STEALING CAPACITY REDUCED

Measurements of Chicago's Coliseum Cut it Down

Only Delegates and Favored Big Guns Will Be Admitted to National Meeting

Chicago, Feb. 6.—Measurement of the Coliseum was made today, under the new regulations governing the seating capacity of public houses, and vigorously enforced since the Iroquois fire, and it was shown that it could seat but 8000, against the old capacity of 11,000. This will allow but few seats to outsiders at the Republican national convention, as nearly the entire space will be allotted to delegates alternates, distinguished guests and the press. The latter alone will require a minimum of 300 seats.

BOTH SIDES ARE READY

(Continued from first page.)

The Baron added to the foregoing that he believed it to be the view of his government, and that authority has been given him to announce it. The French officials express great surprise at the unqualified statements concerning war, and of Japan's intention not to accede to a British request against war.

The Japanese legation here has no information concerning the interview and declined to comment on it, owing to the delicacy of the situation.

Russia Makes Fleet Ready.

St. Petersburg, Feb. 6.—A Russian correspondent at Port Arthur telegraphs as follows: There is no truth in the report that freight traffic has been stopped on the Manchurian railway.

All the ships of the Russian Pacific squadron, which have been held in reserve, are now in full commission. The regiments of the Third East Siberian Rifle brigade, which recently left Port Arthur, are taking temporary stations along the Chinese railroad. The Port Arthur garrison has been strengthened by the arrival of the Seventh Brigade of conscripts, who have recently been going through a short course of training.

Stores of provisions and coal are being accumulated, and all the necessary military works are being actively pushed forward. Both the army and navy are in excellent condition, and everything is ready for an emergency, but all are patiently awaiting the outcome of the negotiations. The Russian population is tranquil.

Very few Russians are leaving, but many Japanese merchants are selling out and going home. Those remaining here feel entire confidence in the authorities.

The announcement from Vladivostok that preparations have been made for the mobilization of the Manchurian reserves was premature.

If You Want the Children to Laugh With delight get them a nickel's worth of Saratoga Chips. Phone Main 2291, I. O. F. Temple, Court street.

WILL POLISH SMOOT

Committee Takes a Month to Mix Whitewash

Disciple of the Church of Latter Day Saints to Have Piano-box Finish

Washington, Feb. 6.—The trial of Smoot will begin before the senate committee on election March 1st, according to the date fixed. This morning the committee decided to make a full and complete investigation, not only of the specific charges against the senator, but also as to the practices of the Mormon church, its connection with polygamy and alleged interference in politics.

Verdict Justifies Killing.

Seattle, Wash., Feb. 6.—Mrs. Ellen Allen, charged with the murder of Mrs. Laura Graham, at South Seattle last fall, was acquitted yesterday by a jury, which had deliberated on her case nearly 12 hours. When the verdict was announced Mrs. Allen fell into the arms of her husband. Half smiling and half weeping she shook the hands of each juror.

Mrs. Allen shot Mrs. Graham because she thought that Mrs. Graham had alienated the affections of her (Mrs. Allen's) husband. For the first time since the murder husband and wife met this morning. At no time during the trial of Mrs. Allen was her husband present, the state having kept him away.

Evidence submitted proved beyond all doubt that Allen and Mrs. Graham had been frequently together in various places in the city. This proof undoubtedly caused the jury to find for the defendant, holding that she was justified in killing the despoiler of her home.

The verdict meets with hearty public approval.

Mr. and Mrs. Allen are reconciled, and now have gone to living together in a pretty little flat in this city, which Allen rented this morning.

Attacked by Band of Wolves.

Vancouver, B. C., Feb. 6.—Alexander Morrissey, of Turtle River near Dauphin, had a thrilling experience with a pack of wolves while crossing Round Lake, an arm of Lake Manitoba. While a considerable distance from shore he was surrounded and attacked by 12 or 15 of the ferocious animals, and he says he possesses no language capable of describing the battle.

At the time Morrissey had with him two hounds and an ax, and had it not been for these, he says, there is no doubt at all that he would have been torn to pieces by the wolves. The hounds fought hard, and one of them was killed in the encounter.

Morrissey claims to have done great execution with his ax, and more than one wolf bit the dust, while others were badly wounded. The track on the snow from where the attack commenced to the shore is described by Morrissey as a trail of blood. When the exhausted man reached shore he sought the protection of a friendly tree, and remained there until the wolves departed at dark.

He Fooled an Angel.

New York, Feb. 6.—James Abell who used the name of Goolet to win the affections of a girl, was today arraigned on a charge of forgery. He gave bonds of \$5000.

WHEELER COUNTY COAL

Anthony Mohr Will Develop on Large Scale

Only Coal in Oregon That Makes Good Coke-If Large Beds Railroads Will Be Built to the Fields

Anthony Mohr, the mining man of Sumpter, and his partner, Lew Walker, passed through here yesterday on their way to their coal fields in Wheeler county. When questioned by a reporter, Mr. Mohr said that it was their intention to continue development and to acquire holdings in the same belt.

This coal bed, so far as exploited is seven feet thick, and the coal is supposed to be the only coal in Oregon that will make coke. Its analysis is highly satisfactory as to ash, volatile matter, fixed carbon and moisture. There is a tunnel in on the vein 160 feet, and the coal improves in quality as depth is attained. It is believed by Mr. Mohr and associates that the fuel problem of Eastern Oregon has been solved. If there is coal in Wheeler county there will soon be a railroad there, either as a branch of the O. R. & N. or of the Sumpter Valley, and all the other rich resources of that country will be developed and increased and brought into market.—Baker City Democrat.

Deadly Dose of Water.

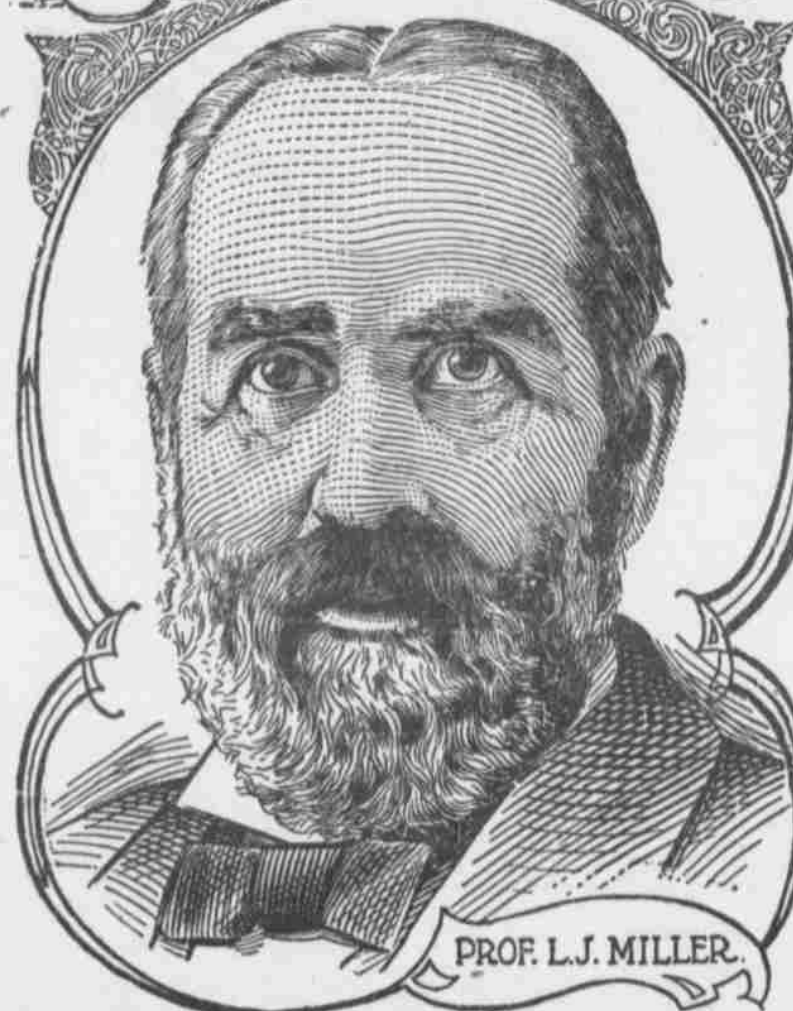

Rudolph Weber, a Brooklyn saloon-keeper, committed suicide in New York Wednesday, by blowing his head off with a shotgun loaded with water. He had been ill for some time. After playing cards with three friends, he went to his bedroom above the saloon. His wife was in the kitchen adjoining. Through the open door she saw him take off his right shoe and sock, and pick up his shotgun. He carefully loaded both barrels, and then filled them with water. Mrs. Weber was so surprised at his strange actions that she stood as if paralyzed. She had no idea what he meant to do.

Having completed his arrangements, Weber placed the muzzle of the gun in his mouth, and pulled both triggers with his bare toes. The heavy charges of shot, re-enforced by the water, tore his head from his shoulders.

CHEMICAL ANALYSIS

Reveals That "Pe-ru-na is Calculated to Tone up the System, Restore the Functions and Procure Health."

SO SAYS PROF. L. J. MILLER, CHEMIST.

PROF. L. J. MILLER.

Prof. L. J. Miller, late Professor of Chemistry and Botany of the High School of Ypsilanti, Mich., writes from 327 N. Clark Street, Chicago, Ill., as follows: "As several of my friends have spoken to me of the favorable results obtained through the use of Peruna, especially in cases of catarrh, I examined it most thoroughly to learn its contents. "I found it composed of extracts of herbs and barks of most valuable medicinal qualities combined with other ingredients, delicately balanced, calculated to tone up the system, restore the functions and procure health. "I consider Peruna one of the most skillfully and scientifically prepared medicines, which the public can use with safety and success."—PROF. L. J. MILLER.

Pope Nearly Blind.

London, Feb. 6.—A dispatch to Dalsiel's agency from Rome reports on the authority of a person having constant contact with the pope that

the latter is practically blind. His sight has been falling ever since his accession to the papacy owing to the extremely damp air of the vatican. Two celebrated oculists have order-

"Builds up the System." Hon. Joseph H. Ridgeway, Secretary of the American Anti-Treat Society, writes the following letter from the Grand Central Hotel, St. Paul, Minn.:

"It is with great pleasure that I endorse Peruna as an honest medicine, competent to do all its claims. I have used it several times and know of nothing that cures so completely, and at the same time builds up the system."

"I have recommended it to a number of my friends and always feel that I do them a service for I know how satisfactory the results invariably are. I only wish every family had a bottle—it would save much sickness and doctor bills."—Joseph H. Ridgeway.

"Feel Better Than for Five Years."

Mr. James B. Taylor, Roberts, Ind., writes: "I am at the present time entirely well. I can eat anything I ever could. I took five bottles of Peruna, and feel better now than I have for five years. I have doctored with other doctors off and on for fifteen years, so I can recommend your medicine very highly for stomach troubles. I take great pleasure in thanking you for your free advice and Peruna."—James B. Taylor.

"I Enjoy my Meals as I Used to."

Mr. J. W. Pritchard, Wolf Lake, Ind., writes: "I am pleased to say that I have been cured of catarrh of the stomach by Peruna. I could hardly eat anything that agreed with me. Before I would get half through my meal my stomach would fill with gas causing me much distress and unpleasant feelings for an hour or two after each meal. But, thanks to your Peruna, I am now completely cured, and can eat anything I want to without any of the distressing symptoms. I can now enjoy my meals as I used to do, and it is all due to Dr. Hartman and his wonderful medicine, Peruna."

"It has been one year since I was cured, and I am all O. K. yet, so I know I am cured."—J. W. Pritchard.

Dyspepsia is a very common phase of summer catarrh. A remedy that will cure catarrh of one location will cure it anywhere. Peruna cures catarrh wherever located. That it is a prompt and permanent cure for catarrh of the stomach the above letters testify.

If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case and he will be pleased to give you his valuable advice gratis.

Address Dr. Hartman, President of The Hartman Sanitarium, Columbus, Ohio.

DIDN'T HURT A BIT

My front teeth were very badly decayed and irregular, so I called at Dr. Wright's office and consulted him about them. He advised me to have the teeth pulled and replaced by means of bridgework. I agreed, and he pulled them and put in the bridge-work, absolutely painless and I am highly pleased with the result. Very sincerely, DAVID R. PETERSON, Salem, Route 9.

It is a pleasure to evidence the exceptional skill and quickness with which I have just had several teeth filled without pain.

F. M. ELWORTHY, 387 High Street, Salem.

We only use the forceps when it is absolutely necessary as we are firm believers in saving all teeth if possible. But if it becomes necessary to extract; one or all can be removed positively without pain.

As our practice is conducted on a strictly cash basis our charges are low—as low as they can be made consistent with first-class work.
