nerve tonic and restorer of the system. It is the best of all known remedies for nervous disorders. Dealers everywhere and have nothing else "just as good" as I could not do so, and get so low as 25c a bottle. Union Co., Ark. "Our family physician had my husband that had been sick for a long time. I had pain through my chest and spine. I took your Golden Medical Discovery and it cured me. It saved my life."
