

# FOOT BALL SQUAD LEAVES

## For Eugene Where They Expect to Scalp the Husky Oregon's

With college songs and yells from the voices of 200 fellow students filling the air, the Willamette football team departed for Eugene on the 11 o'clock train this morning. If a good send-off by patriotic faculty and students count for anything, the honor of old Willamette will be upheld in good shape on the gridiron tomorrow afternoon. Several members of the faculty, together with a large number of the students, will go up tomorrow to witness the game. Anybody who wishes to take advantage of the special round-trip rate of \$2.50 can do so by seeing Frank Oranien, who can be found at the depot after 10 o'clock tomorrow morning.

Those who went up today were Coach Bishop, Trainer Shipp, Umpire Zercher, Nelson, McClain, Rader, M. Long, James, Polhard, Hinkle, Beach, Nace, Capt. Long, Loutsberry, Urash, Marker, Metcalf, Patton, Miller and Ford.

# CHERRIES WERE DELIVERED

## Lawsuit Over Sale and Delivery of Some Fruit

A suit to collect pay for balance claimed to be due on 5000 pounds of Royal Anne cherries engaged the attention of a jury of 10 men this afternoon. J. F. Jones, of Madley, demands \$197 on a lot of fruit delivered to H. S. Gile and W. T. Jenks, commission men of this city.

Carson & Adams appeared for defendants. John McNary for plaintiff. After several witnesses were heard Mr. Carson moved the court to instruct the jury to find for amount admitted to be due in the answer of Gile and Jenks. Mr. McNary argued against this, and showed the court that the agent Craig was authorized to receive, inspect or reject the fruit. Carson denied that Craig had authority to do more than receive at Madley and forward to Salem.

The court held that the contract required delivery and presumed acceptance, and the motion for non-suit was refused. Counsel then wrangled over the quality of the cherries for some time. The deposition of Mr. Allen, of Eugene, was allowed to go to the jury. The case was not concluded when this report closed.

# HUNTERS FOUND WEAPON

Warden Curtis, of the penitentiary, and E. C. Miller, the cigar maker, one rainy day last winter, started down the river duck hunting in a small skiff, and it is a well-known fact that the warden is not the smallest of men, and, in a moment of thoughtlessness, he got to far to one side in the boat, and the result was a capsize, and the loss of both the guns. The aftermath of this little drama occurred last Sunday when the two gentlemen once more started hunting in a small boat, but this time in search of the festive pheasant, and when they passed the spot of their previous accident some remark was made about it, and it was suggested that they land there for a moment, and, strange as it may seem, there, lying under a bush, and almost on the bank, was one of the guns, very little the worse for its several months' bath in the cold-water of the Willamette.

**Sensation in Court.**  
Los Angeles, Oct. 14.—A sensation in the trial before Judges Silent and Work, to collect a \$20,000 attorney fee from Col Griffiths, ex Park Commissioner, under a sentence of two years for shooting his wife, a letter was read written by Griffiths in 1887, to the girl he married, and afterwards shot. He asked that the engagement be broken, as she had misrepresented her wealth. Come help decide who wins the cake at the Huskies'.

# WORTH MILLIONS

## But Could Not Buy Bread—So Goes the Story

### Like the Man at Klondike, Who Died of Starvation, with His Hat Full of Gold.

### Many Die Yearly With Means of Salvation at Hand, Were They But Able to Use Them.

Physicians the world over have known of and believed in the virtues of cod liver oil. They have, also, all realized its drawbacks and the impossibility of administering it where it would do good. Doctors have seen hundreds of people die of consumption and other wasting diseases, when they knew might have been saved had they only been able to take enough cod liver oil to obtain from it a sufficient amount of the medicinal principles which it contained.

It is not necessary to go to doctors to know why cod liver oil has no been a popular remedy, or to realize how few people are able to take enough of it to do them any good. The many who have needed and attempted to take this nauseating remedy, if they are still in a position where they need cod liver oil, are the ones who should throw their hats in the air and shout their joy from the house-top at the news which comes to us of Vinol.

These are the people who will never forget the name of this new remedy, nor will they ever cease to thank Mr. Geo. W. Putnam, our prominent druggist, who has become famous in the past few days, on account of his connection with the Boston firm who have introduced this same remedy.

How simple it all sounds, now that we know of it. Here Mr. Putnam has, right in his store, a preparation that looks like and tastes like delicious wine. It is a delicious wine, only there has been added to it this extract of the cod's liver, this peculiar special extract of the curative principles, the means of obtaining which is the only discovery about Vinol. We do not believe there is an invalid in this city, suffering from throat, lung or bronchial troubles, or in fact any wasting disease, but has already interested himself in this preparation.

Mr. Putnam is kept busy explaining its merits and telling his many friends how it is now possible to take all that is necessary of cod liver oil, or Vinol, its concentrated active medicinal principles, to overcome disease. It has not been a difficult matter for him to explain, as he has done, the absolute uselessness of the grease itself and to demonstrate the great value of the medicinal properties of the liver of the cod. It has not been necessary for him to tell sufferers from such troubles that fat does not make fat, but simply upsets and disarranges the stomach.

There are many people right here in our city who know from but a few days' experience how much benefit they are deriving from this preparation, and who have already learned that the medicinal properties of Vinol set in a most wonderful manner in checking the symptoms of disease, while at the same time enabling the stomach to assimilate and digest from palatable, every day food, the necessary nourishment to renew tissue depleted by disease.

Mr. Putnam is justly pleased at the success that will attend the connection he has made with the prominent Boston firm who are putting up this preparation, and justly deserves all the fame and profit that will attach themselves to his name, on account of his enterprise in introducing Vinol to our city.

### Orators Elect Officers.

At the regular annual business meeting of the Oratorical Association of Willamette University, held yesterday afternoon, the following officers were elected to serve the association during the ensuing year:  
President—Paul Beach.  
Vice-president—Clara Halstrom.  
Secretary—C. A. Marker.  
Treasurer—Lloyd Whipple.

### MEN ARE POWERLESS

#### To Fight Against Disease Unless They Strike at the Underlying Cause.

To treat Dandruff, and Falling Hair, with irritants, or oils on which a parasitic germ will prosper, is like scooping water from the ocean to prevent the tide from rising.  
You cannot accomplish a satisfactory cure without having a right understanding of the fundamental causes of the trouble.  
You must kill the Dandruff Germ. Newbro's Herpicide does this because it is specially made to do that very thing.  
When the germ is removed, the hair has no choice but to resume healthy growth and beauty.  
Destroy the cause, you remove the effect.  
Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.  
Daniel J. Fry, Special Agent.

### Amorous Japs.

St. Petersburg, Oct. 14.—Mail notices from the correspondents at the front show many interesting sidelights on the situation in the camps and garrison towns as well as on the battlefield. "The Japanese prisoners are great favorites, especially with women," is the testimony of all the correspondents. The prisoners at Omak and Perm, say the correspondents, are cutting out their Masamune dirks, not only in their cutting and photography, but also in the patient pursuits of the court of Venus. Most of them were rescued from the steamers sent to battle up Port Arthur by Admiral Togo, and the knowledge of their daring has led to more than one receiving proposals of marriage. The Japs, however, as a rule, are already married.

An exception is Lieutenant Tschishtina. This brave officer, looking extremely interesting with his arm in a sling, was the heart of Milla, Lordinia V., the daughter of a retired Russian colonel. He claimed the girl's hand, but the grim father declared that the Japanese must first become a Christian and a naturalized Russian. Torn between love and duty, the Jap hesitated, and demanded a week to make up his mind. Before the term had expired the Russian received the following letter: "Your daughter has made me a Christian already, but a Christian I can never become. I renounce my suit." When the letter was shown to the girl, she remarked, "Then I will love him always. But if he had betrayed his own country I should have hated him." The father consented, and the marriage, it is announced, will take place as soon as the war is over.

### Married Second Time.

San Francisco, Cal., Oct. 14.—After separation for more than forty years, John S. and Martha Gentry, each bowed with the weight of their three score and ten years, were married this morning by Justice of the Peace William R. Geary, in the private office of County Clerk Cook, of Oakland. Their reunion was brought about through a chance meeting about two months ago, when they were each going to San Francisco on a ferry boat. They were sweethearts in childhood in St. Louis, Mo. Mrs. Gentry was brought to California in 1849, when she was 13 years of age, by her parents. Three years later they returned to St. Joseph. The lovers of childhood were united in marriage on October 12, 1854. Happiness prevailed in their home for several years, and three children, a son and two daughters, were born to them. Their home was disrupted over the question of slavery at the outbreak of the civil war. Mrs. Gentry believing in the abolition of slavery, while Gentry was firmly convinced to the contrary and enlisted in the Confederate army. Finally, despairing of ever being reunited with her husband, Mrs. Gentry, in 1874, obtained a divorce from him. Later she and her children came to California. The children are all married.

# CASTORIA
