DR. KING'S NEW DISCOVERY FOR COUGHS AND COLDS CURES ALL THROAT AND LUNG DISEASES

SAVED HER SON'S LIFE

My son Rex was taken down a year ago with lung trouble. We doctored some months without improvement. Then I began giving Dr. King's New Discovery, and I soon noticed a change for the better. I kept this treatment up for a few weeks and now my son is perfectly well and works every day.

convention hall ever constructed, as it is the most modern.

"When I was in Denver the citizens were making extensive preparations for the coming convention. It is looked upon as a sort of patriotic duty there to make all strangers feel at home and depart feeling that they are well treated. About 100,000 tourists come to Denver every summer and the residents of Colorado have the faculty of entertaining strangers down to a science.

"One of the weighty reasons for taking the Democratic national convention to Denver was the coolness of the weather in July. Every convention that has been held in the East has suffered from the heat, but at the Denver gathering there will be no weather warm enough to make the audience feel uncomfortable. In the summer evenings the cool breezes blowing from the snow clad mountains make the air delightfully cool. It is largely in the nature of an experiment to bring a convention so far West and the residents of Denver know the result will be watched with interest, so they are preparing to keep the credit of their city as a popular meeting place for conventions up to the highest mark by leaving nothing undone to please the visitors."

The Jumping Off Place.

"Consumption had me in its grasp; and I had almost reached the jumping off place when I was advised to try Dr. King's New Discovery; and I want to say right now, it saved my life. Improvement began with the first bottle, and after taking one dozen bottles I was a well and happy man again," says George Moore, of Grimesland, N. C. As a remedy for coughs and colds and healer of weak, sore lungs and for preventing pneumonia New Discovery is supreme. 50c and \$1.00 at J. C. Perry, druggist. Trial bottle free.

Neighborhood Favorite.

Mrs. E. D. Charles, of Harbor, Me., speaking of Electric Bitters, says: "It is a neighborhood favorite here with us." It deserves to be a favorite everywhere. It gives quick relief in dyspepsia, liver complaint, kidney derangement, malnutrition, nervousness, weakness and general debility. Its action on the blood, as a thorough purifier makes it especially useful as a spring medicine. This grand alterative tonic is sold under guarantee at J. C. Perry's drug store; 50c.

CANADA RESERVES ALL ITS FORESTS.

Washington, Feb. 18.—At one stroke of the lieutenant governor's pen 150,000,000 acres of forest land in British Columbia have been placed in reserves. This includes every acre of the province's timber lands except what has been leased. This is as much land as was put in the national forests of this country between the years 1891 and 1907.

The action was taken to check wasteful exploitation of timber resources and to bring the care and cutting of timber more effectually under government control.

The province has been leasing timber land instead of selling it. The most of the leasing has been done the past three or four years, and Americans hold the largest part of the 10,000 leases now in force. The lease is, in its effect, a long term option at low rate. It runs twenty-one years and may be renewed at the end of the first term. The lessee pays 25 cents a year until he is ready to cut the timber, when he pays 50 cents royalty per 1,000 feet, board measure, for the timber removed. The income of the province from leases was about \$1,275,000 last year.

British Columbia is the largest of the soft timber regions to be invaded by lumbermen. The great industry began its work in Maine two or three generations ago; passed later to the pine and hemlock forests of Pennsylvania and New York, and when supply ran short there they moved to Michigan, Wisconsin and Minnesota. The pine woods of the lake states held out a long time, but the decline finally became so rapid that the scene of operations was shifted to Washington and Oregon. The output of the Puget Sound region rose to first place and it is still at top notch. But holdings are harder to get, and buyers and speculators have crossed into British Columbia. While there are many rich stands of timber in the province, it is doubtful if the forest woods furnish a cut of more than 100 to 150 billion feet of lumber less than what this country uses in eighteen months.

British Columbia does not permit the export of logs cut on provincial land. They must be sawed by mills in the province, which evidently intends not only to take care of its timber, but to make the most out of it. An export duty has been seriously considered by the dominion government for all of the provinces of Canada. It is apparent that British Columbia will not be slow to take any advantage which the further diminishing of the timber supply of the United States may afford her in the lumber trade.

NEGLECTED COLDS VERY DANGEROUS.

Instructive Lecture at Mothers' Conclave at Jamestown.

At the recent mothers' convention at Jamestown the meeting was addressed by the venerable Dr. Hartwell, the southern physician of national reputation. The principal topic of his lecture was the necessity of prompt attention to what most persons neglected, namely, common colds. He stated that three-fourths of the dread diseases of the present day have their origin in common colds.

He also stated that his long experience has taught him that the most effective remedy for the quick relief of chronic and acute coughs and colds and throat troubles is pine and advised the use of what is known to the profession as Concentrated oil of pine.

This is to be used in the following formula: Two ounces of greenish, one-half ounce Concentrated oil of pine, half pint of first class whisky; these to be mixed and used in doses of a teaspoonful to a tablespoonful every four hours, shaking the bottle well each time. The ingredients are obtainable at any good prescription druggist and easily mixed at home. Care should be taken to get only the Concentrated oil of pine which comes put up for dispensing in half ounce vials securely sealed in tin screw top cases. The bulk oils and patent medicine imitations often put out in wooden boxes, usually cause nausea and other complications.

DEMOCRATS WILL FLY HIGH.

"The next Democratic national convention will be held at an elevation of a mile above sea level at Denver, Colo., where the convention meets July 7, being at that altitude," said a visitor from Colorado to a reporter yesterday. "They are building a magnificent auditorium in Denver for the convention, the idea being to have a permanent convention hall, similar to the great tabernacle constructed by the Mormons in Salt Lake. The mammoth structure will be built of stone and steel and will be entirely fireproof and ought to last for generations. It will cost \$550,000 and is designed in accordance with the most modern plans so that the acoustic properties are perfect. It has a seating capacity of 12,000 people and is in all respects the finest

The Prineville Review says: "If government issues currency, whatever the base may be, then the government must hold the base." The Cause of Many Sudden Deaths.

There is a disease prevailing in this country most dangerous because so deceptive. Many sudden deaths are caused by it—heart disease, pneumonia, heart failure or apoplexy are often the result of kidney trouble. If kidney trouble is allowed to advance the kidney-poisoned blood will attack the vital organs, causing catarrh of the bladder, or the kidneys themselves break down and waste away cell by cell. Bladder troubles almost always result from a derangement of the kidneys and a cure is obtained quickest by a proper treatment of the kidneys. If you are feeling badly you can make no mistake by taking Dr. King's **Swamp-Root**, the great kidney, liver and bladder remedy. It corrects inability to hold urine and scalding pain in passing it, and overcomes that unpleasant necessity of being compelled to go often through the day, and to get up many times during the night. The mild and extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases.

Swamp-Root is pleasant to take and is sold by all druggists in fifty-cent and one-dollar size bottles. You may have a sample bottle of this wonderful new discovery and a book that tells all about it, both sent free by mail. Address, Dr. Kilmer & Co., Binghamton, N. Y. When writing mention reading this advertisement in this paper. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.
