

GIRLHOOD WOMANHOOD AND MOTHERHOOD

THE first lesson that the young girl has of womanhood is usually a painful one. She learns to know what headache means, and backache, and sometimes is sadly borne down by this new experience of life. All the pain and misery which young girls commonly experience at such a time may, in almost every instance, be entirely prevented or cured by the use of Dr. Pierce's Favorite Prescription. It establishes regularity. It tones up the general health, and cures headache, backache, nervousness and other consequences of womanly weakness or disease.

MOTHER OF THE FAMILY.
The anxious mother of the family often carries the whole burden of responsibility so far as the home medication of common ailments of the girls or boys are concerned. The cost of the doctor's visits are very often much too great. At such times the mother is invited to write to Dr. R. V. Pierce, of Buffalo, N. Y., for medical advice, which is given free. Correspondence is held strictly confidential.

\$500 REWARD FOR WOMEN WHO CANNOT BE CURED.
Backed up by over a third of a century of remarkable and uniform cures, a record such as no other remedy for the diseases and weaknesses peculiar to women ever attained, the proprietors and makers of Dr. Pierce's Favorite Prescription now feel fully warranted in offering to pay \$500 in legal money of the United States for any case of Leucorrhoea, Female Weakness, Prolapsus, or Falling of Womb, which they cannot cure. All the World's Dispensary Medical Association, Proprietors, of Buffalo, N. Y., ask is a fair and reasonable trial of their means of cure.

A MOTHER'S LOVE.
A mother's love is so divine that the roughest man cannot help but appreciate it as the crown of womanhood. However, motherhood is often looked forward to with feelings of great dread by most women. At such times a woman is nervous, dyspeptic, irritable, and she is in need of a uterine tonic and nerve, a strength builder to fit her for the ordeal. No matter how healthy or strong a woman may be she cannot but be benefited by taking Dr. Pierce's Favorite Prescription to prepare for the event.

"A year ago I was taken sick and tried the three doctors in our town," writes Mrs. Archie Gordon, of Oak Street, Bounton, New Jersey. "They did not help me any. One said I had one thing, another said I had something else, and the last one told me he could not tell just what was the matter with me, but advised me to go to a hospital. I read about Dr. Pierce's Favorite Prescription and about the case of a lady in Kansas, very much like my own. I suffered so, could hardly endure to have any one walk across the floor, as the least jar hurt me. Sent to our drug store and got a bottle of Doctor Pierce's Favorite Prescription, and when I had taken one bottle began to feel better. I took five and a half bottles, and to-day I can work all day and feel no bad results. None of my neighbors thought a year ago that I would be here to-day to write anything, but I say, every woman who suffers should never give up until Doctor Pierce's medicines have been given a fair trial."

"Your wonderful medicine, 'Favorite Prescription,' has helped me greatly in time of suffering," writes Mrs. Minta Wright, of Edwards, Indiana. "Last winter I was unable to do my work, was to be confined in February, and a lady in Illinois wrote and told me about your medicine. I used three bottles of 'Favorite Prescription,' and will say I had the easiest and quickest confinement I ever had. Had three children before, and would suffer from twenty-four to thirty-six hours before birth, but this time only two hours. Have a fine baby girl and she is the most healthy one of all. I am still using the 'Favorite Prescription' as a tonic."

"A long time ago I suffered very much from female weakness, and decided to write Dr. Pierce," says Mollie French, of 340 E. Green Street, Louisville, Ky. "I received a kind answer telling me what to do. Followed your directions, commenced taking your 'Favorite Prescription,' and was cured, after trying many other remedies, and different doctors. I have been told there is better medicine, but I have not found it, although have been sold other remedies. There are no medicines like Dr. Pierce's, after all. I can't write how I suffered; was of no account to myself or

any one else; could hardly stand on my feet or walk around. When I received your kind letter, that helped me a great deal. Will take your medicine as long as I am able to buy it; it has saved me many a useless doctor bill. When I need a physician I write Dr. Pierce, and then do whatever he tells me."

HOW TO LOOK BEAUTIFUL.
Young women or matrons should not allow themselves to look sallow and wrinkled because of those pains and weaknesses which become chronic and are the result of colds, tight lacing, and the imprudent care of the womanly system. Many a woman would look beautiful, have healthy color and bright eyes if it were not for those drains on her strength and those weaknesses which come all too frequently and make her life miserable. There is a ready-to-use Prescription, used a great many years by Dr. R. V. Pierce in his large practice as a Specialist in women's diseases, which is not like the many "patent medicines" on the market, as it contains neither alcohol nor any narcotic. It is purely vegetable.

HEALTH AND HAPPINESS.
How to live in health and happiness, is the general theme of Dr. Pierce's Common Sense Medical Adviser. This great work on medicine and hygiene, containing over 1000 pages and more than 700 illustrations, is sent free on receipt of stamps to pay expense of mailing only. Send 31 one-cent stamps for the cloth-bound volume, or only 21 stamps for the book in paper covers.

Epley will have charge of the singing, and Frank Churchill will preside at the organ. You are cordially invited. D. Errett, pastor.

The Elgin Factory.
This is the largest watch factory in the world. The daily output is 2000 watches, and 102 different kinds are manufactured. The watches go to every part of the world, and are sold even in Geneva, Switzerland.

The different parts of a watch are manufactured in different departments by different people, who have devoted their lives to that particular kind of work and have been trained to a delicacy and exactness which is more important in watchmaking than in any other mechanical industry. These parts are then assembled as they are needed in another department, where they are put together by experts, who handle them as easily and almost as unconsciously as a great pianist will strike the keys of his piano. The completed watch is tested and timed, and then, strange to say, is put into a refrigerator with the temperature below freezing point and kept there for a number of days to cool off. After it has been frozen the watch is taken to a furnace, where it is allowed to lie for several days in a temperature of 95 degrees. This particular treatment is to adjust the mechanism to stand extremes of heat and cold.

The Glacier Changed.
The Muir glacier, in Alaska, was at one time the great scenic attraction of the tourist. When the Harriman expedition of scientists was there in 1899, the ship anchored close to its front, and the geologists, artists and

photographers went ashore and without difficulty secured the pictures. A few months later an earthquake shook up the mountain of ice, and the bay below became blocked with bergs, so that approach by water has since been impossible. No one knew what happened to the glacier. Two citizens of Skagway, named Andrews and Case, made a journey on foot recently, and they report the actual conditions. Nearly three miles of the lower end of the glacier have broken away, and the water of the bay reached back to a granite hill that was formerly an island in the glacier. The ice pack will melt soon, and when next tourists see the largest glacier in the world they will find two lone cliffs instead of one.

"Portland and Return Only \$2.20."
The Southern Pacific is now selling round trip tickets to Portland from Salem for \$2.20, good going Saturday or Sunday, returning Sunday and Monday in Portland. The same arrangement applies from Portland, giving all Portland people a chance to visit valley points at greatly reduced rates.
