ANT GALLANTLY GOES TO
JAIL IN PLACE OF WOMAN.

Good people generally will rejoice
at the acquittal of Mayor Lane of all
aspersions against his good name
and character at the instance of Mrs.
Waymire and Mr. Radding. Whether
they are good or bad, is not to the
purpose, but whether they conspired
to put a black stain on one of the
leading public citizens of Oregon is
not a question of reasonable doubt,
as the jury returned a verdict find-
ing them guilty of conspiring to
blacken the character of Mayor Har-
ry Lane by plotting to have him dis-
covered in a compromising position
with Mrs. Waymire. The case has
been under trial for the past week,
and has attracted great attention.
Interest centered in the anomalous
position of Mayor Lane, who, though
the complaining witness was, in the
opinion of the general public, under-
going a trial rather than Mrs. Way-
mire and Radding, and their acquittal
would have been a serious blow to
him politically, not to mention the
more important fact that it would
cast serious aspersion on his integ-
rity as a physician.
The jury was out only a short time
and this is taken generally to mean
that that body entertained no
doubts that the mayor had been in-
tended as the victim of a plot against
his good name.
Portland, Feb. 26.—Guilty as
charged, of attempting to blacken
the character of Mayor Lane and of
offending against public decency,
such was the verdict returned against
Mrs. Belle Waymire and E. E. Rad-
ding. The jury reached its conclu-
sion concerning the highly contradic-
tory testimony in 30 minutes of ac-
tual deliberation.
Two ballots were taken. The first
stood 11 to 1. Immediately after the
decision was announced deputies
were sent out to arrest the defend-
ants, who were not in court at the
time. Bail was increased in each
case to \$1000. Radding turned his
\$500 over to Mrs. Waymire, releas-
ing her, and he spent the night in
jail.

practically noiseless, as the escape of
gases that ordinarily follow the
discharge of firearms will be shut
off in Maxim's new gun.
This is obtained by means of a
piston valve sliding across the bore
of the barrel immediately after the
bullet passes. The valve is actuated
entirely by the pressure of the gas-
es themselves, and is not operated by
any intricate mechanical devices. The
valve allows the gases to issue
through a series of small holes, thus
obviating all noise except a slight
hissing sound. The valve then re-
sumes an open position and a safety
device prevents the firing of another
cartridge unless the valve is in its
proper place.

Albany, N. Y., Feb. 26.—The New
York senate, contrary to the wishes
of Governor Hughes, today retained
in office State Superintendent Otto
Kelsey by a vote of 39 to 19. Ap-
parently no great interest was taken
in the matter by the legislators.
Kelsey is the man against whom
Governor Hughes waged such a bit-

MURDERED PRIEST HONORED

(United Press Leased Wire.)
Denver, Feb. 26.—The most re-
markable gathering in the history of
Denver today attended the funeral of
Father Heinrichs, who was assassinated
Sunday by an anarchist.
For three blocks all streets lead-
ing to the church where the services
were held were packed by masses of
humanity eager to enter the church.
Only members of the parish in which
Father Heinrichs worked were per-
mitted to attend the services. At
the same hour Giuseppe Allo, the as-
sassin, was arraigned in the criminal
court on a charge of murder.

San Francisco, Feb. 26.—"I can
see the signs of the storm coming,
but how severe it will be we cannot
tell. It depends on how well we are
prepared to meet it. The work of
Dr. Blue and Dr. Rucker has been
marvelous," said E. L. Van De Nail-
len, president of the California En-

gineering Company, at the mass meet-
ing held in the rooms of the Califor-
nia club this morning in the interests
of the rat crusade.
Van De Naillen was in Hawaii at
the time of the plague epidemic. In
speaking of his own experiences
there, he said:
"I got the plague from drinking
out of an infected spring and became
unconscious in 20 minutes after
drinking the water. By good care I
recovered.
"This epidemic can be prevented.
When plague broke out in the sea-
port of Kahooli 20 per cent of the
population died, while on the plan-
tation adjoining and in Spreckels-
ville, where sanitary conditions pre-
vailed, there were no deaths."
R. A. Ross, of the Filmore Street
Improvement Club, also addressed
the meeting, saying:
"We have posted notices to the ef-
fect that if the home of any employe
is found in an unsanitary condition
the employe will be discharged."
He further stated that the Fil-
more Promotion Club has an in-
spector paid by the club, and not the

TELEGRAPHERS PREPARE TO FIGHT REDUCTION.

Spokane, Wash., Feb. 26.—The
railway telegraphers of this division
announce that the union and non-
union men have voted to strike if the
Northern Pacific or the Great North-
ern cut the wage scale.
They claim the companies are try-
ing to make the men pay for the ex-
tra operators required when the in-
terstate commerce commission in-
hour la wgoes into effect on March
1st.
The vote shows that 95 per cent
of the operators on both roads will
quit.
They are now averaging \$75 per
month for 12 hours' work.
Albany jurors in the Burkhardt lo-
cal option case disagreed.

(United Press Leased Wire.)
San Francisco, Feb. 26.—"Big
Jim" Gallagher, member of the old
boodle board of supervisors and right
hand man for Abe Ruef, is to be a
witness for the defense in the Wil-
liam S. Tevis libel suit against Frem-
ont Older and R. H. Crothers, of the
San Francisco Bulletin.
Tevis is the millionaire land own-
er, who was accused by the Bulletin
of entering into an agreement to pay
Ruef and the supervisors \$1,000,000
to pass an ordinance purchasing the
Bay Cities Water Company.

The work of selecting a jury was
resumed this morning before Super-

els, the financial backer of the graft
prosecution, who is to be one of the
witnesses for the defense, was pres-
ent.

Great Dynamite Plot.

Oakland, Cal., Feb. 26.—A box
containing 40 sticks of dynamite, a
quart bottle of muriatic acid, a
quantity of fuse and screw-eyes was
dug up in Fremery park, Sixteenth
and Adeline streets, at noon today
by the police, who were led to the
spot by "Baby John" Martin. The
boy claims that he buried the stuff
at the order of his putative mother,
Mrs. Isabel J. Martin, and that this
is the store from which she intended
to draw materials for bombs with
which to exterminate her enemies.
"Baby John" Martin arrived from
Weaverville this morning in charge
of Detective Hodgkin and Deputy
Sheriff Donahue, and was immedi-
ately placed in a cell at the city prison.
The boy refused to talk, and all he
could be induced to say was:
"I do not wish to be offensive, but
I have received instructions not to
say anything at this time."
Detective Hodgkin says he is con-
vinced that the story told by "Baby
John" at Weaverville is true.
"We can find the second bomb,
and, starting as the evidence already
obtained in Trinity county is, it is
nothing to what we can now find in
Oakland."
Captain of Detectives Peterson,
who is closeted with his subordinate,
is going over the details of the chase
at Weaverville, and promises some
sensational features for publication
after the conference.
"I have not anything to say this
morning," said Captain Peterson.
"But of this I am firmly convinced;
we now have the evidence sufficient
to convict Mrs. Martin of the crime
of dynamiting."
