BETTER MAN THAN SCOTT

Diamondfield Jack Davis Expected to Break Some Time Records

Goldfield, Nev., July 17.—While Walter Scott of Death Valley fame is doing his world-famous stunt in record breaking cross-country jumps and incidentally buying up all the speed of the transcontinental lines, he will have to look to his laurels both in the matter of style in traveling and the prodigality with which he is scattering broadcast among those with whom he comes in contact his superfluous cash. In Diamondfield Jack Davis, Scott is very likely to find a formidable rival, and it is generally believed the former is intent upon making a few records for himself in the line of "burning up the rails." Diamondfield Jack, accompanied by Mrs. Davis, has gone to Portland via San Francisco to attend the Lewis and Clark exposition and to take a further trip—probably as far north as Alaska. It is understood that Davis will try for the world's record on ocean craft before he returns. With this end in view he will offer a bonus to some steamship company to make the trip from San Francisco in record time.

THE TOWN WILL BE THIRSTY

No Place Now Open for the Miners to Wet Their Whiskers at

Grant's Pass, Ore., July 17.—For the first time in 50 years, Kerby, the pioneer mining town of Oregon, and one time the county seat of Josephine, is without a saloon, the one liquor "joint" of the old-time gold center being closed because of a remonstrance against it. Kerby is no longer the wild and woolly camp that it was at one time. It has been several years since Kerby was "shot up" by the miner or held high carnival after a rich clean-up. The old camp has become more sober, more dignified, less thirsty and at last those who believed Kerby's one "dewdrop" was not needed arose to the majority and asserted themselves. A petition of remonstrance was presented the county court and Kerby's saloon closed its doors, thus knocking out all opportunity of a drink of anything but mountain water on the long stage ride from Grant's Pass to Crescent City.

American Mother-General.

Washington, D. C., July 17.—Word has been received here from France of the election of Mother Mary Domatilla Larose as mother-general of the House of the Good Shepherd. This event places another "religious" born on this side of the Atlantic at the head of one of the most numerous and widespread orders of the Roman Catholic church.

Mother Domatilla is a native of Canada; she is 57 years old; she joined the order of the Good Shepherd in Montreal in her eighteenth year and after filling various offices of importance there she was sent to South America and spent some years at Lima. She was then called to France and made first assistant to the mother-general. In this capacity she made an inspection tour of the convents of the order which took her almost round the world.

Land Fraud Matters.

Portland, July 17.—Congressman Williamson was on the stand in his own behalf in the land fraud trials this morning, and made a complete denial of the conspiracy charges. Cross-examination brought out admissions which apparently go to corroborate the government's theories.

Demurrers were overruled in the case of H. H. Hendricks for subornation of perjury, Chas. A. Watson for perjury and the Butte Creek Lumber Company, Binger Hermann, et al., for conspiracy.

Arrested an Anarchist.

Rome, July 17.—The authorities here arrested an anarchist named Barberi, who, it is alleged, came here for the purpose of assassinating King Victor Emmanuel.

While no official information is given out, it is certain that George F. Kester and F. W. Kettenbach, the Lewiston bankers, are among those who have been indicted, and it is the belief that they will be called upon to face the conspiracy charge. The great point supporting this belief is that all the evidence that was secured for presentation to the grand jury has focused on the two Lewiston men named.

In a general way the charge against them is that they furnished the money that enabled go betweens to secure through the flings of stool-pigeons large and valuable tracts of timber land. The trend of what is known of the evidence by reason of statements made by witnesses points to the Lewiston bankers being charged with conspiracy, the go-between with subornation of perjury and the men who did the flings with perjury, there being four of the latter, including Ivan Cornell, who was the first man indicted.

At the time Mr. Dwyer was selecting timber lands for the state, it is alleged he was acting in a dual capacity, reserving choice selections in the interests of private individuals and selecting inferior tracts for the state. This accusation was made long before there was any thought of an investigation by the government. Bench warrants for those indicted will be issued in the next few days.

New Mining Corporation.
