FIRST BLOOD IN THE TRANSVAAL

A British Force Caught Between Two Columns of the Boers.

An Armored British Train Has Been Destroyed -- Fifteen English Troops Killed -- Transvaal Government Secures More Gold -- Commander Who Destroyed the Jameson Raid in Charge -- American Consul at Pretoria Will Protect British Interests.

LONDON, Oct. 13.—A notable change in the position of affairs in the presence of Boers at Mafeking, forty-five miles south of Mafeking, which seems to indicate that they are endeavoring to get Colonel Baden-Powell between two fires. The gravity of the Boer advance can be better estimated when it is realized that they will thereby cut off railway and telegraphic communication to the north, isolating several positions. Despite the optimistic reports of the ability of Mafeking to repel the attack, greatest anxiety prevails here regarding the situation there as it is known that the respectable commandant Grouge, who captured the Jameson raiders, has the strongest force yet put into the field, with the exception of commandant general Joubert's force.

CAPE TOWN, Oct. 13.—An armored train has been destroyed south of Mafeking. Fifteen British troops were killed. The Boers shelled the wreckage after the train was destroyed. The official dispatch says: "The armored train was destroyed near Kraipan station, while on the way to Mafeking with guns."

CAPE TOWN, Oct. 13.—4:45 p. m.—The entire crew of the armored train, with the exception of the engineer, were made prisoners by the Boers.

LONDON, Oct. 13.—The war office has received the following: "Cape Town—The armored train from Mafeking, escorted by two seven-pounder guns, was attacked last night at Kraipan. A rail had been removed. The train left the track. The Boers fired artillery and captured it. No details as to casualties."

LONDON, Oct. 13.—Advices from Johannesburg report commanding by the Transvaal government of another 25,000 ounces of gold.

WASHINGTON, Oct. 13.—The state department was notified of the withdrawal from Pretoria of the British diplomatic agent and the existence of a state of war. Mr. Macrum, the American consul at Pretoria has been instructed to undertake the care of British interests in that section during the war.

LONDON, Oct. 13.—The cabinet met in council today. The principal business

was the arrangement for the assembling of parliament and other preliminaries.

By Associated Press to the Journal. CAPE TOWN, Oct. 13.—Premier Schreiner, in moving an adjournment of Cape house assembly made a notable speech, in the course of which he alluded to the position in which the Cape government was placed. The duty of all was to save the colony as far as possible from becoming involved in war.

CANADA HESITATES. About Participating in the British Program of Imperialism.

By Associated Press to the Journal. TORONTO, Oct. 13.—A special from Ottawa to the Mail says: The minister of public works has made it pretty plain, in that he regarded participation of Canada in any of England's foreign entanglements as a phase of imperialism that the Quebec liberals will not tolerate. Today he spoke in the council to same effect, with the result that another day's delay is added to the long period of government inaction which is creating discontent at home and disgust in the mother country.

The case of the State of Oregon against M. and J. Christenson, on a charge of stealing grain, on complaint of B. Kaplinger, was brought to an abrupt termination just before 12 o'clock. MADE HIMSELF AT HOME.

Stranger Enters Office of Salem Iron Works and Neatly Causes Big Fire. The Salem iron works had a rather narrow escape from fire last night, and a young inebriate from suffocation or worse.

Officer Smith saw a light in the iron works office about 1 o'clock. Finding the door unlocked, he went in and found a young man sitting in one of the office chairs asleep. A lighted candle was sitting on the desk under a rack upon which some books and papers were piled. These had taken fire and the room was full of smoke.

The young man could give no clear account of himself, and was taken to the cooler where he spent the night.

In the morning it transpired that the stranger was Walter Scott of Albany, who, in company with Fred Ackerman, also of Albany, had been seeing the elephant, and had achieved an extensive jag. Scott had been admitted to the iron works office by one of the employes thereof, who was also in an irresponsible state.

Recorder Judah imposed a fine on each of the young men, but they may be remitted upon further investigation.

Thousands are flocking to Cape Nome, and as that is a bleak, unprotected country considerable suffering is expected there this winter.
