THE OLD WHITE CORNER

## Preparing for Another Busy Month

We are turning the dull summer days into busy ones by offering to the public such inducements as will bring them to our store, despite the burning sun. Our store is cool all day long, and our customers say it is a very pleasant place to spend an afternoon. Greater bargains will be offered on account of the approaching fall season being close at hand. Only two more months for us to close out our immense stock of summer goods.

### Entertain Salem Girl.

Miss Eleanor Taylor gave a very delightful 6 o'clock dinner Monday evening in honor of Miss Mabelle Smith, of Salem, who is visiting her friend, Miss Ruth Johns. Each guest was called upon for a toast, and some very amusing and entertaining speeches were made. Musical selections by each of the guests caused the evening to pass all too quickly, and it was with regret that the jolly gathering broke up. Those present were: Misses Mabelle Smith, Helen Dean, Ruth Johns, Blanche Butcher, Elizabeth Baer and Gertrude Fuchs.—Baker City Herald.

### HIDDEN DANGERS.

### Nature Gives Timely Warnings That No Salem Citizen Can Afford to Ignore.

DANGER SIGNAL NO. 1 comes from the kidneys secretions. They will warn you when the kidneys are weak. Well kidneys secrete a clear, amber fluid. Sick kidneys send out a thin, pale and foamy, or a thick, red, ill-smelling urine, full of sediment and irregular of passage.

DANGER SIGNAL NO. 2 comes from the back. Back pains, dull and heavy, or sharp and acute, tell you of sick kidneys and warn you of the approach of dropsy, diabetes and Bright's disease. Doan's Kidney Pills cure sick kidneys and cure them permanently. Here's Salem proof:

A. J. Wood, of 250 Cottage St., Salem, Ore., says: "Kidney and bladder trouble became so bad with me about two months ago that I was obliged to do something to ease the suffering. It bothered me most in the morning and perhaps for two or three hours after getting up. Too frequent action of the kidney secretions was very annoying and embarrassing. I had known people who had received the best of results from Doan's Kidney Pills and I procured a box of them at Dr. Stone's drug store. Before I had used one box, I was completely free from every symptom of the trouble. The kidneys were regulated and my general health became better. I can hardly express in words the good opinion I have of Doan's Kidney Pills for diseases of kidney complaint or backache."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States. Remember the name—Doan's—and take no other.

### TEACHERS SWARM IN SALEM

(Continued from page one).

#### Old-Timers Present.

The veterans present include "Jack" Horner, of the Agricultural College; County Superintendents Bunch, of Coos; Denham, of Benton; Robinson, of Multnomah; Londs, of Umatilla; Beether, of Lincoln; President Briggs, of Drain; Prof. Davis, of Portland high school, and Prof. Heritage, who used to sing at State Superintendent McElroy's county institutes.

#### Opened With Music.

America was sung with a vim, that was both national music and a prayer. Geo. E. Chamberlain, a man who began life in Oregon teaching school in Linn county, was introduced by President Mrs. Dimick as "the most popular man in Oregon." He made one hard hit, to-wit: That those most brilliant in schools and colleges were often the greatest failures in the practical affairs of life. He cited instances from General Grant at West Point to his own experiences, to show what the dull students, who couldn't show off, scored the greatest success. He said the highest trained teachers should do the work with the lowest grades. He would reverse the present system of putting the highest-trained and the highest-paid teachers in the high schools, and would give the biggest pay to the primary teacher. Those, he said, who devoted their lives to teaching the young should either be paid sufficient salaries to enjoy a competency in their old age, or be given a pension when no longer able to perform professional duty.

Prof. Heritage sang the recitative song of Silvia from the opera "Ernani," entitled "The Wretched Man." It was the opinion of the crowd that Heritage could sing like a he night-ingale.

Mrs. Clara H. Waldo was next introduced to talk on "How a Teacher May Lead a Country Community." She told of a girl who went out to teach a country school with a third-grade certificate, after completing the eighth grade, who admitted she had never read a book in her life. Mrs. Waldo also convinced her hearers that a woman is capable of making herself a fine platform speaker. She has good delivery, a stately presence, a ready wit and a sense of humor that won repeatedly the applause of her audience. The country people were just as bright as the city people. All they lacked was the opportunity for greater social intercourse. The school could furnish this. Parents' meetings, lectures, entertainment, more points of social contact were the need of the day. It was an age of pictures and newspapers. The co-operation of the school and grange, where mothers and sons, fathers and daughters went together, was needed in all communities. She took a fall out of Governor Chamberlain, who had not exactly boosted higher education. She said the farmer needed the best kind of scientific education, and the more highly educated the farmer became the more ready he was to vote for a man like the governor to fill some important office. (Laughter). She closed with a strong plea for the union of high school with a manual training department to prepare them for teachers. That system would keep the young people at home longer, and electric lines would transform the face of the whole countryside.

#### Afternoon Program.

This afternoon "Compulsory Education" was handled at the church by Miss S. B. Chamberlain, W. E. Harmon, H. E. Dewey and J. H. Ackerman, state superintendents of Idaho, Montana, Washington and Oregon, respectively. Also an address by Wm. E. Chancellor, on "Genetic Psychology." The department of superintendence held a session at the high school. Also the departments of secondary and higher education.

#### Willamette Valley Coal.

We are promised that it will not be long until you will see the sign up "Leave orders here for Spence Butte Coal." J. W. Zimmerman, manager of the Spence Butte Coal & Petroleum company, informs the Register that they have cut a four-foot vein of coal. He says a contract will be let in a few days to extend the shaft that is now down 90 feet, 175 feet further to the coal.

A good boiler and engine for hoisting purposes is now on the ground ready for work, and a double shift will push the work to completion in time enough to give a month or so of hauling coal to Eugene before the rainy season sets in.—Eugene Register.

#### Contract Let—

The contract for improvements at the blind school was let today to Julius Hopt, for \$5961, he being the lowest bidder.

#### California Town Burns.

Modesto, Cal., July 1.—The town of Turlock, near this city, was visited by a disastrous fire last night. Loss \$25,000. The fire started in H. Bonz's butcher shop, and spread to adjoining buildings. There was no fire department, but the men and women formed a bucket brigade and saved the rest of the town. Heroic work by the women saved the other buildings.

More than one Salemite has already had an attack of schoolmarmitis this morning. It is a regular rose-cheeked epidemic, and deliciously contagious, so the victims say.
