

LOOKING FOR RIGHT BUT NOT THE WORK

[UNITED PRESS LEASED WIRE.]
 Sacramento, Cal., Feb. 14.—Carle L. Browne, known all over California as the "labor knight," announced today that the proposed departure of an army of unemployed from San Francisco to Sacramento to petition the legislature to pass a "right to work" bill, has been postponed. The army was to march February 17. The new date fixed is March 2.

MEXICANS SHOOT THE BRITISH FLAG

[UNITED PRESS LEASED WIRE.]
 Mexico City, Feb. 14.—Bursting shells this afternoon ripped to ribbons the Union Jack over the British legation. Other shells damaged the walls. The legation was the center of fire from the Diaz guns for several minutes while the rebels sought to silence a federal battery posted nearby. The bombardment tore up the streets in the vicinity.

It is reported that General Diaz has ordered his men not to recognize the Red Cross or the White Cross, declaring that Madero's spies are using the flag.

A sensible woman doesn't waste much time on a man who is pretty.

ANOTHER CONTEMPT CASE ON THE TAPIS

[UNITED PRESS LEASED WIRE.]
 San Diego, Cal., Feb. 14.—District Attorney Uley and Deputy District Attorney McKee were called into the superior court today to hear what Judge Sloane had to say following bitter attacks made upon the court by them in published interviews after Hubert Lewis, accused of the murder of C. H. Toliver, had been acquitted on the ground of insanity in Judge Sloane's court.

Judge Sloane said he had not determined whether the attacks were in contempt, but said he would look up the matter, and if they came under the category would "certainly proceed further."

Uley and McKee made no reply, but walked silently from the room.

Taft Vetoes It

[UNITED PRESS LEASED WIRE.]
 Washington, Feb. 14.—President Taft today vetoed the Burnett-Dillingham immigration bill, stating in a special message to the senate that his reasons for doing so were based upon protests from various foreign governments.

Approves Gambling

Boise, Idaho, Feb. 14.—The state senate today gave its approval to race track gambling, when it voted to kill a prohibitory bill.

Resolutions were simultaneously introduced in both houses of the legislature providing for the recall of all state officers.

POWELL CLAYTON, VETERAN IN G. O. P. COUNCILS.

THE recent resignation of General Powell Clayton as member of the Republican national committee from Arkansas recalls his long record in the service of the Republican party. He has represented Arkansas on the committee almost continuously since 1872. Right after the civil war, through which he served with distinction, rising to brigadier general, he bought a plantation near Pine Bluff, Ark., and then plunged into engineering and politics. He was governor of the state from 1868 to 1871 and United States senator from 1871 to 1877. He was American ambassador to Mexico from 1897 to 1905. General Clayton, in resigning, said he expected to forsake Arkansas for the District of Columbia.

Loss of Life Less

[UNITED PRESS LEASED WIRE.]
 Mexico City, Feb. 14.—Up to noon today it was believed there was less loss of life than in yesterday's clash, although the early morning fatalities were heavy. The Madero batteries, after a short but brisk cannonade, began reserving their fire. This led to the belief that Madero's supply of ammunition is low. Diaz is not wasting his ammunition, but is making every shot count.

For Murdering Wife

[UNITED PRESS LEASED WIRE.]
 Washington, Feb. 14.—Convicted of wife murder, Samuel Rauen, the first man to be hanged in the District of Columbia during Taft's administration, was executed today. The president refused to interfere.

The Sweet Thing

"This piece of lace on my dress is over 50 years old."
 "It's beautiful. Did you make it yourself?"

NOTES ALONG LINE OF NEW SPRING CLOTHES

RICH materials are used in many of the most elegant suits for spring. Moreover, an advance is noted in the elaborateness of these garments. On the very rich fabrics lace and lingerie collars and cuffs may be seen. Handsome embroideries in silk or silk and wool are used also for collars, cuffs and revers. At present Bulgarian embroideries have the preference. Crepe meteor, faille, silk poplin and charmeuse are among the materials featured for spring tailored suits. Novel effects are seen in broadens.

The skirts almost all show some draping. Usually it consists of a low drapey caught into the front or back panel.

The cutaway coat is the favorite model. All varieties of cutaways are seen. Some of them are so abruptly cut off as to give the appearance of an Eton coat in front. Russian blouse coats are new and attractive styles. They have a tendency to elongate the waist line. The straight Chinese coats are novelties.

Square collars, cut off at the shoulder line, are seen on many of the new coats. Narrow revers or draped ones are shown. Collarless coats are being introduced, but as yet sparingly.

Sleeves of some suits are cut off in three-quarter length, so that the long sleeves of the blouse show and suggest lingerie undersleeves. In some cases the long coat sleeves are cut with a flare at the wrist.

In the simpler suits serges, silk poplin and worsteds are popular. For later wear ratines in plain and broadened effects are to be exploited.

The illustration shows a spring suit in dark blue serge with the sailor collar and cuffs outlined with white satin. The coat is one of the extreme cutaway models.

A new note that is being exploited where sleeves are concerned is having the seam on the top of the arm, and at the turn of the elbow a certain amount of fullness is introduced to six inches above the wrist, when the sleeve becomes absolutely tight fitting again and is finished with a cuff of velvet or satin.

The true coat sleeve is carrying all before it for those who wish to have a costume that will remain undated. It is quite long and is sometimes finished with a piping of white pique to suggest a linen cuff. A stock tie and pipe waistcoat are usually seen in alliance with it.

Much use is being made of braided buttons, which are akin to the crocheted buttons that have been worn lately. All sorts of patterns are contrived through the intricate crossing and re-crossing of the strands, and there is an equal variety in the shape.

Much use is being made of braided buttons, which are akin to the crocheted buttons that have been worn lately. All sorts of patterns are contrived through the intricate crossing and re-crossing of the strands, and there is an equal variety in the shape.

CULINARY HINTS

- Don't put simple milk puddings in a very hot oven or the milk will curdle.
- To crisp celery let it lie in ice water two hours before serving.
- With the salad serve salted wafers which have been buttered, sprinkled with paprika and Parmesan cheese and browned in the oven.
- To make bananas perfectly digestible bake them on a grid in a hot oven for fifteen minutes.
- Fat for frying should be boiling before the article to be fried is dropped into it.
- When making fudge or molasses candy if the dish is greased a little below the rim the candy will not boil over.
- Instead of balls of butter, cubes with fluted edges are a pleasant change.

Mending Zinc Pails

To mend a zinc pail take some putty, put a small piece on the inside and a large piece on the outside of the pail over the hole. Press well together and place in the open air until perfectly dry. The pail will then hold water just as when new. Enamel bowls and basins can be mended in the same way.

ASYLUM APPROPRIATIONS

WILL TOTAL \$884,882

The house ways and means committee has recommended an appropriation of \$614,053 for the maintenance of the state insane asylum, and that the eastern Oregon asylum be given \$270,829 for the same purpose.

OLD FOLKS FIND NEW REMEDY RELIEVES ALL KIDNEY AND BLADDER MISERIES

DRIVES RHEUMATIC PAINS AWAY, RELIEVES BACKACHE AND BLADDER DISORDERS AFTER A FEW DOSES ARE TAKEN.

Sleep disturbing bladder weaknesses, backache, rheumatism, and the many other kindred ailments which so commonly come with declining years, need no longer be a source of dread and misery to those who are past the middle age of life.

The new discovery, Croxone cures all such disorders because it removes the very cause of the trouble. It soaks right into the kidneys, through the walls and linings cleans out the little filtering glands and cells, and gives the kidneys new strength to do their work properly. It neutralizes and dissolves the poisonous uric acid substances that lodge in the joints and muscles, causing rheumatism; and makes the kidneys filter and sift out all the poisonous waste matter from

the blood and drive it out of the system. It matters not how old you are or how long you have suffered, Croxone is so prepared that it is practically impossible to take it into the human system without results. You will find it different from all other remedies. There is nothing else on earth like it. It starts to work immediately and more than a few doses are seldom required to relieve even the most chronic, obstinate case.

It is the most wonderful remedy ever made for restoring the lifeless organs to health and strength and ridding the system of every particle of uric acid, and you can take it with the utmost confidence that nothing on earth will so quickly cure such conditions.

FIREMEN WILL GET ORDERS TO STRIKE

[UNITED PRESS LEASED WIRE.]
 New York, Feb. 14.—Thirty-five thousand firemen employed on Eastern railroads will receive tonight a printed order to strike if the companies do not grant the demands of the firemen's brotherhood before Sunday night. The walkout will become effective at a certain hour Sunday night, if the demands are not met, the firemen leaving their trains at the first stopping point reached after the time limit expires.

The efforts of Judge Knapp and Labor Commissioner Neill to mediate the strike have failed. After a conference with both factions Neill admitted that the strike was imminent. He said the dispute had reached a much more crucial stage than the locomotive engineer's dispute last year.

Presidents C. W. Browne, of the New York Central; Underwood, of the Erie, and Willard, of the Baltimore & Ohio, held a hurried conference at the Manhattan hotel this afternoon to devise means of averting the big tie-up the strike would entail.

Are Exact Duplicates

With the exception of the distinction of age and the presence of grey hairs, J. C. Moreland, the obliging clerk of the supreme court, is the proud father of a son who is his double in every way. He is Harvey A. Moreland, of Portland, and a candidate for county commissioner of Multnomah county. The son has the same humorous lines about the eyes as his father, and his action of speech and laughter corresponds identically with the supreme court clerk. Harvey even smokes a

cigar in the same manner as does Judge Moreland, and enjoys the weed apparently with an equal amount of pleasure. Harvey Moreland is the eldest son of the family, and the pleasing manner in which he meets new friends and greets the old-timers will probably land him in office.

Saturday Specials

I will sell shoes for men, women and children at reduced prices Saturday, in order to raise a required amount of cash. I am in need of Great bargains in women's and children's shoes. Don't fail to see these if in need of footwear.

JACOB VOGT
 220 N. Com. St. Salem, Ore.

THOMAS F. CONWAY, HE IS ALSO "TALKED OF."

SO many prominent men from William J. Bryan down have already been placed in Woodrow Wilson's cabinet that it would take a special multiplication table to figure out the number of occupants. But this doesn't matter. So long as the president elect maintains his discreet silence one man is as good as another, even if Mr. Bryan is "positively" the next secretary of state. All this bears directly, if you please, upon Thomas F. Conway, former lieutenant governor of New York state. He was recently endorsed by well known New York Democrats and by United States Senator O'Gorman for United States attorney general. A delegation, headed by State Senator Roosevelt, urged Governor Wilson to appoint him. No one knows except Governor Wilson whether Mr. Conway will remain in private life or be thrust into the activities of Uncle Sam's legal watchdog.

Adrianople Burning

[UNITED PRESS LEASED WIRE.]
 Sofia, Feb. 14.—Adrianople is in flames and probably will be totally destroyed, according to official reports received here today by the Bulgarian war department. Fired by the Bulgarian shells the Turkish holy city broke into a blaze last night, and despite the efforts of the commandant, Shukri Pasha, to restrain them, many of the Turkish troops have fled from the city. The bombardment continues tonight. Bulgarian officers here predict that unless the Turkish defenders speedily surrender, the whole of the city will be leveled to the ground.

Women Guard Him

Oakland, Cal., Feb. 14.—Women with Bibles in their hands formed a phalanx around J. C. Westenberg, a mission worker, at his trial in the police court here today on a charge of giving an entertainment without a license in lecturing in a moving picture house on Oakland's vice section.

Westenberg claims that he was arrested through spite by Chief Peterson, whose administration he criticized.

Slow. (Judge.)
 "They were divorced within six months after their wedding."
 "Hm!" returned the pessimistic bachelor. "What detained them?"

For Killing His Uncle

[UNITED PRESS LEASED WIRE.]
 Salem, Mass., Feb. 14.—William A. Dorr, of Stockton, Cal., who pleaded not guilty to the charge of murdering his uncle, George E. Marsh, a millionaire, of this place, will be put on trial Monday.

Dorr was arrested in California two weeks after his uncle's body was found here.

The Opium Got Them

[UNITED PRESS LEASED WIRE.]
 San Francisco, Feb. 14.—Supposed they choked to death by smoke from the smoldering wood around an overheated gas grate, while helpless from an opium debauch, the bodies of Richard Lebold and his wife were found in their apartments here early today. The opium outfit was found nearby.

FRANK A. VANDERLIP, BANKER AND DIRECTOR.

WHEN Union Pacific was under the scrutiny of Attorney General Wickersham, following the recent United States supreme court decision, Frank A. Vanderlip of the board of directors was one of the principal figures in the negotiations with the government over the method of procedure under the court's order. Wall Street had its eyes on him. He was awake. For years his training as a New York banker gave him a keen insight into stock manipulation. So Mr. Vanderlip was able to cope with the stock situation involving the Southern Pacific. While negotiations were pending both Union and Southern Pacific made and unmade fortunes in the market. Mr. Vanderlip is connected with many financial and railroad boards.
