Has come to the conclusion that all profession of the healing art out its of the vegetable kingdom is a failure. When your system is run out sthout pure blood. You will only find vitality in the vegetable Poisonous drugs nor doctors' knives nor thunder and wil not remove the cause, but lay the foundation for al kinds disease. Those poisons go into your bones, and kill the life of them ad create all kinds of diseases, cancerous tumors, consumption, dropsy ope diseases, etc. You must bear in mind that his medicine is not a ssonous tonic, nor a stimulant, nor temporary relief which you get from onous drugs, where the results are sure death sooner or later. Do not me the medicine, when it takes an effect and stirs up the poisons or ase in the system. You must not expect to be cured in a few days, for our sickness or disease has been a long time coming on, and it will take long time to get it out of your system. It will take months or a year to bild a new body from the bones up. This is what the people do not un terstand. They are used to being humbugged. His medicines are com esed of Nature's Herbs-what the human system requires. When the ani mais get sick they will help themselves to those herbs, for they have the in sinct, and the people have not, so we have to make a study of it. It has en a life study with Dr. Cook. Do not get weary; this life is too short sad too sweet to worry out of this world.

Kisses are Expensive

Kisses are actionable in southern Russia, but the many cases before the local magistrates prove that the little god of love defies law, as well as locks. A kiss in the street car costs the indiscreet osculator a fine of \$3. To embrace one's fiancee in public is a privilege valued at \$2.40. A declaration of "a great passion" by postal card is subject to a fine of \$2.40.

The public must be protected, and the disturbing influence of such sights is assessed at a figure calculated to discourage youthful impetuosity.

At Milan, Raly, 721 couples paid fast year the fine of 60 ere (about \$1.20) for having braved the conventions and kissed each other in public

It requires the best sort of medical education to be an osteopath, and school standards are deservedly high among osteopathic colleges.

It is a singular thing that in the popular view of disease the interdependence of the several organs of the body is lost sight of. The heart, for example, is diseased and it is treated as if it were entirely separated from, and independent of every other organ.

The fallacy of this opinion is shown by the cures of heart "trouble," liver "trouble," kidney "trouble" and other so-called "troubles," effected by the use of Dr. Pierce's Golden Medical Discov-Primarily the "Discovery" ery. Primarily the "Discovery" is a medicine for the cure of diseases of the stomach and blood. But it cures dis-eases of organs seemingly remote from the stomach, because these diseases have their origin in a diseased condition of the stomach and its associated organs of digestion and nutrition.

"I doctored with three different doctors for weak heart, but they did me no good," writes Mrs. Julia A. Wilcox, of Cygnet, Wood Co., Ohio, Box 52. "I was so tired and discouraged if I had had my choice to live or die I would have preferred to die. My husband heard of 'Golden Medical Discovery' and he bought a bottle. I took that and the first half seemed to help me. I took six bottles before I stopped. I am perfectly well, and am cooking for six boarders. It has been a God-send to
