THE STAYTON BRIDGE.

A Cause Celebrate That May Lead to Hostilities Between Linn and Marion.

Following is the order of the Marion county court in the Stayton bridge matter:

"In the matter of the bridge over the Santiam river near Stayton, Oregon. Now on this 18th day of October, 1899, at the hour of 3 o'clock p. m., this matter came on regularly for hearing before this court to consider the bids submitted for the repairing of said bridge, and it appearing to the court that the following named persons had submitted bids for the repairing of said bridge, as follows: C. F. Royal & Son, \$2,200, and J. B. Tilson, \$2,214, and the court being of the opinion that both the said bids are excessive, and that both of the same should be rejected, and it further appearing to this court that the county court of Linn County, Oregon, has refused to bear any share of the expense of repairing said bridge in a proper manner, and that finding from due and sufficient proof that the said bridge was erected in or about the beginning of the year 1889, and that the ordinary duration of bridges constructed of wood and about the vicinity of this county is the period of eight years, and that the court knowing of its own personal knowledge that the said bridge is utterly unsafe for further use and altogether dangerous, and is of the opinion that said bridge should be closed to public travel.

"It is therefore considered, ordered and adjudged that both the said bids be and the same are hereby rejected, and the deposit made by each of the said bidders is hereby directed to be returned to them.

"It is further considered, ordered and adjudged that the said bridge be forthwith closed to public travel, and that Henry Keene, the supervisor of road district No. 50, in Marion county, to which said district said bridge is located, be forthwith notified to close said bridge effectively to public travel, so that no person may travel upon or use the same, in order that this county may not incur any liability for any damages sustained by any person who may be injured through the unsafe and dangerous condition of said bridge, and the expense of said bridge shall be borne by the county of Linn.

The following order was sent to Henry Keene, supervisor of road district No. 50, at Stayton:

"I am hereby directed to close up effectively the bridge over the Santiam river near Stayton so that the public may be unable to use the same, because the said bridge is unsafe and dangerous, and Linn county has stubbornly refused to pay its proportionate share of the expense of repairing said bridge."

Captain Keene executed the order on Friday evening, all communication ceasing at that time.

JUDGE BARTON SPEAKS.

Geo. D. Barton, county judge of Linn county, publishes this:

"I notice in last night's Democrat an item of news, headed, A Bridge War. Now this last sentence is a misnomer, for to successfully engage in war, requires at least the participation of two parties who are irritated and lost their heads, while in this Stayton bridge matter the Linn county court is, and has at all times, been perfectly docile, gentle and dove like in its demeanor, pursuing the even tenor of its peaceful way, with perfect equanimity, without a ruffled feather, and good will to all, you, even to our erring brethren of the Marion county court.

"Our court after a very careful and critical examination of the bridge in controversy, assisted by Mr. Frank Miller, a civil engineer and a specially skillful and expert bridge builder, are of the unanimous opinion that said bridge is absolutely safe for public use, especially so since the defective end brace to the main span has been replaced by a new one, which repair was completed by order of the Linn County court on the 16th of this present month.

"Our court has not been convinced by bluff and bluster that large sums of public money should be uselessly expended in repairing good sound timbered bridges with new ones, and the court having entered such an order will maintain the same until such time as it becomes apparent that we were in error. We will not contend with the Marion County court in its tearing up or otherwise destroying the north half of the Stayton bridge, but we will prosecute to the full extent of the law any person or persons tearing up or otherwise destroying the north half of the Stayton bridge, situated in Linn county, Oregon.

Nature makes the cures after all.

Now and then she gets into a tight place and needs helping out.

Things get started in the wrong direction.

Something is needed to check disease and start the system in the right direction toward health.

Scott's Emulsion of Cod-liver Oil with hypophosphites can do just this.

It strengthens the nerves, feeds famished tissues, and makes rich blood.

Clackamas county now has 60 miles of well made road under the new system. Broken rock and gravel has been liberally used. There was over \$10,000 spent this year on the Pleasant Hill road. The Molalla road is receiving an expenditure of \$10,000 this county paying one-half and the citizens of Oregon City the other.

SORE LUNGS

Sore lungs, pain in the chest and pain in breathing are quickly relieved and cured by the use of reliable specific, Dr. Bull's Cough Syrup. This remarkable remedy breaks up a cold in one night and is, without doubt, the best medicine for all affections of the throat and lungs. It has cured thousands and will cure you. It never disappoints. Try it at once.

Dr. Bull's Cough Syrup

Will quickly heal Sore Lungs.

Does not irritate and does not contain any poisonous drugs. All druggists.

A Great Attraction.

Probably no young actor now before the public has been more successful than Ben Hendricks in the popular comedy of Swedish dialect comedy. Mr. Hendricks has been singularly fortunate. In going to the stage a new and original character, he has done more for stage literature than the work of our actors, too many of whom—more the pity—are content to be mere imitators. Mr. Hendricks now has a new play to offer in "A Young Gentleman" and it will be given at the Grand Opera house by special arrangement with Jacob Litt. The chief character is, of course, a Swede who has recently taken up his abode in America. Mr. Hendricks' portrayal of the rolick character, he has made distinctly his own—needs no endorsement. It is already established as one of the most striking and humorous characterizations of our time. In this new play, however, Mr. Hendricks introduces his auditors to new kind of Swede—a young mining engineer whose education has not been neglected. The qualities which make those sons of the Northland our best citizens are brought out with vigor and characteristic humor, the unflinching integrity, the courage, the steadfastness and the almost ingenuous simplicity of the honest Swede are nicely portrayed by the clever star. A powerful company will interpret the play, which is under the direction of Arthur C. Alston. Seats are selling rapidly for this splendid attraction.

An Economical Cook

Should have one of our meat choppers attached to her kitchen table the year around. Its usefulness is not confined to any particular season, for any particular article of food. The tough steak and "left over" pieces of cold meat may be changed into palatable and wholesome dishes by its use. Besides:

It will chop meat and apples for your mince pies. It will chop nuts for your salad and cake. It will chop cabbage for cold slaw. It will chop onions and peppers for the Chili sauce. It pulverizes crackers for escalloped oysters. It pulverizes dried bread for dressing. It pulverizes nuts for nut butter.

In fact it does everything and more than can be done with chopping bowl and knife and in one-third the time. The price will permit the family of the most moderate income to own one, and its cost can be saved out of the scrap dish. We sell them for

We wish to announce to the general public that we have purchased the most elegant and magnificent funeral car of latest design, and are therefore in a position to handle funerals in a much better manner than heretofore, and with less expense. We have long felt that Salem, being the capital city of a great state, should be up to date in the manner of handling funerals, and we have therefore spared no expense in purchasing the car. It was built by the James Cunningham Co., Rochester, New York, who build the finest vehicles in the United States. While this is not the most expensive funeral car ever built, still it is the finest ever shipped to Oregon.

We cordially invite all to inspect our facilities, and when necessary requires, to give us liberal patronage.

This is to certify that Bertha P. Conner, of Mt. Angel precinct, Marion county, Oregon, has suffered from a cancerous growth in the left ear for about three years. The growth was cut out twice and burned out once by Albany Physicians, but the growth came back as bad as ever and pinned her so badly that she had to be taken from school. After three weeks' treatment by Dr. J. F. Cook, of Salem, Oregon, the Botanical Specialist, the growth entirely disappeared, and at this date, four months since treatment was begun, the growth has not reappeared, and the ear has entirely healed leaving only the scars inflicted by the Albany doctors.

I hereby certify that the above statement is absolutely true, and that Bertha P. Conner, the person mentioned in the affidavit, has resided in my family since early childhood, bearing the relationship to me of niece.

H. C. LLOYD.

Subscribed and sworn to before me this eighth day of June, 1899. W. W. Hall, county clerk of Marion county, Oregon.
