Your Child's Eye Sight

You are responsible for the sight of your child. Watch out for frowns, fur squints, and when he reads or looks at a picture book does he hold it too near or too far? These little things grow faster than the child, and in many cases can be overcome if discovered in time. WE ESPECIALLY INSIST ON YOU BRINGING THE CHILDREN IN. You may save them a lifetime of strain and weak sight. Defects of vision never disappear of their own accord and in most cases grow worse. It's a duty you owe your own child and WE DON'T CHARGE FOR ADVISING YOU.

SALEM GIRL TONIGHT

Miss Croasman in the Christian at the Grand Opera House

Miss Lillian Croasman, who is with the Christian company, is a Salem girl and one of whom Salem is justly proud. That she is a delight to look upon without saying, since she is a Salem girl; but she is one of those whose light will not be hidden, even under the dome of the state capitol; for genius has no meters or bounds, and Miss Croasman has genius. She also has a smile that, if let go in the Siskiyou, would break every dyke on the Sacramento. It is an infectious smile, with breadth and warmth, and a little zipping laugh accompanies it that—well, you go and hear it, and then try to tell it is worth the price. She ripped the Journal office this afternoon with a wave on the coral beaches in Pango Pango bay, and did not even know that the horse editor was listening to her gentle prattle as she chattered with the girls in the information department. The fact that the horse editor did not even meet her, and only felt and heard the effect of her silvery voice and charming presence over a seven foot partition accounts for the seeming novelty of this notice. Otherwise he might have had something to say that would have been really good reading matter. Miss Croasman is going to delight her girlhood friends, and there is sure to be many of them present tonight.

A Free Persian Woman.

New York, March 19.—Speaking of a trip which he and his wife recently made in the interior of Persia, the Rev. P. M. Stead, Presbyterian missionary, tells of a visit they made to a remarkable Persian woman who had hit upon a comfortable way of managing her husband. The place was a little village called Gizil Ali, where Mr. Stead had the privilege of preaching in a Persian "auderoun" (the apartments of the women).

The woman of the house, Khan Gizil, he considers one of the freest women in Persia, and told her so. She manages her own household and large estates personally; governs her villages, and acts the part of judge for all her serfs. She deals with outsiders herself, and carries on a large correspondence. She has a husband whose little property she bought up long ago, and to whom she now pays a monthly salary of forty tomans. He stands in practically the same relation to her as one of her hired servants. She sat and talked with Mr. Stead with veil drawn aside, quite as an English or American woman might do, which is most unusual when Persian customs are considered. Khan Gizil and her household probably have no equals in Persia.
