KEEPING ORDER

In the Domingo Republic.

Dewey Receives a few More Banquets.

Guests Included Prominent American and Italian Officials.

By Associated Press to the Journal. PUEBLO PLATA, Domingo, Aug. 7.—Senator Alvarez, minister of finance and Senator Cordeiro, with 100 men went to Monte Cristo yesterday. They united there with 700 men who assembled in behalf of the government for the maintenance of order. Armed steamers are watching the coast to prevent the landing of any insurrectionary expedition. The governor of Monte Cristo has three thousand men under arms. The situation is considered grave.

By Associated Press to the Journal. NAPLES, Aug. 7.—Admiral Dewey positively refused to discuss the operations in the Philippines or his relations with the German navy. The Olympia will sail for Leghorn Saturday or Monday next. Afterwards the cruiser will go to Genoa or Nice. Vice-Admiral Gonzales will give a banquet this evening in honor of Dewey.

NAPLES, Aug. 7.—Lewis M. Iddings, secretary of the United States embassy, and Mrs. Iddings, who arrived here from home for the purpose of welcoming Admiral Dewey, gave a banquet this evening in his honor at the Hotel Royal. The room was richly decorated with flowers and hung with American and Italian flags. The 18 guests included Lieutenant-General G. Loggiolo, of the Twentieth Salsone military division; Vice-Admiral Gonzales, commander-in-chief of the Naples maritime department; the prefect of police of Naples; Captain Benjamin F. Lambertson and four officers of the Olympia; R. C. Parsons, second secretary of the embassy; H. de Castro, United States consul-general at Rome; A. H. Byington, United States consul at Naples; Charles M. Conolly, United States consul at Messina, and Dr. Hasler. Mr. Iddings toasted King Humbert, President McKinley and Admiral Dewey. There were no set speeches.

LONDON, Aug. 7.—The Naples correspondent of the Daily Mail telegraphs the substance of an interview he has had with Admiral Dewey, who is represented as having said: "I was given to understand that the American victories over Spain had excited ill feeling against us in Europe, but so far as I am concerned, the reception given me could not have been more flattering. It will give me pleasure to say this when I return to America, and I shall be happy to do what I can to dissipate any American prejudices against Europe excited by criticism on American civilization."

Admiral Dewey, according to the Daily Mail's correspondent, refused to talk regarding the Philippines, but the correspondent asserts that he has the best reasons to know. "Admiral Dewey does not share the pessimistic views of some Americans about the possibility of subjugating the insurgents."

SOME BICYCLIST May Prefer the Elk Trails to Level Ground —Terrell Doesn't.

Some one is circulating quite a lot of misinformation regarding the new route selected by the county court for the Turner bicycle path in the vicinity of the reform school. The new route will not "necessitate crossing Mill creek at two points" but only in one as it would do in any case, nor will it "increase the distance between the two places over half a mile" as the cyclomane measure-ment is one-third. While it is true that it "will necessitate the construction of a board walk or path for a quarter of a mile through the bottom," it is not true that this is an unnecessary expenditure for had the path followed the old swash custom of going over the high ground it would have been necessary to build a bridge of practically the same length between the watering trough and the Cavanaugh place, where the ground is covered with water on both sides of the wagon road for a good portion of the year. In that case it would also have been necessary to purchase a strip of ground on one side of the road opposite the Cavanaugh place.

It is also doubtful if there will be sufficient time to thoroughly discuss the question and agree on a route for the bridge in question is partly built and is being pushed to completion. Judge Terrell, after consultation with J. H. Albert, president of the Marion county wheelmen's association, made this very wise change in the route, and by a slight lengthening of the path, and with no extra expense, avoids the only hill which forces the ordinary bicycle rider to dismount between here and Eugene.

While the expert rider could pump over the Reform school hill without being himself completely pumped, to the ordinary amateur it was an unprofitable hard pull and few ladies could make it. The judge evidently has a soft spot in his heart for the gentler sex, and the lady bicyclists, if no others, will appreciate his thoughtfulness and sound judgment.

ENGLAND'S PROPOSITION.

Transvaal Volksraad Will Consider It in Secret Session.

PRETORIA, Aug. 7.—The volksraad will discuss in secret session, the proposal of Joseph Chamberlain, British secretary of state for the colonies, that the effect and exact meaning of the new franchise law be inquired into by a joint commission. In the meantime, President Kruger has notified the British high commissioner in South Africa, Milner, governor of Cape Colony, of the willingness of the government of the South African republic to accept any friendly suggestions likely to lead to a settlement. It is evident, judging from the reports arriving from different parts of the Transvaal, that the burghers do not desire trouble with Great Britain, and on this account the situation wears a more promising aspect.

There is no foundation for the rumor that General Joubert has resigned command of the army of the Transvaal owing to differences with the executive.

DREYFUS TRIAL

Affecting Scene in the Court.

Dreyfus Again Passionately Declares His Innocence

The Trial Will Be Behind Closed Doors.

By Associated Press to the Journal. RENNES, Aug. 7.—The Dreyfus trial opened this morning in an atmosphere of perfect tranquility. Dreyfus in a new uniform of a captain of artillery scarcely moved during the proceedings. On court proceedings to review the witness, the most notable absences being Esterhazy, Patty DuClam and Mille Pays. Dreyfus half turned his head towards the seats of the witnesses and prepared when work called Esterhazy, but with no response was received Dreyfus returned to his previous attitude looking straight in front of him.

RENNES, Aug. 7.—The Dreyfus court adjourned after deciding to sit behind closed doors tomorrow and as many days as necessary for examination of the secret Dossier. A public session of the court will probably take place next Saturday.

Later in morning proceedings after the bill of indictment had been read, the prisoner was handed a long slip of card board upon which the Bordereau was pasted.

"Do you recognize this document?" Dreyfus replied with a passionate outburst, "No my colonel I am innocent! I declare it here as I declared it in 1894. I am a victim."

Here voice was choked with sobs which must have stirred every spectator in court. The voice of the prisoner did not seem human. It resembled the cry of a wounded animal. He ended his reply with the words: "Five years in the galleys, my wife, my children, my God, I am innocent, innocent."

BLACK REPUBLIC.

Outlook for Cuba Under Popular Government.

HAVANA, August 7.—A leading Havana merchant, a Cuban having business connections with most of the cities of the island, and who says he is well posted regarding Cuban affairs, said that universal suffrage in Cuba would mean a black republic in the near future, and that the only means of preventing it will be the incorporation of the island as a territory or colony, leading to American immigration, intermarriages, the enrichment of insular blood and the improvement of the population. In his judgment Cuba is otherwise doomed to become another Hayti. His assertions are based upon the fact that in a population not exceeding 1,250,000, with a voting capacity of 400,000, the Spaniards number only 50,000, the white Cubans 125,000, those claiming to be white 250,000, while the blacks number 200,000 in voting strength.

The theory is that more than half the Spaniards under a system of universal suffrage would not vote, and that the number who would vote must inevitably diminish each year. The Cubans who will no longer have the fresh blood of Spanish immigrants to draw upon will gradually grow fewer, while, on the other hand, the blacks, who thrive in this climate, and are big, fat and healthy, will increase at a rapid rate. The result will be, he believes, that in 50 years there will be more than 2,000,000 negroes in the islands, and less than 250,000 others. "Even in the first election," he declares, "the blacks could carry everything their own way if they knew their strength."

FRANCO-RUSSIAN FRIENDSHIP.

French Foreign Minister Luncbes With the Czar.

St. Petersburg, Aug. 7.—M. Del Case, French minister of foreign affairs, lunched at the Peterhof palace with Emperor Nicholas and the empress. The Russian minister of foreign affairs, Count Muraviev and several chief dignitaries of the Russian court, were also guests of their majesties. At the dinner given to M. Del Case by Count Muraviev at the foreign office there was a cordial exchange of toasts, both ministers affirming in the warmest terms the substantial character of the Franco-Russian alliance. M. Del Case today received numerous visits from high Russian officials. The newspapers and public protest against the admission of any other power into the Franco-Russian alliance.

Later Report.

BAR HARBOR, Maine, Aug.—Examination by divers in the vicinity of the Mount Desert ferry slip, the scene of yesterday's accident, caused by the collapse of a gang plank, seem to indicate that the twenty victims are all who perished as a result of the catastrophe.

Trolley Car Accident.

BIBBINGPORT, Aug. 7.—An open trolley car twisted and bent, lying in middle of Beck's mill pond, is the only visible indication of the frightful accident of yesterday, when twenty-nine lives were lost and a dozen people seriously injured by the car tumbling off a trestle.

Engineer Starr said the bridge were perfectly safe. In his opinion the motorman became bewildered as the car commenced the travel fast down the incline, lost his head and turned the current on instead of reducing it.

AMERICAN ASSULTED.

Negro Blacksmith Brutally Beaten by Transvaal Police.

LONDON, Aug. 7.—The Johannesburg correspondent of the Daily Mail says: A colored American citizen, a blacksmith, was mistaken for a Kaffir outside the exchange and was cruelly maltreated by the police, among whom was a field cornet, for his inability to produce a pass. The United States consul has taken up the matter.

The negro, who is a blacksmith by trade, was leading horses from his forge on Friday morning when three mounted policemen appeared and demanded that he show his pass. They used abusive language. The negro produced a paper proving him to be an American citizen and protested against the abusive language. Thereupon the policemen dismounted, knocked him down and kicked him in the back with their spurs.

During the afternoon, Dr. Matthews, to whom the American consul had sent the negro for medical treatment, exhibited nine spur wounds to the crowd that gathered outside the exchange. A dramatic scene ensued. Dr. Matthews harangued the people appealing for justice, and accused Field Cornet Lombard of being concerned. Lombard has submitted an affidavit denying that he was involved in the assault. A warrant has been issued for the arrest of the policeman.
