OFFICIAL CENSUS SALEM, MAY, 1904, 13,287.

A ROYAL POLITICIAN.

A recent study of King Edward the Third convinces us that he was one of the meanest politicians who ever wore a crown.

In many respects he reminds the writer of a prominent politician in this country.

He betrayed every country and every ruler he had anything to do with. Gaining the greatest notoriety and a reputation for being a ruler, he was literally without a great deed to his credit.

He employed his relatives and ennobled his kinsmen without regard to their merits or character.

The same shallowness of temper, the same shyness and falsehood ran through all his personal character.

Of his relations to women he set an example to his nobles that it was said of all of them that they neither feared God nor blushed at the chaste voice of the people.

A VALUABLE PROPERTY.

The Salem Light and Traction company is the most valuable electric light plant in Western Oregon, outside of Portland.

It is destined to be extended into a great system, or part of a great system that will cover the whole western part of Oregon.

Seattle capitalists are now prospecting a line of electric road from Eugene to Florence, at the mouth of the Siuslaw river.

The Salem plant has been put in first-class condition by the present ownership, and is now nearly ready to be extended.

The enterprises of the present owners has been shown in many ways, and they have developed the street car lines remarkably.

The cars are running on better time than ever before, and the time to the state asylum has been reduced to a fifteen-minute schedule.

The price of gas has been reduced to the consumer, and the city has the lowest rate per month of any Western city.

A large sum has been invested in the proposed extension toward Liberty, rails and ties being on the ground.

For all these things the community should be grateful as expressing enterprise in many directions. The management of the property under Mr. Welch leaves little room for criticism.

The report current on the streets that the property has been sold is not confirmed, and Mr. Welch says he has no intention of selling the property.

Claud L. Mackey and Miss Nora Grace Buzzard, of Albany, were married Sunday at the bride's home at that place. The wedding was quite an elaborate affair. Miss Emma Thrift played the wedding march, and the ceremony was performed by Rev. C. W. Nelson. They will reside in La Grande, where the groom is in business.

X-RAYS

The Outside Inn was burned inside out.

"For such is the kingdom of heaven."—Dowie.

It is a meanly shame the way Dowie has stolen Teddy's thunder.

No one can say they were not Goode addresses of welcome.

The "Smiles of the Typewriter" got mixed up with the X-Rays in yesterday's Journal, but she still smiles.

The fishing for bass is good, even if suckers won't bite. This is a suggestion for the politicians.

The Deadly Buzz-Saw.

Saturday Fenton Starr, son of Clarence Starr, who clerks at S. L. Kline's met with a serious accident. The lad is aged about 13 years, and was down at the sawmill, having with him a small stick of hard wood. Mr. Knox had just regulated some saws to his satisfaction in the presence of Fenton, when he was called away for a brief time. During the absence of Mr. Knox Fenton concluded it was up to him to do some work with his hardwood stick. Just what happened or how it occurred will probably never be known, but in the twinkling of an eye, Fenton had a couple of his fingers of his left hand cut off and the other members badly lacerated. Drs. Cathey and Perrot were called upon to attend the sufferer and he is now getting along all right. There is no thing more dangerous as a plaything than dynamite and buzz-saws.—Corvallis Gazette.

A Record Breaker.

It is said that the greatest and quickest permanent advertising success on record is that of Cascarets Candy Cathartic, which have been persistently advertised in every way, but chiefly in newspapers for about six years. In that time the sale of Cascarets has grown from nothing to over one million boxes a month. This wonderful record is the result of great merit successfully made known. Those who tried Cascarets as a direct result of advertising were pleased and recommended the article to their friends, until its fame was spread to become universal.

STOP, WOMAN!

AND CONSIDER THE ALL-IMPORTANT FACT

That in addressing Mrs. Pinkham you are considering your private life to a woman—a woman whose experience with women's diseases covers a great many years.

You can talk freely to a woman when it is revolting to relate your private troubles to a man—besides a man does not understand—simply because he is a man.

Many women suffer in silence and drift along from bad to worse, knowing full well that they ought to have immediate assistance, but a natural modesty impels them to shrink from exposing themselves to the questions and probably examinations of even their family physician. It is unnecessary. Without money or price you can consult a woman whose knowledge from actual experience is great.

Mrs. Pinkham's Standing Invitation. Women suffering from any form of female weakness are invited to promptly communicate with Mrs. Pinkham, at Lynn, Mass. All letters are received, opened, read and answered by women only. A woman can freely talk of her private illness to a woman; thus has been established an eternal confidence between Mrs. Pinkham and the women of America, which has never been broken. Out of the vast volume of experience which she has drawn from, it is more than possible that she has gained the very knowledge that will help your case. She asks nothing in return except your good-will, and her advice has relieved thousands. Surely any woman, rich or poor, is very foolish if she does not take advantage of this generous offer of assistance.

If you are ill, don't hesitate to get a bottle of Lydia E. Pinkham's Vegetable Compound at once, and write Mrs. Pinkham, Lynn, Mass., for special advice. When a medicine has been successful in restoring to health so many women, you cannot well say, without trying it, "I do not believe it will help me."

Los Angeles, Cal., Aug. 29.—Everything is in readiness for the fight between Eddie Hanlon and Willie Fitzgerald which will come off before the Tom McCarey club of this city tonight. Both men are to meet at 138 pounds at the ringside and as they are evenly matched as to weight, the conditions are highly favorable for a spirited fight. Hanlon has stated that he would challenge Britt or Nelson, should he succeed in defeating Fitzgerald.

WHAT CHINA WANTS

Demands Her Coolies Be Admitted, as the Price of Raising the Boycott

"The boycott upon American goods in China will never end until the Chinese people are admitted freely into the United States, or until the same discriminations are made against the inferior classes of other nations as those which are made against the coolies of China." Thus the Chinese boycott situation was summed up by F. F. Tong, who is at present in Portland on his way to Washington, D. C., as special envoy from the emperor of China. He is a member of the board of treaty revision, and his mission to the United States is two-fold—to study the condition of American commerce with special reference to the effect of the Chinese exclusion law and boycott, and to confer with the Chinese minister at Washington in regard to the formation of a new treaty with the United States.

Americans Do Not Understand.

Continuing, Mr. Tong said: "The American people have no true idea of the extent of the present boycott. In the brief time since it began, it has permeated the most remote parts of the empire, and the Chinese people are as one man in their opposition to American merchandise. It is confined to no class—men, women and children are united in it. Way, even a child of a few years, entering a shop to buy an article of a few cents' value, will ask if it came from America, and, if such is the case, would not take it as a present."

"A few years ago a united movement of the Chinese people would have been impossible, but conditions have changed rapidly there. China, which for years retrograded, is now adapting herself to modern conditions in a way which is not appreciated by other peoples. Two years ago, such a movement as the present boycott would have spread over only a small part of the country, and could have easily been quieted by the government. This has been tried in the present case, but without effect. All the imperial decrees that could be issued would not change this deep-rooted public sentiment or alter the effects."

Immediate Cause of Boycott.

"The immediate cause of the boycott was the discrimination against Chinese merchants and travelers by some of our immigration officials in enforcing your exclusion law. Several such cases were reported by our consuls

here, and aroused great indignation, especially among the merchant class. But the real cause of the trouble lay behind this. The whole people have felt for years that an injustice was done them by your exclusion laws. This sentiment has been growing and taking tangible form, and the present result was inevitable; it is simply a crisis towards which events have been tending for years. The boycott was inaugurated by the merchants at Shanghai, but it soon spread throughout the nation. Reports have been circulated in the United States that other countries were influencing the Chinese to boycott American goods from ulterior motives on their own part but such is not the case. It is simply a movement of the Chinese people.

"What do the Chinese expect from America? They expect the same treatment that is accorded other nations. We have been greatly puzzled by the standpoint your nation has taken towards ours. Our ministers and ambassadors have been received with the greatest courtesy at Washington and given equal standing with those from the most favored nations, and yet our people are debarred from your shores while you admit the lowest heathen from Africa."

Want Equal Rights.

"The people would not now be satisfied with simply a revision of your laws so that the merchants and better classes could be admitted without embarrassment. They want more than that. A few years ago, even two years ago, this would have been sufficient to have ended the boycott, but, as I said, conditions have changed. The only thing that will restore your commerce with us is laws that will give us absolute equality with other nations. We have not a single law discriminating against Americans."

"However, I do not wish you to understand that there is any unfriendly feeling towards your citizens among the Chinese people. While we deplore your exclusion laws we desire to see the most cordial relations exist between the two nations. The educated classes in China feel that America, above all other nations, is their friend. We appreciate the help she has given China in many ways and are anxious to have your people come among us. We realize that Americans do not come selfishly, seeking territory, as others do.

Our people are adopting your ways. We are establishing schools with modern methods of teaching. Our business world, too, is being revised. We have organized a chamber of commerce, with head offices at Shanghai and branches all over the country."

When asked about the effect of the present war upon China, Mr. Tong said that it was not very noticeable. "Of course," he said, "the merchants in the northern part of the country have suffered to some extent, but people in other sections have not been affected. However, all our people would be glad to see peace, for we have been taught to love peace, not war."

Mr. Tong is well educated and speaks English fluently. He is a graduate of California college, Oakland, and of the Imperial Medical college, located at Tien Sien, near Peking. For several years he has been connected with the imperial medical service with the legation at Tokio.

Buy Great Northern Now at 50 Cents Per Share

A MINING INVESTMENT OF MERIT. QUESTIONED BY NO ONE WHO HAS INVESTIGATED IT. THIS STOCK WILL BE SELLING, AND HAVE A READY MARKET AT \$1.00 PER SHARE IN LESS THAN NINETY DAYS. WHY?

- 1st. BECAUSE: It will be paying 15 per cent per annum on par, or 36 per cent on the investment at the present price, 50 cents per share, with a 75-ton mill. With the 500 ton mill that will be erected in 1906-7 it will pay from 50 to 100 per cent per annum on par.
- 2d. BECAUSE: It will be a permanent dividend-payer for years to come, besides increasing ten-fold in value inside; the management having entered into an agreement with three of the leading business men of Salem, electing one of them as director, and further agreeing that no salary be paid any officer or director at any time, of this agreement is on file at our office.
- 3d. BECAUSE: The management is conservative; everything coming from the mine will be paid out in legally binding themselves, their heirs and successors, to give Salem stockholders a voice in the management, by electing the Secretary and Treasurer, the maximum salary paid them never to exceed \$150 per month. A copy of this agreement is on file at our office.
- 4th. BECAUSE: The property is a fully developed MINE, already past the period of speculation, having in sight, and blocked out, ready for the mill, from three to five million dollars' worth of ore.
- 5th. BECAUSE: Its commercial value has been tested by a mill run of fourteen months, which has shown an average, without any sorting, of \$10 in free gold per ton on the plates.
- 6th. BECAUSE: The company owns the property in fee simple, there being no bonded indebtedness or outstanding accounts or obligations of any character.
- 7th. BECAUSE: It possesses many other merits that time and space will not allow us to mention. But a trip to the property, at our expense, will verify every statement we have made. This stock will positively be advanced to 75 cents per share on the 10th of September and \$1.00 per share on the 10th of October.
- All applications received on or before the 28th day of this month will be entitled to the August dividend, which will be paid on the 1st day of September.
- The amount we will sell at 50 cents per share is limited. For full particulars call at our office, or write us.
