A Salem citizen tells here a certain cure. E. E. Gillman, proprietor of livery and feed stable, at 62 Ferry St., and living at 332 Water St., Salem Ore., says: 'Years of almost constant driving and a fall I got several years ago which wrenched my back badly had tended to hurt my kidneys which I felt in severe backache and lameness so that at times I could hardly straighten up. Sharp pains caught me when I arose after sitting. None of the remedies I tried did me any good until a short time ago I was induced to get Doan's Kidney Pills at Dr. Stone's drug store. In a short time I obtained more relief from the backache and disordered condition of the kidneys, than I had for years. I know of neighbors who have also used your remedy and they all speak of it as the best kidney medicine there is and I believe this to be so.'

### Edwin Grimm Dead.

Hubbard, Or., March 13.—News has been received of the death of Edwin Grimm, at Manila, P. I., January 25, 1907.

He was born near Aurora, Marion county, Oregon, January 2, 1855. April 11, 1888, he was elected captain of Company E, Oregon National Guard. He resigned May 18, 1896, and went to Alaska, but hearing of the declaration of war between this country and Spain, he hurried back to Portland, and was soon afterwards appointed first lieutenant in Company F, of the second Oregon volunteers. He has a valiant record in the service of his country. After being mustered out at the close of the war, Grimm returned to the islands and engaged in business.

After a long illness he was on the eve of returning home, when his death occurred. Six brothers and three sisters survive him. They are Bryan, of Aurora; William, of Hubbard; Martha Schneur, of Laurel; Isaiah, of Portland; Thurston, of Irigoin; Edgar, of Cape Nome; Mary Beebe, of Woodburn; Ralph, of Irigoin, and Alice Weaver, of Hubbard.

### A Good Record.

Eola, March 13.—At two basket socials held in Eola within one year, for the benefit of the public school, the sum of \$122.90 was raised. During this time Miss Bessie Foster, of Monmouth, was teacher. Is there another country school district in Oregon that has raised as much within the same time, without resorting to a tax? If there is, we would like to hear from it.

GEO. C. MITTY.

### Will Have Model Municipal Charter.

Oregon City, March 13.—Mayor Caulfield announces the appointment of committees on the charter commission, and the members will get down to deliberative work. It has been suggested that a part of the work of some of the committees will be to examine the provisions of some of the municipal charters used by the English, German and French nations.

If there is anything in these model charters that can be applied here or changed to suit the existing conditions it will be adopted. Charters of other American cities also will be gone over, and it is expected that when the work is completed that Oregon City will have a model charter in every detail.

The happiest mother in the little town of Ava, Mo., is Mrs. S. Ruppee. I kept this treatment up for a few weeks when he was perfectly well. He has worked steadily since at carpenter work. Dr. King's Discovery saved his life." Guaranteed best cough and cold cure by J. C. ## EMPLOYERS BENEFITTED THROUGH THE EFFORT TO ERADICATE CONSUMPTION

A determined effort is being made in Province, R. I., to stamp out tuberculosis, particularly among the mill hands and factory employes. The Brown & Sharp Mfg. Co., which employs upwards of 4,000 men, is actively co-operating in this movement.

The first step was to post a notice in the works, explaining the nature of the disease, the great danger of neglecting the early symptoms, and advising the most effective treatment. A physician who has made a specialty of tubercular disease was provided, free of expense to the employe, to examine and advise upon each case.

Some employes took advantage of the privilege on their own account, others were given the benefit of suggestion and willingly followed the well-meant advice, while still others had to be induced with more effort.

A number of cases were discovered among the men. Some were sent to the state sanatorium for modern open air treatment. Others were urged to take up open-air work, and wherever possible the company found such work for them. No tubercular person was allowed to remain in the works, for his own sake as well as for that of his fellow workmen. Sanitary precautions were taken to prevent the spread of the disease. Many of the men have already returned to work robust and generally in fine condition.

Few, if any, large manufacturing establishments are free from consumption among the employes. It is a well known fact that pulmonary tuberculosis is so insidious in its workings that the victim seldom realizes the danger until the disease has taken a strong hold. It is among the apparently superficial colds and coughs that the incipient cases are found, and a suggestion from the employer is the one thing needed to stimulate the desire for treatment. Doubtless the future will see very strict regulations governing tuberculosis, and the progressive men who are doing this work of their own volition are only anticipating what will probably be made compulsory.

Colds often lead to serious consequences, and should not be neglected. There is no more effective remedy for colds and coughs than the simple formula, prescribed by an authority on lung trouble, that calls for a half pint of Whisky, two ounces of Glycerine and a half ounce of Virgin Oil of Pine (Pure). These ingredients cost little and can be purchased of any good prescription druggist and mixed at home. Mix well and use in teaspoonful doses every four hours.

Virgin Oil of Pine (Pure) is put up for dispensing only, in half-ounce vials, each vial securely sealed in a round wooden case with an engraved wrapper, showing the name—Virgin Oil of Pine (Pure), guaranteed under the Food and Drugs Act of June 30, 1906, serial number 451, prepared only by Leach Chemical Co., Cincinnati, Ohio—plainly printed thereon. The oils sold in bulk and the many rank imitations of Virgin Oil of Pine (Pure) put out under similar name and style of package are not only ineffective, but often dangerous. It is always well to remember that the object of an imitator is to deceive. There is no known substitute for Virgin Oil of Pine (Pure).
