AUTO-VIVISECTION

Do You Deliberately Torture Yourself Alive by Neglecting Your Stomach.

Remedy Free for the Asking.

A great outcry has arisen during the last few years against scientists who torture dumb animals alive in the interests of science. How many people are there, however, who needlessly torture themselves by causing their stomachs to overwork. Dyspepsia, indigestion, heartburn, sleeplessness, loss of vim and energy are the inevitable result.

Are you one of these? Why not give your stomach a rest? Stuart's Dyspepsia Tablets will relieve your stomach of all its work and do it for you. They are compounded of the very elements and do the work which the stomach performs when in normal health, aspeptic pepsin, malt diastase and like ingredients.

Dr. Richardson in writing a thesis on treatment of dyspepsia and indigestion, closes his remarks by saying "For those suffering from acid dyspepsia, shown by sour watery risings or for flatulent dyspepsia, shown by gas on stomach, causing heart trouble and difficult breathing, as well as for all other forms of stomach trouble, the safest treatment is to take one or two of Stuart's Dyspepsia Tablets after each meal. I advise them because they contain no harmful drugs, but are composed of valuable digestives, which act promptly upon the food eaten. I never knew a case of indigestion or even chronic dyspepsia which Stuart's Tablets would not reach."

Cheap cathartic medicines claiming to cure dyspepsia aid in digestion can have no effect whatever in actively digesting the food, and to call any cathartic medicine a cure for indigestion is a misnomer.

Every druggist in the United States and Canada sells Stuart's Dyspepsia Tablets, and they are not only the safest and most successful but the most scientific of any treatment for indigestion and stomach troubles.

Price 50 cents a box at all druggists. Free samples on application to F. A. Stuart Co., 150 Stuart Bldg., Marshall, Mich.

Wants a Joint Debate.

Hal D. Patton, of this city, who is a candidate for the legislature on Statement No. 1, has issued a challenge to Republican leaders who are opposed to statement No. 1 to debate the question publicly, and is willing to meet them and arrange for dates and help pay for the opera house.

Mr. Patton is meeting with a great deal of encouragement in his campaign.

He was approached today by one of the anti's with the question, why he wanted to take a statement No. 1, under which he might have to vote for a Democrat, if the people elected one.

"Well, why do you Republicans want to elect a Democrat. You have an immense majority in this state, and if you vote your principles and support your party candidate, I will not have to vote for a Democrat."

"I would like to have the question debated publicly," said Mr. Patton today. "It is the best way to get at the truth of the matter, and I will gladly arrange a meeting."

SALEM PUBLIC SCHOOLS.

Will Help the Booster Movement on Plan Proposed by Board of Trade.

After a conference with the board of trustees with City Superintendent Powers a movement has been organized to have the public schools of this city help the advertising program, by circulating several thousand copies of the 1000 Facts of Production. Each teacher and each child in each room is to be enlisted in this campaign to the extent of writing one letter, and sending one of the sheets to some friend in the East.

The Board of Trade has ordered the second 10,000 lot, the first going off very fast. Business men, farmers, manufacturers and bankers are sending out the little sheet of 1000 Facts of the fruit crops of the last year. All who have not done so should call at the Board of Trade rooms for free copies to circulate. The sheet of 1000 Facts will go in an ordinary two-cent letter without additional postage, and can be mailed for one cent.
