ARRANGE FOR MORE BASEBALL

St. Johns, Albina, Vancouver and East and West Portland Teams to Play in Salem.

The managers of the local baseball team have been doing some busy work during the past few days securing dates with the teams over the valley, and their efforts have been rewarded far better than expected.

In connection with the games secured with teams from the Tri-City league, the J. G. Mack Company, an aggregation also from Portland which has the reputation and the men to clinch the fact that they can play professional ball any time, will be in the city again shortly to try their art on the Salem Independents.

The Salem fans will be pleased to learn that the mighty Woodburn-Scio team has been engaged to play here at some future date with the Salem team. This is a picked aggregation from Woodburn and Scio and to date they stand game-and-game with the Salem team.

For the rest of the baseball season the great national game will be played in this city every Sunday, and it is not simply the case of playing ball that is assured by the local management but baseball played in A1 style and by men who are experienced and capable of stepping into a diamond and making the shrewd fan take notice of him.

ROOSEVELT KILLS BIG HIPPOPOTAMUS

(By Warrington Dawson, Staff Correspondent of the United Press) Nainasha, July 16.—Killing a hippopotamus weighing three tons, Colonel Roosevelt added new laurels to his reputation as a big game hunter last night.

The colonel, unaccompanied by any of his white companions, was hunting near camp last night, when he encountered the giant hippo. He killed the great beast, and then proceeded to camp with the news. The members of the party were greatly excited by the colonel's story, and rushed out to see the animal.

The hippo was the largest killed in this section for many years.

NEARLY THIRTY THOUSAND

This Is Number Filing on Indian Lands—There Will Be One Chance in a Hundred.

Spokane, July 16.—At the close of the first day of registration for the Spokane, Coeur d'Alene and Flathead reservation lands it is estimated that 28,000 applications have been filed. Of these, 10,000 are at Spokane, 10,000 at Coeur d'Alene, 4000 at Missoula and 4000 at Kalispel.

No accurate count is possible, as some notaries do not keep any record of the applications sworn to before them. It is possible that the first day's registration is heavier than it will be on any one of the succeeding 19 days, as many seemed possessed of an idea that there was some advantage in being first.

In all of the cities where filings are taken the hotels are crowded to overflowing, and many temporary sleeping places have been fitted up.

The applicants appear to be an excellent class of people, the majority from the east looking like well-to-do farmers or sons of farmers. There has been no disorder, and the police are keeping close watch for crooks.

Thousands of the land fillers are from eastern points and the railroads report many thousands yet coming. From all parts of the Inland Empire there are applicants and the coast territory is sending a large quota.

Dr. Charles F. Koch of Chicago claims the distinction of being the first to file at Missoula.

A noticeable feature is the optimism of the visitors, all expecting to draw prizes. Yet the small chances of success may be seen when it is estimated that there will be not less than 300,000 applications, while the aggregate of homesteads in the three reservations is less than 3000.

WANTS OTHER FELLOW TO PAY THE BILLS

(United Press Leased Wire.) San Francisco, July 16.—Lady Nora Helen Gertrude Jenner, wife of Sir William Jenner, physician to King Edward, and daughter of British Field Marshal Stewart, is plaintiff in a suit filed in this city to collect \$27,160 from Bertram Samuel Murphy, millionaire clubman of this city.

Lady Jenner was divorced from Murphy in 1895 and the money that is the object of the suit, she alleges, is due her as alimony from November 18, 1908. Murphy's brother, Daniel T. Murphy, also named as a defendant, the allegation having been made in the suit that he conspired with his brother to avoid payment of the alimony by a realty transfer to which both were parties.

The present suit of Lady Jenner is the second brought against Murphy in two years. The first litigation resulted in a judgment against the Murphys by the appellate court for \$9,000. The new suit is filed to compel the payment of the same plus the accruing alimony.

Both the Murphys are well known in London and Paris. A sister, Theresa, is the wife of Sir Charles Michael Wolseley, of the British peerage.

Ask Fred Kurtz—

The countenance of big, happy Fred Kurtz was like a full moon when he appeared on the streets yesterday with the news that he was now a dad to a 12-pound boy, who is the perfect picture of manhood already and is beginning to grin "shut like his fadder." Mrs. Kurtz is doing nicely and her pride in the youngster is unbounded. Such occasions are usually the happiest times of a wife and husband, but one to appreciate this fact would have to talk with Fred a little.

A REGULAR BROKEN LEG CARNIVAL

Doctor Called to Set One, Finds Two More Cases by the Roadside.

(United Press Leased Wire.)

Point Arena, Cal., July 16.—A carnival of broke legs holds painful riot in this vicinity today. Dr. A. D. Pitts, while going to set the broken leg of B. Overton, near this place, fell from his buggy and so injured his own leg that he was unable to move and was found several hours later by Dr. F. Biddle, who had been called to dress the broken limb of an unknown man who had been injured in an accident some distance from the town.

r. Biddle found his fellow physician's leg to be severely injured and took him to town in his automobile. Returning to make his call he found Mrs. H. Hirsch lying by the roadside near the spot where he had found Dr. Pitts. Mrs. Hirsch's horse had become frightened by an automobile and she had been thrown to the ground, sustaining a severe fracture of the right limb.

After conveying Mrs. Hirsch to a nearby farmhouse and dressing the injury, Biddle hurried to his patient, whom he found had died during the afternoon. Returning to

Folger's Golden Gate Coffee

Always uniform—our best product—sold in 1 lb., 2 lb., 2 1/2 lb. and 5 lb. cans. Your grocer will grind it—better if ground at home—not too fine.

Point Arena he stopped at the Overton home and did the work for which Dr. Pitts had been called.

WILL BUILD ROAD ALONG THE COAST

Bandon, Or., July 16.—A corporation has been formed, an engineer employed and survey work started. The incorporators are Stephen Gallir, C. A. Jamison, R. H. Ross, Stephen Henderson and Elbert Dyer. The proposed line is to run from Bandon to Port Orford, 32 miles down the coast, and will serve as an excellent feeder for Bandon, as all the business that can be secured down the coast will all go through this port.

The line will tap the Bishop-Dollar Lumber Company's immense tract of white cedar timber, also that of the C. A. Smith Lumber Company in Curry county, making several billion feet of timber within a few miles of the proposed route. The company has employed M. E. Hughes, formerly with the Great Northern, as chief engineer. Mr. Hughes arrived here Monday noon and began the survey Tuesday morning. The promoters are very much encouraged, as they are finding a much better grade than had even been anticipated, as there will not be over a one-half per cent grade.

Besides the lumber district, the road runs through one of the best fruit and dairy districts of southwestern Oregon, thus insuring the financial success of the road from the outset. The company has assurance of plenty of financial backing.

BOYS FACE CHARGE OF ASSAULT TO MURDER

(United Press Leased Wire.)

Guerneville, Cal., July 16.—Four boys, said to be students of the Oakland high school, are under arrest in this city, charged with assault to murder. The boys are Grover Peterson, Harold Dow and Richard and William Dunne.

The alleged assault on which the charge was based was made upon Harold McLane, 23 years of age, of this city. C. A. McLane, the boy's father, claimed that the quartette was heard to make threats upon the life of his son.

An assault alleged to have been offered by young McLane to a young girl school mate of the Oakland boys is said to have been the cause of the affair. The boys intended to throw McLane into the Russian river, but when they found him a free-for-all fight ensued, during which McLane was severely beaten.

When We Put Up Our Sign inscribed "High class sanitary plumbing" it meant exactly what it said. Nickel pipes, marble basins or porcelain tubs do not of themselves make sanitary plumbing. It is how they are put in that makes for health and comfort. Have us do your plumbing and it will be the real sanitary kind, not a mere trade name for ordinary work.
