Harriman Returns Coal Lands

The "Beautiful Snow" Is Falling in Three States

FRISCO STREETCAR STRIKERS

ANNING FOR A GENERAL STRIKE

re Cars Moving Now Than On Monday Morning

San Francisco, May 14.—Cars were sent out this morning on the lines operated Monday and a number of additional lines, and met with the opposition. All cars carried passengers.

General Strike Favored.

It is reported on good authority this morning that a mass meeting of all unions is reported by unions is reported by employees of the United Railways will be held soon for the purpose of voting on a general strike. If a general strike is decided upon blacksmiths, inside and outside electricians and engineers and masons will be affected. The great majority of a general strike, and many are striking already.

SAVED A CORPSE.

Sailor Jumps Overboard on False Alarm.

Chicago, May 14.—Henry Dubarry, a sailor on the steamer Colligan, heard a cry of "man overboard," and saw what he thought was a struggling passenger. He leaped into the water, grasped the man and swam until a line was thrown from the ship. He found he had saved a decomposed corpse. It was not identified, but was of a well-dressed man, aged about 35.

Several New Strikes.

New York, May 14.—Six hundred grain elevator employes went on strike today in sympathy with the longshoremen. Little rioting today.

Bingham Junction, Utah, May 14.—Over 600 Americans employed in the United States smelter walked out this morning for higher wages. Six furnaces were shut down. The men are getting \$1.75 to \$3.00 and want a 50-cent raise all around, which is higher than the wages granted the Murray strikers Friday.

He Took Public Money.

Chicago, May 14.—The appellate court today affirmed the conviction and prison sentence of John A. Cooke, former clerk of the circuit court, found guilty of embezzling public money. The sentence is one to 14 years.

HAYWOOD BECOMES CAREWORN

EFFECT OF LONG IMPRISONMENT

Little Doubt Left That Moyer Had a Prison Record in Chicago

Boise, May 14.—Defendant Haywood is beginning to show the effects of his long confinement. Worry lines about his mouth and eyes are becoming more clearly defined daily. Haywood is still pursuing the study of law, and, according to his attorneys, is making excellent progress. His youngest daughter is his constant companion, and his wife is by his side the entire session.

Knocks Out Moyer's Alibi.

Deadwood, S. D., May 14.—Harry Gregg, who during the continuance of its operations was superintendent of the Castle Creek Gold Mining Company in Pennington county, denies, and his denial is borne out by the books of the company, that Chas. H. Moyer, president of the Western Federation of Miners, was an employee of the Castle Creek Gold Mining Company during the years 1885-86, the time he (Moyer) alleges he had been working for the company. Moyer's statement to this effect was made in refutation of the allega-

tion of a criminal career, makes it much worse.

There is no doubt about Moyer being the man who served in the Joliet prison. The record is complete, also the identification. He was a member of a hard gang in Chicago that committed many crimes, and the record has risen up to confront him now and strike terror into the hearts of those who are defendants with him in this murder case. The state has had the record for a year.

HARRIMAN RETURNS THE COAL LAND

Washington, May 14.—The Union Pacific Coal Company, of which E. H. Harriman is president, has returned to the government about 2600 acres of mineral land in Wyoming. The attorney-general and interior department says this does not mean that criminal proceedings could not be instituted.

Two Suicides at Redding.

Redding, Cal., May 14.—Two suicides in this vicinity last night. Joe Anderson, a miner at the Clark mine on Canyon creek, blew out his brains. Bob Nolton, of the Big creek mine, shot himself through the heart. He was holding a baby on his knee. He handed it to his wife and then killed himself.

MARRIED AFTER MIDNIGHT

Mabel Gilman and Her Ancient Spouse Flee to Europe

New York, May 14.—The Coreys sailed at 7 o'clock this morning. On the pier Mr. Corey was enraged at the newspaper men and photographers, and threatened to break their cameras. Miss Gilman, to whom he was married after midnight, calmed him. To the men she said: "I wish you and all New York good luck."

MT. ETNA FURNISHES EARTHQUAKES

Messina, May 14.—Earthquake shocks continue throughout this territory. They are continuous at Mt. Aetna since Monday noon. The islanders are fleeing.

Sail for Europe.

Washington, May 14.—Count and Countess Hatzfeld, Austrian ambassador to this country, sailed today for Europe, to take a short vacation at the home court. There is a general scattering of the diplomatic corps for the summer. Mr. Lagercrantz, the new Swedish minister, who arrived last week, is the owner, with his brother, of the Sirebro steel works in the central part of Sweden, and he is enjoying his first experience as a diplomatist. He has, however, a wide experience in the business world, in the army, where he gained the rank of second lieutenant, and he comes of an old and powerful family. He resigned from the army in 1889 to devote himself to the Salvation army, and with his wife did heroic work in the slums of London. Later he did social work to India.

G. A. R. Encampment.

Colorado Springs, May 14.—The G. A. R. encamped in this city this morning for a three days' stay, and it bids fair to be the most successful encampment in the history of the organization. About 400 veterans from Denver are here, and other encampments in the jurisdiction are well represented. The time for the encampment is thought to be especially favorable from the fact that it closely follows the receipt of pensions by most of the boys. Then the pensions have been increased lately, and this enables many of the veterans who would otherwise be unable to attend to be here. The election of officers will be the principal matter of business to attend to. Henry Watson, of Greeley, is considered the strongest candidate for department commander to succeed General Dana. The Woman's Relief Corps is also in session.

Federal Court Assembles.

Rochester, N. Y., May 14.—The federal court assembled here today. It is expected that the case of Harrison Hill, the Indian, who sometime ago, it is alleged, killed his brother-in-law, will be tried at this session. Hill is charged with having killed his brother-in-law by shooting him several weeks ago on the Indian reservation at Batavia. His case was put over the last session of the federal court.

Safe Blown Open.

Bates City, Ill., May 14.—A safe in the bank in this city was blown open and the robbers escaped. The safe contained \$28,000, but the amount taken is not learned.

CHICAGO BULLS PUSH JULY WHEAT

Later Reports On Spring Grain Are More Favorable

Chicago, May 14.—Wheat opened in the Chicago pit this morning in a wild, irregular and unsettled manner. There were frequent predictions that before noon some large firms would announce assignments. One broker, caught short yesterday's call for margins on ten per cent, was forced to buy a half million bushels on the market. The greatest excitement prevailed. Reports abound of big houses tottering. Trading is light, brokers fearing to get in. The movement is concentrated on July, which opened with a rush at 96 1/4, shot to 97 1/4, but broke before 10 o'clock to 96. Liverpool is lower, and reports from spring wheat districts are more encouraging. Oats and corn are stronger.

All firms passed the clearing house safely, which is unprecedented, considering the wild market the past few days. The market is steadier.

May closed at 95 1/4. July 95 1/4 and unsettled.

FIREMEN SUFFERED FROM FUMES

New York, May 14.—Fifty firemen were overcome today fighting one of the worst fires the department has had to contend with for years. The building was occupied by the Remington Typewriter Company, on Broadway. It is feared a number of men will die of the effects of breathing the fumes. The flames started in the cellar, where great piles of carbon paper were stored. The paper was only smoldering, but sending poisonous fumes through the upper floors, increasing the danger as the water was poured on. The fire was confined to the lower part of the building. The property loss is not great.

Schutzen Verein.

Charleston, S. C., May 14.—The Schutzenfest of the National Schutzenbund will close tonight. J. M. Schmidt, of New Gloria, was crowned king of the Schutzen. Los Angeles will probably be selected as the next meeting place.

Shriners' Funeral Train.

Santa Barbara, May 14.—The special train bearing the dead and those injured victims of Saturday's wreck of the Shriners' special at Honda who are able to travel, departed from here this morning for the east. A stop was made at San Luis Obispo, where bodies of half a score more killed were taken aboard. All the coaches of the funeral train are beautifully decorated with roses.

General Strike at Seattle.

Seattle, May 14.—Unless the demands made by the riggers' and stevedores' union for higher wages is granted by midnight, a general strike will be declared. The employers declare they will not pay the wages demanded, and are prepared to fight the issue, as a strike of this kind practically ties up shipping all over the Sound, with the possible exception of this port.

CHICAGO STORE

PEOPLES BARGAIN HOUSE

We Are Now Showing

THE GRANDEST ASSORTMENT OF LIVE, NEW UP TO DATE MERCHANDISE SHOWN IN SALEM AND AT PRICES YOU WILL FIND HARD TO BEAT. YOU CAN JUDGE BY THE CROWDS THAT VISIT OUR STORE DAILY THAT WE ARE DOING THE BUSINESS OF SALEM. Bargains in every department greater than ever. Read on:

Christian Science Lecture

BY
Rev. Arthur R. Vosburgh, C. S. B.,
OF ROCHESTER, NEW YORK.

Member of the Board of Lectureship of the First Church of Christ, Scientist, Boston, Mass., at the Grand theatre,

TONIGHT

ADMISSION FREE.

ties that he had served a term in Joliet penitentiary during the years 1886-87. Mr. Gregg, when found this afternoon, declared that the records of the company show that the first time Moyer worked for the company was September 18, 1885.

Boise, May 14.—It is possible change has been brought about through the revelations made respecting Moyer. Though the story of the latter's career in Chicago and his penitentiary sentence has not been published here, it is generally known, outside papers having arrived carrying it in full, also much of a confirmatory character. This is all known to the defense, and there have been more numerous conferences between the men and their attorneys, and these have lasted longer than before.

Effect of Moyer's Record.

It is assumed that these revelations and the effect they will have upon the public are the cause of Haywood's changed countenance and also of more or less nervousness observed among persons closely identified with the defense. This information came as a great surprise to the public here; it was not known that Moyer had ever led a criminal life. He has been regarded as the best man of the three, and it is not too much to say that the general public has felt he was naturally on a higher plane than the others. But this revelation knocks out all of the underpinning of that platform, and leaves him in a bad position. Further, it necessarily prejudices the others, though the old offense can in nowise enter into this case unless Moyer should go on the stand in his own behalf.

Moyer's Identity Beyond Doubt.

The fact that the offenses were not hasty acts, committed under stress of circumstances, but part of the rec-

Brownsville, Investigation.

Brownsville, Texas, May 14.—The United States senate investigating committee was to have set here today for further investigation, but has concluded to change the visit to fall, when a trip will be made around the town and see the committee for themselves the marks of bullets in the various buildings. It is not now intended to examine witnesses in any place besides Washington.

SNOW FALLS IN KANSAS AND NEBRASKA

Concordia, Kan., May 14.—Quite a fall of snow here, and frost is predicted.

Lincoln, Neb., May 14.—A heavy fall of snow, which will benefit the wheat, covered most of Eastern Nebraska to day. Freezing in north parts of the state.

Election in San Antonio.

San Antonio, Texas, May 14.—The city election is in full progress today and every citizen seems to be interested. The Non-Partisan association is taking an active interest in the contest and nominated a ticket of its own. The Non-Partisan association has secured a strong number of members, and is making a bold show in the contest.

Surprise Party After the Theatre.

Denver, May 14.—Chas. Rathry and wife, on returning from the theatre, met a burglar in the house, who robbed them of \$500 and some diamonds and escaped.
