TO REPUBLICANS.

We are anxious to have every Republican in close touch and working in harmony with the Republican National Congressional committee in favor of the election of a Republican congress.

The congressional campaign must be based on the administrative and legislative record of the party, and that being so, Theodore Roosevelt's personality must be a central figure and his achievements a central thought in the campaign.

We desire to maintain the work of this campaign with popular subscriptions of One Dollar each from republicans. To each subscriber will be sent the Republican National Campaign Text Book and all documents issued by the committee.

Subscribers can leave money at Daily Capital Journal office or send direct to James S. Sherman, chairman, P. O. Box 1063, New York.

THE POPULATION OF SALEM.

It is advertised in some of the latest time tables and folders of the S. P. Co. as five thousand people.

THIS OUGHT TO MAKE ANY SALEM MAN SMILE. But he will smile louder when in the same columns of the folder he reads other alleged facts.

HE HEARS THAT ALBANY AND OREGON CITY EACH HAVE FIVE THOUSAND PEOPLE, AND THE CITY OF EUGENE HAS SIX THOUSAND, ASHLAND IS GIVEN AS FOUR THOUSAND FIVE HUNDRED

Now that is clever information to give to the world in the millions of folders and time cards sent out by the great Harriman system.

No one in Eugene is immodest enough to claim that their city is larger than Salem. Oregon City and Eugene do not claim to be as large. April 1906 according to the official Harriman advertising matter Portland had 160,000 people.

We are not concerned about the misrepresentation of other cities but really SOME ONE CONNECTED WITH THE HARRIMAN BOOSTERS SHOULD MAKE THE DISCOVERY THAT SALEM HAS MORE THAN FIVE THOUSAND PEOPLE.

There are about five thousand people enrolled in educational institutions calling Salem their home. There are about five thousand people in public institutions in and about Salem. Nearly five thousand people attended the Lewis and Clark fair on Salem day.

There are a hundred ways in which such an advertisement is an injury to the city and the state and to every business man and citizen of Salem and of Oregon.

The humble bill-poster gets paper for a city of 5000 and they find it three times that. The patent medicine manufacturer makes appropriation for advertising in the papers on the basis of 5000 and the newspaper loses money, because they would spend three times as much in a city of 15,000.

Would it not help the develop-

Savings Department Capital National Bank

ment of the whole state to have it printed in the Harriman literature that there was one city in the state that had fifteen thousand people?

WILL THE HARRIMAN OFFICIALS BE WILLING TO TAKE THE PASSENGER AND FREIGHT BUSINESS ORIGINATING AT SALEM AS THE TEST OF THE MATTER WHETHER SALEM IS SMALLER THAN SOME OTHER TOWNS IN OREGON?

As this is dull season here is a subject that might engage the boosters and development people in the employ of the Harriman system and out of it and let us have the facts given to a cold and cruel world.

NOT AN EASY COUNTRY.

The first thing an Eastern man tells us is that Oregon is naturally a dairy country, that it is an easy country to dairy in.

That is not really true. It is misleading. WHILE DAIRYING CAN BE MADE PROFITABLE IN OREGON, IT IS NOT AS EASY AS IT SEEMS.

The climate is favorable in a way, the nights being cool, no severe, cold weather. But there are many obstacles to overcome.

The problem of green feed in the long dry summer; the problem of shelter for stock in the long wet winter; and there are others.

There are many times in the year when the cows cannot be let run on the pastures without destroying more than they get for their feed.

DAIRY CATTLE CAN BE KEPT PROFITABLE ONLY BY USING PLENTY OF ENSILAGE AND SUCCESSIONS OF GREEN CROPS, and plenty of pumpkins and squash.

Roots must be grown and fed, but they should not be used when ice cold, and warmed at the expense of the vitality of the animal. No, dairying is not so easy as some think. It takes brains.

CULTIVATION AND HOPS.

The well-cultivated hop fields are standing the long siege of dry weather and producing a very fine crop.

HOP FIELDS THAT WERE PARTIALLY NEGLECTED AND ONLY PARTLY CULTIVATED ARE WEAKENING UNDER THE DROUGHT.

Each week of clear, hot dry weather will cut short the yield of hops on plantations that have had shallow or inefficient cultivation.

It pays big to maintain the cultivation of a hop yard just as perfectly as the best cultivated prune orchard, or berry patch.

A heavy hop crop soon gets up so that it shades the soil, and then it holds the accumulated moisture if the land has been thoroughly tilled.

There is plenty of moisture in the soil if the surface is kept stirred and pulverized so that evaporation does not take place too fast.

When the soil under the vines is left hard and lumpy, capillary attraction brings the water to the surface and the evaporation dissipates it.

A THOROUGH DUST MULCH IN THE HOP YARD HOLDS TONS OF WATER IN THE SOIL THAT IS LOST UNDER THE OPPOSITE CONDITIONS. THIS IS SIMPLE AND PLAIN.

To make the biggest and best hop crops in the world, better cultivation is required. Better machinery must be employed to make the dust mulch.

OUR CHANGING CLIMATE.

The long dry summer of 1905 seems to be duplicating itself this year, and the oldest inhabitant declares there has been a great change in climate in Oregon.

The cutting off of timber, clearing land and wearing out the virgin richness of the soil ARE ALL CONTRIBUTING FACTORS IN REDUCING THE TOTAL VOLUME OF RAINFALL.

The total number of dry, bright, sunshiny days in Western Oregon the past two years must exceed the average of the past by a considerable and the change is for the better.

It is believed by some that the manufacture of so much electricity and stringing the whole country over with electric wires and trolley lines has reduced the humidity of the atmosphere.

In many of the Eastern states and California, where they have had more rains and greater storms than in the past IT IS CLAIMED TO BE DUE TO THE MULTIPLICATION OF ELECTRIC WIRES.

Well, we can have the satisfaction of knowing that if the climate is changing it is for the better and far more agreeable than when it was not out of the usual to have rainy weather for about nine months and some times ten months in the year.

THE STORY OF MONTANA

Montana has produced Mary McLane, Senator Clark, and other distinguished and notorious people.

A really notable series of articles begins in the August McClure's under the title "The Story of Montana."

The history of that remarkable commonwealth, with its picturesque early days, when the road-agents held sway and robbed and murdered wholesale the miners and settlers, and the conflict of more recent days between the two great copper kings, William A. Clark and Marcus Daly, WHICH WAS FOUGHT IN BUSINESS AND POLITICS, chiefly within its borders, furnish the author, C. P. Connolly, himself quite an early Montana settler, with the material for a stirring and absorbing article.

This historical series represents a new departure in magazine editing, and adds one more to the important lines of thought in which McClure's has been the pioneer.

The men of Montana were distinguished for doing things. They have made that state live.

CURRENT ECONOMIC DISCUSSION.

Everybody knows that the world is full of facts almost more interesting than any story-writers can devise. In this month's installment of "Soldiers of the Common Good," in Everybody's Magazine, Charles Edward Russell continues his searching studies of foreign nations and institutions with a second article on Japan. It is worth while—it is even imperative, if you are concerned with statesmanship, commerce, or any phrase of sociology—to read this narrative of a little nation's economic foresight, sound statecraft, and commercial initiative. There are matters in which ours is a sleepy nation compared with this infant rival.

In his third article on "Bucket-Shop Sharks," Merrill A. Teague brilliantly carries out the promise of his earlier papers, and makes a detailed exposure of robbers and their methods. Most people are realizing that it is greatly to their interest not to miss one of these articles.

Do you know what a "Muck-Raker" really is? Thomas W. Lawson will tell you, in his contribution to this number, in an article filled with adroitly made points and exuberant good humor. Every American should read it, if only for the sake of its soundly patriotic undertone.

Thin People.

Thin, scrawny, fleshless people are usually nervous, irritable, bilious and dyspeptic. Every change of weather affects them; if they happen to eat or drink anything containing disease germs, it develops at once, and they are the first subjects of any contagious disease coming in the neighborhood.

Their life is a continual worry in their efforts to avoid exposure to damp and malarial atmosphere. People can gain from one to three pounds of solid healthy flesh per week by the use of Dr. Gunn's Blood and Nerve Tonic. It puts their system in condition to resist sickness. This Tonic is in tablet form, to be taken right after meals. Sold by all druggists for 75c per box or three boxes for \$2. It turns the food you eat into strong rich blood. This prevents and cures disease. People tell us who have used the Tonic that it cures them, then keeps them from getting sick afterward.

How's This? We offer One Hundred Dollars Reward for any case of Catarrh that can not be cured by Hall's Catarrh Cure. F. J. Cheney & Co., Toledo, O.

We, the undersigned, have known F. J. Cheney for the last fifteen years, and believe him perfectly honorable in all business transactions and financially able to carry out any obligations made by his firm.

Walling, Kinnon & Marvin, Wholesale Druggists, Toledo, O.

Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system. Testimonials sent free. Price, 75c per bottle. Sold by all druggists. Take Hall's Family Pills for constipation.

CASTORIA.

Bears the Signature of the Kind You Have Always Bought

THE TOWN CRIER. Couldn't make an announcement that would please the public better than when we tell them that their laundry work will be done to perfection and the Salem Steam Laundry can't be competed with anywhere in the country for the perfection of its work on linen, silks or woollens. We defy competition in this line, because if there were any better methods we would have them at once. Try the Salem Steam Laundry. Prices right.

SALEM STEAM LAUNDRY. Colonel J. Olmstead, Prop. PHONE 25. 136-166 S. Liberty St.

NO MAN IS STRONGER THAN HIS STOMACH.

Let the greatest athletes have dyspepsia and his muscles would soon fall. Physical strength is derived from food. If a man has insufficient food he loses strength. If he has no food he dies. Food is converted into nutrition through the stomach and bowels. It depends on the strength of the stomach to what extent food eaten is digested and assimilated. People can die of starvation who have abundant food to eat, when the stomach and its associate organs of digestion and nutrition do not perform their duty. Thus the stomach is really the vital organ of the body. If the stomach is "weak" the body will be weak also, because it is upon the stomach the body relies for its strength. And as the body, considered as a whole, is made up of its several members and organs, so the weakness of the body as a consequence of "weak" stomach will be distributed among the organs which compose the body. If the body is weak because it is ill-nourished that physical weakness will be found in all the organs—heart, liver, kidneys, etc. The liver will be torpid and inactive, giving rise to biliousness, loss of appetite, weak nerves, feeble or irregular action of heart, palpitation, dizziness, headache, backache and kindred disturbances and weaknesses.

Mr. Louis Fara, of Quebec, writes: "For years after my health began to fail, my head grew dizzy, eyes pained me, and my stomach was sore all the time, while everything I would eat would seem to lie heavy like lead on my stomach. The doctors claimed that it was sympathetic trouble due to dyspepsia, and prescribed for me, and although I took their powders regularly yet I felt no better. My wife advised me to try Dr. Pierce's Golden Medical Discovery—and stop taking the doctor's medicine. She bought me a bottle and we soon found that I began to improve, so I kept up the treatment. I took on flesh, my stomach became normal, the digestive organs worked perfectly and I soon began to look like a different person. I can never cease to be grateful for what your medicine has done for me and I certainly give it highest praise."

Don't be hoodwicked by a penny-grabbing dealer into taking inferior substitutes for Dr. Pierce's medicines, recommended to be "Just as good."

To gain knowledge of your own body—in sickness and health—send for the People's Common Sense Medical Adviser. A book of 106 pages. Send 21 one-cent stamps for paper-covered, or 31 stamps for cloth-bound copy. Address Dr. R. V. Pierce, 663 Main Street, Buffalo, N. Y.

ules the whole story. He confesses that an author of Henry VI's time who wrote in Latin and whose work is now entirely lost, upheld it.

Raphael Holinshed, a chronicler who died in 1580, tells the story in detail and says the lady was the queen, which surely rather spoils the significance of the legend. Sir Harris, Nicholas himself thinks the story is not improbable, although he urges the fact that Jean Froissart, who is the best contemporary authority on the reign of Edward III, while he has much to say about the order in his hundredth chapter, does not refer to it, and Nicholas admits that this tells very much against the supposed origin of the story. But Froissart may have thought the matter too trivial to relate.

It is not, I may add, claimed that the incident caused the foundation of the Order of the Garter, but only that it gave Edward III the idea for naming the order which he had resolved to found in any case. In the absence of any other solution than that which rests on these shadowy foundations I think we may still go on accepting the pretty legend; but I repeat my expression of dissatisfaction with the popular histories that they should leave such matters as this severely alone.—Exchange.

Take your meals at the WHITE HOUSE RESTAURANT They will please you White House Restaurant GEORGE BROS. Proprs. Phone Main 196. State St. Meals served at all hours.
