### Beware of Ointments for Catarrh that Contain Mercury.

as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten-fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free.

### Best Treatment for Colds.

"Most ordinary colds will yield to the simplest treatment," says the Chicago Tribune, "moderate laxatives, hot foot baths, a free perspiration and an avoidance of exposure to cold and wet after treatment." While this treatment is simple, it requires considerable trouble, and the one adopting it must remain in doors for a day or two, or a fresh cold is almost sure to be contracted, and in many instances pneumonia follows. Is it not better to pin your faith to an old reliable preparation like Chamberlain's Cough Remedy, that is famous for its cures of colds and can always be depended upon? For sale by all good druggists.

## CITY COUNCIL ORDERS 12 TH. STREET IMPROVED COUNCIL PASSES FIRE LIMITS ORDINANCE AMENDMENT OFFERED TO PERMIT LIQUORS SERVED WITH MEALS

### Fight Over Alley.

M. P. Dennis asked permission to vacate alley in block between Fifteenth and Sixteenth streets on south side of State street. George S. Downing was invited to address the council in opposition to the petition. He wanted original alley to remain as planned. Mr. Dennis also addressed the council. He showed that the streets north and south were not opened from 15th to 19th. On motion the petition was laid on the table by a vote of 4 to 3. Mr. Waters tried to have the motion reconsidered, but none of those voting with the majority would make the motion

## TO BREAK PAVING EMBARGO

The mayor and street committee took a trip this afternoon to see a rock quarry a mile from the big bridge in West Salem. The city is hard up against it in the matter of street material. The supply of crushed rock is very limited, and can not be furnished at prices that make it possible to use it on suburban streets. Then there is nothing but unscreened river gravel, and so far no private capital has been willing to put in a gravel screen, such as is being worked at Eugene and other cities, by which the gravel is cleaned of sand and dirt, and furnished in graded sizes that makes it possible to put down a good street. The city has no steam roller to build a street with. The construction of a boulevard to the fair grounds is an impossibility under the circumstances. The mayor and street committee are determined to break the embargo on street improvement, and get a supply of cheaper crushed rock, and hence the trip was taken today.

## Difficult Breathing

Short breath, fluttering, palpitation, sinking spells are symptoms of a weak heart, struggling to do its work. It must keep the blood in circulation to carry nourishment to make flesh, bone and muscle, and remove the worn-out particles. When it cannot do this, it must have help. Dr. Miles' Heart Cure gives strength to the heart nerves and muscles, and increases the heart action.

"I am glad to say that I am so much improved in health. Dr. Miles' Heart Cure cured me when several doctors failed. I think no other medicine could do for me what Heart Cure has done. My cure was had as it could be at times. I had difficulty in getting my breath, my heart beat so fast at times that I thought it impossible to live without relief; the pain was very severe in my left side, and my nerves were all unstrung. I had almost given up all hope of being cured, and I am sure I would not, if I had not taken the Heart Cure. I take great pleasure in recommending Dr. Miles' remedies to all who suffer with heart disease."

## ORE BIN COLLAPSES AND MILL FOLLOWS

Coram, Cal., April 20.—It is estimated today that the cost of reconstructing the ore bin of the Balaklava Consolidated Copper Company's mine which collapsed yesterday will be \$50,000. The machinery in the sampling mill, which also collapsed, is a total loss, the amount of the damage being impossible to estimate.

The ore bin heaved in about 11:30 yesterday morning and while a large force of men was at work clearing the debris, the sampling mill, which was supported partly by the bin, toppled over. No one was injured.

At the time of the accident the ore bin contained 500,000 tons of ore. The weight of this great mass is believed to have caused the collapse.

## BATTLESHIP BREAKS RECORD FOR COALING

[United Press Special Wire.]  
Navy Yard, Puget Sound, Wash., April 20.—What is declared to be the world's record in coaling a warship has been made here by the cruiser St. Louis, which took on 1500 tons of coal in 14 1/2 hours, while lying at her berth alongside the pier.

This record is all the more remarkable when the fact is considered that the St. Louis is in reserve and carries only one-third her full complement of men.

The battleship Virginia has heretofore held the record for taking on coal. Her record was made with a full force of men aboard.

The St. Louis is now ready for sea duty, and is now waiting sailing orders from Washington.

Eugene parties are breaking ground on a \$100,000 hotel. Forest Grove will spend \$70,000 on a new water supply. Cottage Grove has raised a \$4000 publicity fund.
