## INDEPENDENCE FOR LUZON

### The Only Terms on Which the Filipinos Will Stop Fighting

#### GENERAL MAC ARTHUR LAYING PLANS TO CAPTURE BODIES OF INSURGENTS

#### The Administration Pursuing a Wise and Conservative Policy in China to Which No Reasonable Person Can Object.

**By Associated Press to the Journal.**  
New York, Nov. 10.—In the course of a lengthy dispatch from Boston, appearing in the Herald, Senator Sixto Lopez, the former member of the Filipino Commission to the United States and a close friend of Aguinaldo, is quoted as follows when asked what the future course of his people would be:

"Under any conditions involving withholding of independence the Filipino will continue to fight in defence."  
"What will induce the Filipinos to stop fighting?" he was asked.  
"First the granting of independence," he replied. "Second a definite declaration of independence; third a declaration of a policy by the administration placing the Philippines in a similar position to Cuba. Any one of these would result in an immediate cessation of hostilities and everything including foreign obligations protection to life and property cooling relations, military and naval bases could be arranged by friendly negotiation."  
Senator Lopez refused to discuss the result of the election last Tuesday. When asked if he cared to say anything in reference to the suggestion that he might be in communication with Aguinaldo he said:

"I am glad of the opportunity to state that while in this country I have not had any communication whatever with Aguinaldo and have even refused to undertake to forward a friendly letter for an American citizen whose patriotism I would not question."  
Major-General MacArthur says a Washington special to the Herald will personally direct the vigorous military operations to be directed against the Filipino insurgents. Major-General J.

the regular war. If in the Philippines General MacArthur can suppress the rebellion before the volunteers come and restore order in the archipelago there will not be the need for a large increase. Before the congressional session is very far advanced the campaign should be far enough along to shed some light on this question. If any army of nearly 70,000 men prosecuting the most vigorous conditions cannot overcome the Filipinos the administration will have a strong case when it asks Congress for an increase of the army. It will be able to put the request on the ground of absolute necessity."  
A cabinet officer especially close to the President is quoted in Washington dispatches to the Herald as saying:

"The Chinese question in all its phases was discussed by the cabinet and it was determined to follow the same policy hitherto observed. The United States will join no power or group of powers but will act concurrently with all if it deems it desirable in the interest of harmony and the attainment of the principles to which it is pledged though it will preserve its time-honored course of independence of action."  
Mr. Wu, Chinese minister, said last night that there would be no demand of China's purpose to pay any indemnity of the powers would demand.  
"Where there's a will," he said, "there's a way and China has the will."  
Regarding the objection to the proposition that China should increase her import duties, it being urged that the foreigners would pay the indemnity, he said:

"That is a great measure. The proposition to increase the tariff was first made about five years ago. What we call the Liki tax at every barrier is very annoying to the foreign merchants and they have advocated that a proper increase in the tariff be made and the interior tax be abolished. It would be to the advantage of both China and foreign nations if the tax were to be increased and the Liki tax abolished. China has vast resources and a reasonable deduction is drawn that this reversal of the usual order of things is due to the wonderful spread of 'imperialistic ideas' among English-speaking peoples. Amid this unexampled appreciation of events occurring on the American continent the return of General Hler excites only a faint ripple of enthusiasm. The sobriquet 'Ferryman' is to fresh in the public mind to allow the complimentary references now made to him to have much force through he will be the object of many demonstrations."  
Another international matter likely to come up between the United States and Great Britain is the suggestion to suppress the Filipino junta at Hong Kong. Inquiries reveal that no instructions have yet been received at the United States embassy to this end though Joseph H. Choate be instructed to apply for the suppression of the junta it is likely his request will be granted. An official of the foreign office said to a representative of the Associated Press:

"The extent of the steps we could take in this matter entirely depends upon the strength of the case Washington can make out against the junta. If it is proved the junta is materially assisting the cause of the Filipinos we certainly shall only be acting in the spirit of ordinary international friendship in suppressing the organization. Moreover the British Empire has no desire to harbor such bodies as juntas."  
Those who have been against the docking of horses' tails have won a great victory. The Queen in sending out an order that none of her horses be treated in that way also announced that she had persuaded the Prince of Wales to follow her example. With royalty taking up such a vigorous stand it is likely that docked horses will soon be as rare in London as full tailed horses are at present.  
Another startling change in appearance is the Prince of Wales wearing eye-glasses. The future King has long enjoyed good eye sight but now on the advice of an eminent oculist he has had recourse to this fashionable form of spectacles. They are selected from the best obtainable lenses, are framed in tortoise shell and form an altogether elaborate addition to the royal countenance.

**Special Advance Cable News By Associated Press to the Journal.**  
London, Nov. 10.—The elections in America and Canada held the interest of Great Britain throughout the week to an unprecedented extent. Of the two great contests that between President McKinley and W. J. Bryan was by far the most closely watched. There is no concealing the fact Mr. McKinley's reelection meets with the almost unanimous approval of the press and public while the foreign office expresses undisguised relief that it will not have to deal with a new set of diplomats in this critical stage of affairs in the far east and in other parts of the world.  
Among the columns of comments appearing in the journals there is common to all an expression of surprise at the return to power of the existing governments of England and the United States and Canada; and rightly or wrongly the deduction is drawn that this reversal of the usual order of things is due to the wonderful spread of 'imperialistic ideas' among English-speaking peoples. Amid this unexampled appreciation of events occurring on the American continent the return of General Hler excites only a faint ripple of enthusiasm. The sobriquet 'Ferryman' is to fresh in the public mind to allow the complimentary references now made to him to have much force through he will be the object of many demonstrations."

No clue to the identity of the murderer has yet been discovered. Later details show that the child had started from school in her buggy. The horse and buggy reached the ranch without the girl. About six o'clock the searchers found the girl thirty yards from the roadside in an unconscious condition.  
An examination showed that she had been assaulted and stabbed. Around her head were wounds caused by a knife, her throat was cut, her body was a mass of bruises and her head was crushed by being stamped on as shown by the mark of foot heels.

## OLD MAN DIED UNIDENTIFIED

**By Associated Press to the Journal.**  
New York, Nov. 10.—While his family and the police were searching the city for him, John Lynch, a wealthy retired diamond merchant, whose wife keeps a jewelry store on Fifth Avenue, died unidentified in Bellevue hospital.  
Mr. Lynch was 75 years old. He had been an invalid for several years and was kept under close surveillance by two trained nurses. The old man slipped out of the house yesterday and was later found unconscious in the street half a mile from his home. There was nothing found on him by which he could be identified and he was taken to a hospital, where he died without recovering consciousness. The body was identified last night at the morgue by one of the old man's sons. His death is said to have been due to the infirmities of old age.

#### Charged With Taking a Gold Watch From an Acquaintance With Whom She Had Been Staying.

A warrant was issued out of City Recorder Judah's court Thursday evening for the arrest of a girl who was charged with the theft of a gold watch valued at about \$30 and about \$1 in change from a friend. She had been working out in this city at different places, and she has been staying several days at the home of acquaintances in East Salem and the watch was missed on Thursday afternoon. As no one else had been in the house who could have taken it, the lady accused the girl of taking it. She denied it but refused to submit to a search, and was held.  
The police have been watching for the girl but had not located her. The gentleman in whose home the theft was committed, met her this morning. After some conversation he proposed that she go with him to the chief of police, to which she consented. She at first denied everything, but Chief Gibson questioned her closely and she soon broke down and offered to go and get the watch, which she did, accompanied by the gentleman. The young girl is about sixteen years old. This Journal withholds her name, as this seems to have been her first offense of this kind, and it is hoped that she will learn a valuable lesson from the experience.

## GEN. MAC ARTHUR MAKES A REPORT

### On the Deplorable Condition of the Masses.

#### GUERRILLA WARFARE THE PRESENT PLAN OF RESISTING THE AMERICANS

#### Lord Roberts Reports an Unprecedented Event in the South African War--Canadians Captured and Then Released by the Boers.

**By Associated Press to the Journal.**  
Washington, Nov. 10.—General MacArthur commanding the army in the Philippines has submitted a report to the war department. He refers to the charge in Aguinaldo's plans in abandoning an army organization and starting a guerilla warfare. The conditions of the country have afforded advantages for such a policy, he says, as they have enabled the insurgents to appear and disappear at their own convenience. At one time they are soldiers and immediately after are within the lines in the attitude of peaceable natives.  
"The Filipinos," says MacArthur, "are not a warlike or ferocious people. Let to themselves a large number would gladly accept American supremacy which they are gradually coming to understand means individual liberty and absolute security in lives and property. They have been maddened, however, by sophistry and stimulants applied to national pride, until the power of discriminating in matters of public concern or private interest has been almost entirely suspended."  
London, Nov. 10.—Lord Roberts reports to the War office as follows: In a very successful engagement November 6 an event unprecedented in this war occurred when 200 mounted Boers suddenly charged the rear guard to within seventy yards, when they were stopped by Canadian dragoons.  
During the fight sixteen Canadians fell into the hands of the enemy, who released them after removing their own dead and wounded, during which operations the Canadians were compelled to lie on their faces in order that they might not see how heavily the Boers had suffered. Our casualties were two killed and 12 wounded.

## FURIOUS ACTIVITY RULES THE DAY

**All Embracing and Eager Demand for Stocks and Bonds. Foreigners Have Been Steady Sellers.**  
Associated Press Weekly Summary of Wall Street.  
New York, Nov. 10.—One of the largest days business in the history of the stock exchange followed the election on Wednesday and has continued with only slight abatement during the rest of the week. The offerings of large sums of money on call which has been withheld over election helped to stimulate the furious activity of the speculation. Substantial buying of an investment or semi-investment both in stocks and bonds was a sustaining influence and afforded solid medium for speculative operations. The digestion of attractive profits has caused slight checks to the advance at intervals but the rise has been continually renewed before the all-embracing and eager demand for stocks and bonds coming from all quarters of the country. Foreigners have been steady sellers of stocks.
