THE NEWSPAPER OX IS GORED.

THE JOURNAL has received a letter from W. D. Thomas, editor of the Fulton Sun, of Fulton, Missouri, urging all publishers of newspapers to help along the anti-trust agitation and especially to direct their efforts against the paper trust which has arbitrarily advanced prices 60 to 75 per cent within a year. Editor Thomas says:

The most damnable of all the trusts is the paper trust.

News that was worth $2.05 per hundred delivered one year ago is selling at $3.50 per hundred delivered today.

Envelopes, flats, ruled goods and all other paper stocks have advanced from 60 to 75 per cent. The trusts are thus robbing the publishers of hundreds and thousands of dollars of hard-earned cash.

The little profit you make in the paper business last year will all be contributed (by force) to the paper trusts this year.

Take the tariff of $6 per ton from paper, protect our forests, protect the publishers, protect the poor country printer and "bust" the trust.

The trust owns 35 out of 38 mills, owns all the available wood and water supply for paper pulp and have advanced white paper 60 per cent. Ask your congressman to vote to undo this trust.

If we will pull together we will undo the paper trust and save American publishers millions of dollars every year.

Strike down the country papers and the most earnest and most potent defenders of the people's rights are destroyed. The condition which permits the Paper Trust to live and fatten on the meager earnings of the country editor, the law which protects the trusts in its extortion of millions of dollars and the combinations which keep that law on the statute book, are all aimed directly at the defenders of the people's rights. When the Trust shall have squeezed the little country papers out of existence, monopolies, combinations, subsidies and all sorts of conspiracies will have smoother sailing. The censorship of the press will be complete when the Trusts own and control all the papers. Above the dim of battle comes the mighty cry for a Free Press and untrammeled expressions of opinion.

The editor of the Sun seems to have been carrying on this campaign for some time, and he has received favorable and even enthusiastic responses from papers in nearly every state in the Union.

If the way to a man's heart is through his stomach, it is equally true that the way to his brain is through this pocket. Many a poor country editor who has been whooping it up all through his newspaper existence for a protective tariff and the beneficence of large combinations of capital has been obliged to put on his thinking cap since the paper trust has jumped up the price of the paper stock he is obliged to buy.

He knows that the manufacture of paper was profitable before the raise. He knows that the trust is paying no more for raw material than it did before; no more for freight; no more for labor in any form. He knows that the trust has saved on the latter item by economies of management over the old individual system; that it is paying out much less for labor per ton of paper, and thereby decreasing the patronage of newspapers. He knows that every cent which the trust is wringing from the newspapers, by this purely arbitrary raising of prices, goes to swell the profits of the trust. And he knows that the existing tariff of $6 per ton on paper enables the trust to charge just $6 per ton more for its product than it otherwise could. When the the matter is put before a paper buyer in terms so plain, he usually sees it, and he wants to see that particular "protection" abolished.

It is a plain proposition, so plain that "a wayfaring man though a fool need not err therein;" and, as a class, newspaper men are not fools.

No matter what our tariff convictions may be in the abstract, no matter what the tariff may have done in the past for the establishment of infant industries; this is a plain case where the tariff helps the trust to rob the people.

Like other newspapers, THE JOURNAL is paying 60 per cent more per ton for the paper it is printed on than it paid eight months ago. Envelopes which then retailed for $1.00 a thousand can not now be bought for less than $1.40 a thousand in lots of 50,000.

As the Sun well says: "The tariff on white paper is a tax on intelligence." The sooner it is abolished the better.

The war in the Philippines is over, but not the fighting.

Oregon is herself again on weather—sunshine and flying dust in January.

Senator Daly says that he is in the congressional race to stay to the end. He is known as a stayer.

† † †

The altitude of Spionkop seems to have been too high for General Warren's health, so he has abandoned it.

Buckner to McKinley: "We gave up our party for our principles. You gave up your principles for your party."

* * *

Hot war news makes a hot evening paper, and that's why so many rustle for a JOURNAL before going home at night.

† † †

The congressional fight seems to run to geographical extremes by Brownell of Clackamas, and Carter of Jackson taking the lead.

† † †

The Woodburn Independent says the political bosses do it all, and that the "common sheep" of the party are not considered.

* * *

The Oregonian insists that Portland Republican club delegates were selected on the square. They say the same in Salem, too, so what's the use kicking.

† † †

Tom Tongue's organ is busy proving how useful that congressman is to the Siletz and Grand Ronde Indians. If the claim is true, it's certainly a fine piece of reciprocity.

* * *

The Salem papers are in danger. The Pilgrim Brothers, of that city, are about to discuss the "Moral Effect of the Press."—Albany Democrat.

And they did so, and they said it was good.

† † †

Anent the congressional situation, the Albany Democrat predicts: "But the Democrat continues to predict that he will get the nomination, just simply because it has so been decreed by the bosses."

† † †

It pays to be accommodating. Several years ago THE JOURNAL put up 10 pigeon holes in its office to accommodate that many subscribers. It has now grown to 200, and still they come. We'll have to expand some more.

The Tagalog guerrillas are now reported to have evaded the troops who were chasing them and to have mustered in large numbers within ten miles of Manila. Otis accordingly reports that the war is nearly over.—Drain Watchman.

Editor Jones's ideas of expansion don't seem to apply over in the Philippines.

"The president has given his whole tariff case away. The exigencies of his imperial policy have compelled him to kick over the ladder by which he climbed first to a national reputation and then to a presidential nomination and the presidency itself. It is a queer situation, which will vastly amuse the free traders, but there is no fun in it for those who are engaged in industries which the president in former days had secured them was absolutely dependent upon tariff for existence."—Springfield Republican.

London Life.

One of the typical and characteristic scenes in Murray & Long's spectacular production of "London Life" is an English pawnshop in full swing; it is in such a place that one hears many of the stories of the poor and unfortunate, looks on many scenes of sorrow and suffering. If "London Life" is to be faithfully reproduced, it seems it must include so famous, and sad to say, so necessary, an institution, as a pawnshop. Still this is London Life, but it has its bright side as well, and it is with that the story of the play deals principally. There is an abundance of humor—plenty of tease and much of child life, interpreted by that charming little artiste Hassel Lewis, or that all tastes are gratified, all emotions stirred and so, all are pleased. London Life will be at Reeds opera house next Tuesday evening.

Bids for Lumber.

Bids will be received at the office of the Recorder of the city of Salem, Oregon, up to 5 o'clock p. m. of Tuesday, February 6, 1900, for price per thousand feet for furnishing said city with lumber for the four months following the date of this advertisement. The right is reserved to reject any and all bids in this behalf. Done by order of the Common Council, this 23rd of January, 1900. N. J. JUDAH, Recorder. 1 27-10t

Late Publications.

The Outlook will begin at once the publication of a series of addresses recently delivered at Cooper Institute, New York, by the Rev. Lyman Abbott, under the general title "Christ's Laws of Life." Later on Dr. Abbott will contribute seven articles on "The Bible in the Light of Modern Literary Study." During 1900 Dr. Abbott's sermons and addresses will be published exclusively in The Outlook. ($3 a year. The Outlook Company, New York.

Charles Augustus Briggs, a professor in the Union Theological Seminary, whose recent expulsion from the Presbyterian and immediate entrance into the Episcopal Church attracted much attention, contributes a very timely and peculiarly appropriate article to the February number of Appletons' Popular Science Monthly, under the title Is The Christian Religion Declining? He points out that the answer will depend upon the point of view, but in his opinion it is advancing instead of declining.

RICHARD HARDING DAVIS' NEW STORY.

La Lettre d'Amour is one of the best love stories Richard Harding Davis has written. The scene is laid in London and the characters are a beautiful American girl, her mother, a wealthy young Harvard man, and a violinist of the Hungarian orchestra. The illustrations are by Howard Chandler Christy. La Lettre d'Amour is the leading story in the midwinter fiction number of The Saturday Evening Post, which will be on sale January 25th.

The writer of a new book, Mr. David Lubin, is by no means unknown to the general public of the United States. He is a merchant of California; a large employer of labor; a man of high commercial standing, who has an extensive acquaintance with agricultural affairs. In his public life, he is best known as advocating the plan of placing upon agricultural exports an export bounty, to offset, in favor of the farmer, the support to manufacturers given by import duties. This measure, as urged by him, has held the attention of Congress in several sessions, and has attracted notice in this country and in England. He is known as an incisive thinker and a fearless advocate of his beliefs. G. P. Putnam's Sons, New York and London.

The February number of Everybody's Magazine is filled with that enjoyable combination of amusing and profitable reading for which the publication is already well known. The "Simple Explanation" for the month is on the subject of trolley-cars, and their writer explains in a remarkable clear and graphic manner just how electricity is generated, and how it turns the car. For a purely scientific subject it has been treated with astonishing simplicity and brevity, and no one can read the article without interest and profit.

The February Frank Leslie's Monthly has a new story by Bert Harte, entitled "Washington's Last Days," and a graphic article by Harold Boyce on "The Fighting Races." The latter is handsomely illustrated with maps, portraits, battle scenes and other attractive pictures.

The commonwealth for February has an article on the "Home Life of the Czar," by W. T. Stead and a prize article by Annie R. Ramsey, on "The Well Dressed Woman."

Ainslee's Magazine for February is notable for an extraordinarily varied table of contents. Perhaps the most valuable contribution is the character sketch of Cecil Rhodes, by Allen Sangree.

Hong Kong merchants are said to be pleased with trade conditions since the Philippines are under American control.

Sick Headache

Is the cause of untold suffering to many women; of neglected families and unhappy homes. Pleasure is banished from the life that is subject to these attacks, and yet it is possible to be free forever from such trying ordeals. Dr. Williams' Pink Pills for Pale People, by enriching the blood, toning up the nerves, and strengthening the stomach, make sick headache impossible, and restore nervous energy to the despondent sufferer. The full name:

Dr. Williams' Pink Pills for Pale People

is on every package of the genuine.

Mrs. Fannie B. Stoffle, of Martinsville, Mo., says: "I used to have terrible sick headaches, which I had as far back as I can remember. In recent years they were getting worse. A few years ago I took treatment of a specialist in Kansas City, but it only relieved me for a while. When I came here two years ago my health was miserable. My husband, who had great faith in Dr. Williams' Pink Pills for Pale People, insisted that I commence using them. After taking a few doses I could see an improvement, and my headache spells were not so severe. I used four boxes, and since that time I have not had any of those attacks, and I never felt so well in my life."
—*From the Republican, Bethany, Mo.*

No discovery of modern times has proved such a blessing to mankind as Dr. Williams' Pink Pills for Pale People. Acting directly on the blood and nerves, invigorating the body, regulating the functions, they restore the strength and health in the exhausted patient when every effort of the physician proves unavailing.

These pills are sold in boxes at 50 cents a box, or six boxes for $2.50, and may be had of all druggists, or direct by mail from Dr. Williams Medicine Co., Schenectady, N.Y.

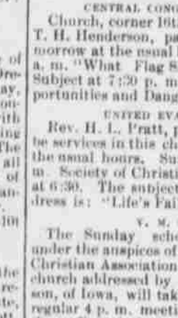
"I Thought I Would Never Be Well Again."

One of the saddest things that can happen to a woman is to fall into such a depth of despondency through unnatural weakness and disease as to imagine that she can never recover.



"For two years," says Mrs. W. G. Day, of Trussville, Jefferson Co., Ala., "I had suffered with weakness, headache, pain in my back and side, which would become so sore that I could hardly bear the weight of my hand on it. I had cold hands and feet and many other bad symptoms too numerous to mention. Home physicians' treatment did me no good. I had become very despondent and thought I would never be well again.

"But with a faint heart I wrote to Dr. R. V. Pierce, of Buffalo, N. Y., and described my symptoms as best I could. He promptly answered by letter, and sent me a treatise on 'Woman and Her Diseases,' and also outlined a treatment for me which I followed to the best of my ability, and after taking six bottles of the 'Favorite Prescription,' I can truthfully say that I felt like a new woman. In a few months afterwards, when I was suffering with the many troubles due to pregnancy, I procured 'Favorite Prescription' again and took it through that time. I soon became very stout and felt well. In labor only a short time and got along well better than I ever did before. My baby is a fine boy, now two months old, and has never been sick any. I cannot find words sufficient to express my praise of Dr. Pierce's medicine. I never miss an opportunity to recommend it. I hope all suffering ladies will correspond with him, for they will be benefited by taking his medicine."

Letters to Dr. Pierce are treated in the most sacred confidence, and never published without permission, and the most careful, professional advice is given by return mail free of charge.

Women would understand their own mental and physical natures better; they would make better wives and mothers; they would be every way healthier, happier, and more capable, by reading and studying Dr. Pierce's great thousand-page illustrated book, The People's Common Sense Medical Adviser. It is a veritable, complete family medical library in one magnificent volume. More than half a million copies have been sold at $1.50 each, but a free copy, paper-bound, will be sent to any woman on receipt of 21 one-cent stamps, to pay the cost of mailing only, or if a heavier, handsome cloth-bound book is preferred, send 31 stamps.
