SALEM HORSE

SHOW WAS A GREAT SUCCESS

SUMMARY OF EVENTS AND THE PREMIUMS AWARDED—PRIZES GIVEN AT MT ANGEL

A feature of the second annual exhibition of the Salem Horse Show association was the participation of the champion Belgian draft horse Perce, owned by J. N. McKay, of the Mission Stock farm, St. Paul, Marion county, Oregon. Perce has been exhibited in France, England, Belgium, and other European countries, in Canada and half the states of the Union, and has never been defeated in his class. Today in the magnificent parade of stock representing a large part of the Willamette Valley, Perce was decorated with scores of medals won in competition with the best horses of his class in the world. Six of these medals were won in Belgium alone. The horse is the heaviest ever brought to the Pacific coast, weighing about 2500 pounds.

The show was a great success, in spite of the cold rain that fell at intervals. The classes were well filled and the stock was in excellent condition. A pony ridden by Anna Solomon reared up at a passing streetcar and fell backward on the girl, severely but not fatally crushing her.

San Francisco, April 5.—[Upon discovering his own name on the envelope of a telegram which he had been given to deliver, Willie Robinson, night messenger for the Western Telegraph Company in this city today opened the message to learn that he is a beneficiary to the amount of \$20,000 in the will of his father, which has been probated in Los Angeles. The lad's father died recently in the southern city.

According to the terms of the will \$20,000 to be divided among three boys, of whom the San Francisco boy is the youngest.

After receiving the message telling the youth of the good fortune, the clerk of the Western Union office sealed it in the usual envelope and called the lad from his bench in the messenger's room.

"Here, boy, rush this," he growled. Half way to the door, Willie turned a look of astonishment or 'tis face. After reading the brief announcement he stood as if dazed while his associates showered him with congratulations.

The boy takes his good fortune with unusual modesty. When asked if he intended to stop work and enjoy his money he remarked, shrewdly: "I'm not going to do a thing until I have my bank book in my pocket. Then I want a three-days' lay-off. Working at night at my job teaches a fellow a few things, and I'm not going to throw any money on big dinners and such things. Of course," he continued wisely, "there are two or three girls that will enjoy a theatre trip occasionally, and I guess they can have them now."

The boy's father was a loan agent in Los Angeles, and the small fortune he has amassed was unknown to his son.

VANISHES FROM FACE OF THE EARTH

(United Press Leased Wire.) Sausalito, Cal., April 5.—Searching parties are today beating the Marin hills, trying to find some trace of Manuel Silva, a ranch hand who, three days ago, within the short space of 30 seconds, disappeared from the side of his employer, Constantino Bello, in a flat, open country which had no brush, rocks or declivities where a man could be hid. Bello last saw Silva when the latter jumped from a farm wagon to open a gate and, after allowing the vehicle to be driven through, failed to return. Bello supposed that Silva

was playing some joke on him and, consequently drove on to town, expecting to find his employe at the when he returned.

Silva was not to be found, however, and a search of the county, where he was last seen, made the puzzle all the greater. Silva has not been seen by his wife, who lies today prostrated at her home as the result of the strange absence of her husband.

Bello, fearful that spooks have removed Silva, has reported the case to the authorities, who are now directing the hunt for the lost man.

LUTHER BURBANK HAS SOME PLUMS

(United Press Leased Wire.) Santa Rosa, Cal., April 5.—That the several varieties of toothsome plums now known to fruit lovers are descended from the plant of Luther Burbank, the plant wizard of this city.

"I am now experimenting with 517 varieties of plums," said Burbank today, "and one of which, I believe, is superior to any plums now known to the world. For the past few months I have been working and experimenting with this fruit, and in taking an inventory of the results I have found that I have on my ranch at the least 517 plums of which the lawman has never heard."

Burbank has recently evolved a five-leaf clover, and states that an additional leaf will be forthcoming in the near future.

IS AFRAID JAPAN WILL MAK OUR SOCKS

(United Press Leased Wire.) Washington, April 5.—In reply to the great wave of disapproval from the women of the country, H. L. Washington, who is here as the representative of the Association of Hosiery and Underwear Manufacturers, today gave out the following statement regarding the proposed tariff:

"We claim the right of protection, as provided in the Payne bill, because the import from Europe are increasing steadily, and we will soon face Japanese competition. The duty fixed by the Payne bill is so small that it will never reach the consumers."

"Japan is showing wonderful development in the industry, and now controls 60 per cent of the trade in India. In five years the Japanese will have the hosiery manufacturers in this country standing on their heads."

"We simply can't get along with less tariff than the proposed bill provides."
