DR. J. F. COOK

Has come to the conclusion that all professions of the healing art out side of the vegetable kingdom is a failure. When your system is run out without pure blood. You will only find vitality in the vegetable kingdom. Poisonous drugs nor doctors' knives nor thunder and lightning will not remove the cause, but lay the foundation for all kinds of disease. Those poisons go into your bones, and kill the life of them and create all kinds of diseases, cancerous tumors, consumption, dropsy, bone diseases, etc. You must bear in mind that his medicine is not a poisonous tonic, nor a stimulant, nor temporary relief which you get from poisonous drugs, where the results are sure death sooner or later. Do not blame the medicine, when it takes an effect and stirs up the poisons of disease in the system. You must not expect to be cured in a few days, for your sickness or disease has been a long time coming on, and it will take a long time to get it out of your system. It will take months or a year to build a new body from the bones up. This is what the people do not understand. They are used to being humbugged. His medicines are composed of Nature's Herbs—what the human system requires. When the animals get sick they will help themselves to those herbs, for they have the instinct, and the people have not, so we have to make a study of it. It has been a life study with Dr. Cook. Do not get weary; this life is too short and too sweet to worry out of this world.

Our prices will be the same as the local brewery has charged and the service we will render will be made satisfactory.

Salem Brewery Ass'n

Here's Something Fishy.

When it comes to relating "fish stories," the scribe of Salt Lake City who formulated the following entertaining tale deserves consideration: One of the strangest cases in the history of medicine has just been brought to the attention of one of Salt Lake's prominent surgeons.

Sojourning in the city at the present time are a mother and daughter, both prominent in the social world of one of the country's beautiful summer resorts.

The daughter is just 16, and is a native of the West, but has been educated in the East. From birth she has been strangely marked, the entire body under the clothing being covered with myriads of scales, the arms and legs resembling those of some curious inhabitant of the deep more than the limbs of a human being.

By the use of a lotion applied every few days the disfiguring scale is kept from the face and hands of the young lady, and even the closest observer would fail to detect the presence of anything out of the ordinary.

Not only does the young lady bear the external marks of the finny tribe, but like its members seems utterly unable to exist without frequent immersions.

When at the seaside or other places where fresh water bathing is possible it is said that she spends hours daily swimming about in the water, and at her own home spends much of her time in the bathtub. A story is told that when she was a babe years of age her parents were visiting along the coast of California, when, one day, the little one jumped into the bay along the southern coast and swam out fully a quarter of a mile before she was rescued.

Aside from the scales on the body, a tendency to webfoot is the only other mark which distinguishes this fair young woman. Her mind is bright and highly trained, her manners are winsome, and wherever she is known she is a great favorite. The doctor believe there is no cure for the dreadful affliction, and the case will probably be handed down as one of the phenomena of the age.

WHAT TIME PROVES.

This thing of being sick and looking for a cure is a mighty serious business. People are not given to joking, even at the first symptoms of the approach of the grim destroyer. They do not want to be the subjects of experiment, but want medicine that has been the test of years behind it. A medicine that has been made and used for 20 years gives assurance of its worth, and can be taken with a faith that they have the very best cure the world affords.

Can You Blame Her

If at last she tires of the fault finding of a dyspeptic husband and leaves him? The worst of the dyspeptic is that he does not realize his own meanness. His health is entirely out of perspective. Dyspepsia and other diseases of the stomach and organs of digestion and nutrition are perfectly and permanently cured by the use of Dr. Pierce's Golden Medical Discovery. It cures the worst forms of the disease. It cures when all other medicines have failed to benefit.

Accept no substitute for Dr. Pierce's Golden Medical Discovery. There is no other medicine for the stomach, blood and lungs, which can show so wide and wonderful a record of cures. It always helps. It almost always cures.

\$100 Reward.

\$100 reward will be paid for information leading to the arrest and conviction of the party or parties who, on the night of August 4, 1903, damaged and attempted to destroy the dam at the head of the ditch of the Salem Flouring Mills Co., in the Santiam river, near Stayton, Oregon.
