**Fourteen Young Men Get Certificates as Doctors and Four Young Women as Nurses**

The thirty-ninth annual commencement exercises of the medical department of Willamette University was held last evening at the First M. E. church, when 14 young men of the 1906 class received their diplomas and doctors' degrees, and four young ladies were presented with nurses' certificates.

The auditorium and the gallery were crowded with friends and relatives of the graduates. On the platform were Dr. W. H. Byrd, dean of the college; Rev. W. H. Selleck; Miss McNary, of the Salem Hospital; President Coleman, Dr. W. C. Smith, Justice of the Supreme Court T. G. Hailey and Dr. Rowland.

The decorations, though simple, were particularly attractive, consisting of palms and evergreens and of the class colors—white and light blue. The members of the graduating class occupied seats in the choir loft. The graduating nurses were dressed in the uniform common to their calling, and the men wore the classical cap and gowns.

The music for the occasion was furnished by Steelhammer's orchestra, which rendered, pleasingly, several selections, and by Mrs. Charles H. Hinges, who sang with her magnificent voice and technique "Because." Her rendition of "Roses After Rain" was so good that it failed forth a storm of applause, and Mrs. Hinges responded with the encore "The Last Rose of Summer."

The invocation was given by Rev. W. H. Selleck, of the M. E. church. The annual address was delivered by Hon. T. G. Hailey, of the supreme court.

President John H. Coleman presented the diplomas and certificates to the classes, and made a few well-chosen remarks, conferring the degree of M. D. upon the 14 young men.

Dr. W. Carlton Smith gave the charge to the class. "You are the custodians of a great inheritance for the practice of medicine is as old as society," said he. The professors' address was practical and replete with helpful suggestions.

**DIRECT LAW MAKING**

**INITIATIVE BILL TO BE VOTED ON**

**Some are Good, Some are Bad and Some We Leave You to Analyze**

(G. A. Hurley, an able Eastern Oregon editor, in the Oregon Oriano.)  
Equal Suffrage amendment. Vote No. 302 if you favor it and vote No. 303 if you are opposed to it.

Section 2 of article 2 of the constitution of the state of Oregon shall be and hereby is amended to read as follows:

"In all elections not otherwise provided for by this constitution every citizen of the United States, of age of 21 years and upwards, who shall have resided in the state during the six months immediately preceding such election, and shall have declared his intention to become a citizen of the United States one year preceding such election, conformably to the laws of the United States on the subject of naturalization, shall be entitled to vote at all elections authorized by law; it is expressly provided hereby that no one shall be denied the right to vote on account of sex. Additional qualifications of registration and precinct residence may be required by law."

You should read both the arguments thereto given for it by Gail Laughlin and the other against it by the executive committee of the Anti-Suffrage association. Both are printed in the bill and are in the hands of the county clerk.

Amendment to the Local Option law giving Anti-Prohibitionists and Prohibitionists equal privileges.

This law is to amend the present local option law so that the precincts favorable to open saloons can do away with present local option law which makes it so that when a number of districts favor local option the whole territory will be compelled to go dry. The new law will be favored by all those who oppose the present local option law, as it gives the open towns in dry districts the right to stay open. Those who favor the amendment will vote No. 304 and those opposed No. 305.

Law to Abolish Tolls on the Mount Hood and Barlow Road and providing for its ownership by the state.

This law should be voted down. It looks to the Oriano as if it is simply a graft proposition in which a corporation wishes to dispose of a toll road to the state at a fabulous price. We don't think the people should pay \$24,000 for any toll road in order to enrich some schemers who want to get rid of the road. It's a nice scheme on their part, but what is the use? Why not appropriate about \$50,000 for some one's alkali bed in the desert of eastern Oregon, and make them happy? Those opposed to such propositions want to not forget to vote "No" on No. 307.

Vote 310, as this is a law to amend section 2 of article 11 of the constitution. This law does away with the legislature making laws for cities and makes it possible for the legal voters of every town or city to make their own laws in this respect. This is a good law and should be supported, for it does away with the legislature putting in so much time on laws that only effects one town, and then, most of these laws as present made are not sanctioned by the people before they become a law. Vote "Yes" at No. 310. You want to be careful and not get numbers mixed in these laws.

Proposed by initiative for constitutional amendment to allow the state printing, binding and printers' compensation to be regulated by law at any time.

We think this law would make it possible for the legislature to pick favorite printing houses and give them the work for the state, and we don't believe it is a good law. We believe the state should own its own printing offices, pay the state printer a salary and do away with such things as passing along the printing as the legislature may see fit. This law does not even suggest a board to handle this matter. If it suggested that this be put out by a bid and that the governor, secretary or the state printer form a board to do this we would be in favor of it, but we don't favor it as it is. We would suggest that you vote "No" at No. 331. No. 306 is "Yes" for prohibiting free passes on railroads and other public service corporations. Read the law and vote as you feel about it.

**SHERIFF HAS THE REVOLVER**

**Culver Has the Pistol With Which Desperado Smith Did the Deadly Work**

The revolver of the outlaw, Smith with which he killed three of the best officers of the state, Hanlon, night policeman at Oregon City; Sheriff Shaver, of Clackamas county, and Captain O. D. Henderson, is in the possession of Sheriff Culver. Many called at the sheriff's office to look at the weapon that did the deadly work. It is a Colt 41-calibre of the most modern model, of blue steel, with five-inch barrel, and is in fine condition. Smith had the end of the barrel corked with cotton, so as to prevent dirt from entering the barrel. Just where Smith secured the gun has not yet been ascertained. The desperado's little blue, ill-fated cap is also attracting much attention from the curious ones. It is a sort of boys' golf cap, with a narrow band over the crown. That he might wear it, Smith ripped it in the back about two inches. The cap was stolen at Canby, and the boy who owned it identified it yesterday, after the fugitive had been killed. Sixteen cartridges were found on Smith six weeks in the magazine.

**THE BANK HABIT.**  
Possibly you who read this have never kept a bank account. If not, let us suggest that you try the experiment. You will find it helpful in many ways. Aside from the fact that your money will be safe from theft and fire, such a habit tends to thrift, economy, discipline, and a general understanding of business principles, all of which are essential to success. It also affords a convenient method for the payment of bills; and, as the checks are always preserved and returned to you, they serve as receipts for the amounts paid.
