Nothing Doing.

The musician was visibly annoyed. "But, hang it all," he said, "I told your reporter three or four times over that the violin I used was a genuine Stradivarius, and here in his report this morning there's not a word—not a word!"
With a scornful laugh the editor replied: "That is as it should be, sir. When Mr. Stradivarius gets his fiddles advertised in this paper under \$2 a line, you come around and let me know."—Exchange.

KEEP THE KIDNEYS WELL.

Health Is Worth Saving, and Some Salem People Know How to Save It.

Many Salem people take their lives in their hands by neglecting the kidneys when they know these organs need help. Sick kidneys are responsible for a vast amount of suffering and ill health, but there is no need to suffer nor to remain in danger when all diseases and aches and pains due to weak kidneys can be quickly and permanently cured by the use of Doan's Kidney Pills. Here is a Salem citizen's recommendation:

William Bumgarner, retired, of 424 Water street, Salem Ore., says: "I speak from personal experience when I say that Doan's Kidney Pills do all that is claimed for them in curing kidney complaint and backache. I had felt the need of such a remedy for a good long time, but did not know just what I should use. I have found that many medicines are worthless and that even physicians' prescriptions do not always prove effective. When I read of Doan's Kidney Pills, however, I was induced to procure a supply. The backache and irregular condition of the kidneys which had annoyed me, quickly gave way on beginning to use your remedy and I was restored to a condition of ease and comfort. I can recommend Doan's Kidney Pills to anyone in need of such a medicine." For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

What His Music Bill Meant.

An architect who had planned and superintended the building of a west side resident had turned over the completed house to its owner. The architect had been in nowise hampered in the expenditure of money, yet his customer, being a good business man, gave his personal attention to the details of the cost.

"What does this mean?" he asked on a final inspection of the bills. "Three hundred dollars to a quartet of trained musicians. How can anybody have given a concert already in my house when no one is living there?"

"They were testing the acoustics of the rooms," the architect explained. "Every room in your house has been submitted to that test. There will be plenty of music there later on, and I certainly wouldn't want to finish the house without being sure that the sounding properties were satisfactory. In these days every private house or hotel that amounts to anything is put through the acoustic test before it leaves the architect's hands."—New York Sun.
