GRAND JURY MAKES ITS FINAL REPORT

IS HOWEVER ASKED TO EXAMINE BOOKS OF OFFICERS, AND ALSO TO EXAMINE INTO CHARGES SUBMITTED BY BANKER BUSH.

Three untrue bills and six true bills. That was the report submitted to Judge Galloway by the grand jury this morning, which has been in session for the past week. After an exhaustive examination of the bills returned Judge Galloway directed Deputy Clerk Allen to enter an order discharging from custody the parties in whose favor untrue bills had been returned, and, upon request of Deputy District Attorney Winslow, bench warrants were issued for those against whom true bills were found, and also the amount of the bail bonds was fixed.

The jury was then asked if there was any further work to come before it, and the judge, on being advised that the county officials had asked it to examine the court house and the offices and make a report upon them, directed them to do so.

While engaged in this work A. N. Bush, of the Banking firm of Ladd & Bush, appeared before Deputy District Attorney Winslow and requested to have a case submitted before the jury, and the jury went into consideration of it. As to just what is the character of the charge preferred, and the party involved, could not be learned, but it is said to be a case of forgery.

Schnylemann Vindicated. One of the parties in favor of whom an untrue bill was returned was John Schnylemann, a representative of the Clark's Wireless Company. The charge against Schnylemann was preferred by Fred Stewart, a representative of the United Wireless, and was that of criminal libel, alleged to consist in the publication in the Oregon Journal of an article of a character which was damaging to the United Wireless Company.

An untrue bill was also returned in favor of Mel Hamilton, owner of the Court saloon, and Frank Collins. The charge against them was that of selling intoxicating liquors to a minor by the name of Raleigh Coffey.

The third untrue bill was in favor of A. R. Edgar, who was charged by John Reynolds with being guilty of malicious mischief, alleged to consist in the killing of a dog belonging to Reynolds.

Indictment Kept Secret. None of the six indictments returned were made public, as none of the parties against whom they were returned are in custody, and it is the desire of the district attorney and the officials of the sheriff's office that the names of the parties involved remain secret until they could be apprehended.

It is understood that one of the indictments is for the crime of obtaining money under false pretenses, and that the case is of some importance, it is said, is indicated by the fact that Judge Galloway saw fit to place the bond at \$1000.

Another indictment is said to be for assault and battery; another for violation of the state pharmacy laws, and the party indicted is said to be a resident of this city; another for violation of the local option law, and the party against whom it is preferred a resident of Silverton. Just what the character of the others is could not be learned, but it is understood that they are for violation of the state insurance laws.

Two Prisoners Arraigned. Two prisoners were arraigned this morning before Judge Galloway and assigned counsel, and tomorrow at 1 o'clock in the afternoon set as the time for them to plead to the indictments. The first to be arraigned was Charles Amidon, who is charged with burglary in the day time. His offense is alleged to consist in entering the home of May Perry with intent to commit a felony therein. Amidon is a young man—probably about 35 years of age. Wm. P. Lord, Jr., was appointed by the court to defend him.

Scared as Easily as England. [UNITED PRESS LEASED WIRE.] San Francisco, April 1.—When William McAndrews, a visitor at one of the leading hotels here, became the target for a bottle of catsup in the course of a row in a local restaurant today, he rushed excitedly to the street yelling that he was bleeding to death. "Oh, I know I'm dying!" he cried, as an officer grabbed him. Finally McAndrews was quieted and hurried to the Central Emergency hospital. While the doctors wiped the catsup from his face and head, he assured the physicians that his head was broken open. Investigation however disclosed only a slight bump on his cranium, and the only blood found was that which originally filled the skin of various ripe tomatoes.

Wolter Pleads Not Guilty. [UNITED PRESS LEASED WIRE.] New York, April 1.—Albert Wolter today was arraigned on the charge of murdering Ruth Wheeler, the girl whose mutilated body was found in his room. He pleaded not guilty and was returned to the Toms. It is expected that his trial will be called April 11, although the date has not yet been definitely decided upon.

Attorneys for the defense refused to divulge what the defense would be, and would not comment on it further than to say it would be "interesting."

RUSSIANS MUST WORK OR GO BACK [UNITED PRESS LEASED WIRE.] Honolulu, April 1.—The crisis is at hand as regards the immigration of Russians to Hawaii. Within the next few days it will be definitely decided whether the campaign to secure Russian immigrants for the Hawaiian sugar plantations, from Manchuria, will continue or cease. A committee composed of newly arrived Russians is investigating the plantations in Oahu. They will make a report to their countrymen. If they then decide to go to work there, no action will be taken, to deport them. Later if they prove to be good workmen it is probable that the importations from Manchuria, now at a standstill, will be continued.

DISCOVERS ANOTHER BAD VIRUS [UNITED PRESS LEASED WIRE.] Ann Arbor, Mich., April 1.—Dr. Frederick Novy, of the University of Michigan medical department, officially announced that he had discovered a new virus which is so deadly that infection from a solution diluted to one-billionth part is certain to cause death from fever. He asserts that the virus produces a fever which has never before been discovered.

He discovered the virus while experimenting on a number of rats in his laboratory. He has experimented with the virus for several months. One culture was kept chilled on ice for two months. A rat was then inoculated with the poison, and its subsequent death proved that the virus was as deadly as when first subjected to refrigeration.

To Make Island's World's Resort. Honolulu, April 1.—Hotel and business men of Hawaii are contemplating a movement to make the islands one of the world's big winter resorts.

The matter has been up for discussion before the chamber of commerce and, although no particular plan has been decided upon, it is certain that a campaign will soon be launched to carry such a scheme to a conclusion. A proposition to inaugurate a steamship service between Los Angeles and Honolulu, during the tourist season, is among the plans which are under consideration.

Judges Change Bases. Judge Galloway adjourned court this afternoon at 4 o'clock and departed for McMinnville where he will complete a term of the circuit court which Judge Burnett has been holding.

Judge Burnett will arrive in the city this evening and convene court here in the morning at 9 o'clock. The first matters to be heard will be the pleas of the defendants in two criminal cases and then he will take up the matter of hearing motions and demurrers and setting cases for the regular session which commences Monday morning.

DOCTOR WAS LOVER OF MRS. SAYLER

SO DECLARES WITNESS WILLIAM CLASSEN, AND THIS IS ALLEGED TO BE THE CAUSE OF THE QUARREL THAT COST SAYLER HIS LIFE.

[UNITED PRESS LEASED WIRE.] Watseka, Ills., April 1.—The evidence in the Sayler murder trial today was such that before the court permitted the witnesses to testify bailiffs cleared the room of young boys and girls. Golda Sayler, daughter of the slain banker, was asked to retire to the witness room.

William Classen was put on the stand by the state. He lives next door to the office of Dr. William Miller. Miller, Mrs. Sayler and John Granden, her father are accused of killing Sayler. Classen testified that Mrs. Sayler entered Dr. Miller's office alone at all hours of the day and night. He said she frequently visited the office alone at night.

He entered Dr. Miller's office one night and found the doctor and Mrs. Sayler alone together. Classen's story was introduced by the state in support of the theory advanced by the prosecution that Sayler had objected to Mrs. Sayler's meeting Dr. Miller, because he had heard gossip concerning their friendship and that Dr. Miller had killed Sayler in a quarrel over the relations between Miller and Mrs. Sayler. A big crowd filled the courtroom to listen to today's evidence.

'WELL BEHAVED VOLCANO', SAYS BOB BURDETTE

[UNITED PRESS LEASED WIRE.] Honolulu, April 1.—Rev. Robert J. Burdette, the famous "preacher humorist," who arrived here recently from Los Angeles, declared today that the volcano Kilauea, which he visited, "is the best behaved volcano" he ever saw in captivity. "It receives in a low-neck," said he, "and the approaches are so clean that gentlemen wear their evening clothes when they call. "Other craters I have met, have been cinderous and ashy of approach. Kilauea permits anyone who brings his nerve with him to sit on the rim and let his feet hang over."

Gives Divorce to Wife. Judge Galloway this afternoon awarded a decree of divorce to Mable Claggett, from Thomas Claggett. The plaintiff testified they were married in this city in October, 1906, and that in January, 1907, while they were living at Everett, Wash., he deserted her. She was unable to give any reason for his desertion. She was corroborated in her testimony by her father and another witness. She asked her maiden name Mable Patterson, be restored, and this request was granted her by the court. Her parents reside at Gervais.

Lair was arrested and tried in Chicago. He was sentenced to prison by Judge Landis. Lair was convicted of importing Marie Peuroy from France. It was charged that he sold her in Chicago.
