

WILLING TO HELP FIGHT FIRE

Japanese and Italian Battleships Send Marines on Shore to Help Fight 'Frisco Fire.

[UNITED PRESS LEASED WIRE.]
San Francisco, Oct. 15.—Marines from the Italian cruiser Calabria and the Japanese, cruiser Idzumo were rushed ashore last night fully prepared to assist in extinguishing a spectacular fire which started in the Crown ore mill, near the water front, and from the vessels appeared to be threatening the city with a second conflagration.

Their assistance, however, was not needed, so the sailors stood by and watched 150 firemen fight the stubborn flames, which did damage aggregating \$100,000 before they were subdued. Seven firemen were slightly injured during the progress of the fire. The fire spread from the mill to the Friedman warehouse, at 47 Brannan street, where the chief damage was done. The warehouse was stored with furniture and a chair valued at \$5 was the only thing saved from destruction.

The landing party from the Calabria was made up of forty men. They reported at the Southern police station, where the officer in charge stated that the sailors had come to assist in fighting the fire, which, from the cruiser, appeared to be threatening San Francisco. They were thanked and were preparing to retire when a landing party, ordered ashore by the captain of the Idzumo, came trotting up to the station prepared to turn to and fight fire. The Japanese party was made up of fifty marines, including a lantern bearer and a color bearer. They brought along a hand pumping hose truck.

WONDERFUL STRIKE IN FREELAND

Crosscut Strikes Ledge on Five Spot Vein, Cutting Into a Vast Body of High Grade Ore.

The much-talked-of "Five Spot" ledge of the Freeland mine, in the Santiam district, has at last been struck at great depth by the crosscut tunnel they have been running for years, at an expense of about \$20 per foot.

The expenditure by the management seems abundantly justified. They have just struck a marvelously rich body of ore, carrying higher values in gold and silver than any so far exposed. Their ledge has a magnificent outcrop, running 3000 feet along the side of the hill, and wherever opened has shown fine values. The new strike is made hundreds of feet under this outcrop, and establishes beyond a doubt the great depth and values of this enormous body of ore.

A rough estimate, based on the five feet of ore so far penetrated, (and they probably have ten feet more to run in ore before reaching the opposite wall) would give an estimated value of \$1,000,000 for the body of ore which their strike proves this ledge to contain, beyond a reasonable doubt.

Beyond a doubt the Freeland is now a great mine, and should raise sufficient funds to be ready for the smelter in a few months.

By all odds this is, to expert mining men, the most conclusive piece of good news out of the Santiam district.

Japanese Bank Closes.
Sacramento, Cal., Oct. 14.—The Japanese bank of Sacramento closed its doors at 9 o'clock this morning on orders from State Bank Examiner Alden Anderson, who came up from San Francisco last night. Anderson had been abroad for several days that the bank was in bad shape, and yesterday there was a mill run on the institution.

Mr. Anderson had notified the bank to get its affairs into better shape and then make a showing in securities, but the bank failed to respond. Doubtful loans is the cause of the trouble.

Deafness Cannot Be Cured.
By local applications, as they cannot reach the distended portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition hearing will be destroyed forever; nine out of ten cases are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free.

To maintain health, a mature man or woman needs just enough food to repair the waste and supply energy and body heat. The habitual consumption of more food than is necessary for these purposes is the prime cause of stomach troubles, rheumatism and disorders of the kidneys. If troubled with indigestion, revise your diet, let reason and not appetite control, and take a few doses of Chamberlain's Stomach and Liver Tablets, and you will soon be all right again.
