# HORSELESS CARRIAGES FOR SALEM

## Fancy Automobile is the First

Made its Trial Today, and will be Speeded

Liveryman will Get a Big One for Picnic Parties

Salem can no longer be properly denominated a slow town. The capital city now has within its boundaries one real automobile with the prospect of others being purchased before the season advances much further. And this is in addition to a large number of motor bicycles.

reach Salem, is the property of O. J. Wilson, the Court street wheel dealer. It is a dandy. With 4-inch pneumatic tired wheels, a fine cushioned seat, and propelled by gasoline, the machine is a valuable one and it is quite likely Mr. Wilson's company will be eagerly sought during the season suited for automobiling, at least. The nachine was adjusted Wednesday afernoon and may be expected to make its initial appearance soon.

The automobile fever is believed to be contagious. An enterprising Salem liveryman, who has made a big success at his business, is contemplating the purchase of a three-seated automobile, of a carry-all patternsomething suited for small parties of six to nine persons. He expects to make a trip East within a few weeks and if he succeeds in finding a machine, that will suit his needs, and that is propelled by electricity, he will bring it back with him. In this way even those who cannot afford to own a machine of their own, can enjoy the luxury by riding in this vehicle, which will be placed at the service of the public for a normal rental.

With the whiz and burr of several notor-bicycles and the appearance of a number of "horneless arriages" on Salem's streets, the cap-ital city is becoming quite metropolitan and is able to keep step with even larger communities, in this respect as

# Prosperous

A recent dispatch from New York

After a careful survey of conditions in the West, George J. Gould, who has returned from a trip over the Missouri Pacific and Wabash lines, is convinced that the present era of prosperity which the West is enjoyfng will continue for at least another year.

"In all my experience of the West," Mr. Gould said, "I have never seen wheat look as well as it does teday. It is a bit too early to speak of corn or cotton, but as the soil is thoroughly water-soaked these crops ought to thrive amazingly. The railroads will not have any trouble in moving the great wheat crop, but I think we will \$3.70; graham, \$3.45@\$3.85. be short of cars in the fall if there is a big corn crop.

"The physical condition of West rolled, \$23. ern roads was never bettter than it is now. I heard no talk of money shortage while I was in the West. The banks are holding their own bal ances in their vaults, and they won't have to draw on New York for money to move crops. From what I saw, I believe that this practice of drawing on New York, as it is called, will be an uncommon occurrence in the future. The Western banks have their own money to loan to their own people unless money should get so high in Wall street as to make it profitable to send it East. From all Indications I can see a full year of prosperity

ahead for the West." Mr. Gould referred to the St. Louis exposition in very enthusiastic terms. He visited the grounds twice and was very much impressed with what he saw. "I think it will be the finest fair ever held," he said. "Two things people of St. Louis: One is that the appears. from the fair grounds, St. Louis seems to have done absolutely noth W.

PLEASING RESULTS

always foliow the fisc of New-oro's Terpicide, the new scien-tilic cure for dandruff and fell-ing hair. It possesses certain proporties that kill the germ or microbe that causes all the trouble by sapping the oil out of the hair bulb. With this parasite destroyed, dandruff and the falling hair caunot exist. A thick, soft growth of hair springs forth where formerly thin, brittle hair, or perhaps total baldness held sway.

For Sale at all First-Class Drug Stores. For sale by Daneiel J. Fry. Send 10
