PET INDUSTRY OF GERMANY

The annual meeting of the German association for the advancement of the chemical industry was held at Heidelberg, in this consular district, on September 23 and 24, 1905. The discussion covered a somewhat wide range, and included a survey of the present condition of chemical industry in Germany; the probable effects of the new commercial treaties made by Germany upon this industry and the importance of this branch of manufacture of satisfactory trade relations with the United States and other countries. As is generally known, chemical manufacture in its various branches is justly regarded as perhaps the pet industry of the empire. In no other single industry has Germany done so much valuable pioneer work as in this one. In none other has the value of her technical schools been so fully recognized as in this one. No other industry has been so little affected by the business depression of the past four years as the chemical industry.

In the report of Director Wenzel of Berlin, general secretary of the association, the general improvement in the industrial conditions of Germany as evidenced by increased railway earnings, exports and coal consumption, etc., was noted. He stated that the number of workmen employed in factories has increased about 6 per cent over last year, and wages 7 1/2 per cent; that the increase of employes in the chemical industry has been somewhat above 5 per cent. The profits in this branch of manufacture were stated as showing substantial gains over last year, notwithstanding a general rise in the cost of raw materials. One hundred and forty-three stock companies engaged in chemical manufacture, with a total capital employed of about \$157,913,000, show average dividends for their last fiscal years of 9.37 per cent, as against 8.56 per cent for the previous fiscal year. Taking 1899 as the most favorable year in the industry, and representing the profitability of that year as 100, Director Wenzel stated the succeeding years might be represented by the following figures: 1899 at 100, 1900 at 91.2, 1901 at 90.8, 1902 at 87.8, 1903 at 93.3, 1904 at 93.3 and 1905 at 97.

Among the branches of the chemical industry showing the largest dividends are coal tar colors, commercial fertilizers and explosives. — Consul Harris of Mannheim.

Son Lost Mother.

"Consumption runs in our family, and through it I lost my mother," writes E. R. Reid of Harmony, Me. "For the past five years, however, on the slightest sign of a Cough or Cold, I have taken Dr. King's New Discovery for Consumption, which has saved me from serious lung trouble." His mother's death was a sad loss for Mr. Reid, but he learned that lung trouble must not be neglected, and how to cure it. Quickest relief and cure for coughs and colds. Price 50c and \$1.00; guaranteed, at J. C. Perry's Drug Store. Trial bottle free.

Warned in Time.

"It looks to me," said the fortune teller, "as if you were going to change your place of residence. I can see an immense building with stone walls and—"

"Not for me," yelled the insurance president, as he tossed her a dollar, "I'm off for South America." — Chicago Record Herald.

A Pleasant Way to Travel.

The above is the usual verdict of the traveler using the Missouri Pacific railway between the Pacific coast and the east, and he believes that the service and accommodations given merit this statement. From Denver, Colorado Springs and Denver there are two through trains daily to Kansas City and St. Louis, carrying Pullman's latest standard electric-lighted sleeping cars, chair cars and up-to-date dining cars. The same excellent service is operated from Kansas City and St. Louis to Memphis, Little Rock and Hot Springs. If you are going east or south, write for particulars and full information.

W. C. McBRIDE, Gen. Agt., 124 Third St., Portland, Ore.

The Willamette Valley Company, of Portland, closed its option on the Eugene Water Company's property Friday. The deal was made some time ago, but the affair was not closed until that time. The price paid for the property was \$130,000. In addition to this, the company has also purchased 60 acres of land on Skinner's butte, which is an ideal site for a water reservoir.

LADIES: I make from \$18 to \$30 per week and want all to have the same opportunity. The work is very pleasant and will pay you handsomely for even your spare time. I speak from experience, as I have frequently made \$5 in a single day. This is no deception. I want no money and will gladly send full particulars to all. Address, MRS. W. W. MITCHELL, Box 10, Portland, Maine.
