

WAR MAP OF EUROPE, SHOWING STRENGTH OF ARMIES

The fighting strength of the principal European nations in time of war totals nearly 20,000,000. On one side, favoring Serbia, is the triple entente, consisting of England, Russia and France, and on the other side, supporting Austria, is the triple alliance—namely, Germany, Italy and Austria itself.

CARROLL DECLARED GUILTY OF MURDER

Jury Classes It As Murder in Second Degree—Tried the Third Time for the Killing of Gervais City Marshal.

The jury in the Carroll case returned a verdict of guilty of murder in the second degree at a little before 6 o'clock last night after deliberating about 5 hours.

Carroll was accused of the murder of John Zoller, city marshal of Gervais on December 4 of last year. The verdict came as a surprise to many of the spectators of the court room who have watched the case from the first trial during the April term of court.

In Jail Since December. Carroll has been in the county jail since December 5 the day after the shooting when he wandered into the police station in this city seeking medical aid for a bullet wound in his shoulder. He was dressed as a hobo but appeared to be a working man.

WHAT TO READ TO CHILDREN.

It is in appreciation of the problem of the parents and friends of those children who enjoy having stories read to them that this suggestive list is made. They are chosen from the books at the public library adapted to the interests of children under 10 years.

SHIPS ORDERED TO RETURN TO PORTS

New York, Aug. 1.—Four North German liners which had sailed from United States and Canadian ports for Europe were overhauled by wireless today and ordered to return to await instructions from the German government, which was expected to impress them for naval use.

Of the four ships, the Wilkes, which sailed from Montreal, was ordered into Boston harbor; the Friederich Der Grosse which sailed from Baltimore Wednesday, back to the same port; the Neckar, which sailed also on Wednesday, from Galveston into Baltimore harbor, and the Grosser Kurfurst, which sailed from New York Thursday, back to New York.

TWO ARE DEAD FROM PDMOAN POISONING

Los Angeles, Cal., Aug. 1.—Mrs. Emma De Ford of San Diego and Eugene J. Lattig of Los Angeles are dead today as the result of ptomaine poisoning following a dinner at the home of Mrs. J. C. Cunningham of Venice. There were several other guests at the dinner, but none of them was made ill. Physicians believe the poison was communicated by Nougat cheese.

There is lots of false economy in this world. A woman will waste five dollars worth of time saving ten cents worth of string.

THE ROUND-UP

Knowles was heard from again Thursday. The learned professor from Berkeley who is herding him says he reports having sore feet. This is indeed startling.

A hundred men went out from Hood River Wednesday to fight forest fire in Neal creek canyon that was threatening the Hicks sawmill.

While their home was burning like tinder and the room was enveloped in flames, Miss Lucille Denny, 20, with her mother, dashed into the building and rescued her father, J. B. Denny, a paralytic, at 1 o'clock this morning.

Because he attempted to "take" the town while armed with a gallon of "mail-order" booze, Jack Mattson, of Drain, was taken to Roseburg to serve a term of 30 days in jail. Mattson was overpowered after a struggle, but it was necessary to send to Roseburg for handcuffs before he could be taken there for safe keeping.

The Herald says that with Baker factories working overtime there isn't much sign of hard times thereabout.

There are in Lane county more than 150 applications for positions in the schools in excess of the number of places to be filled.

Gresham Outlook: "Come seben, come eben," was the slogan last Sunday. The colored Giant pitcher wore a figure "7" on his back; the ditto catcher wore "11." But they didn't win.

There is to be erected at Wealding a new one-room schoolhouse, 28 by 44 feet, which will have a wide porch on three sides, for the primary children. The contract for this entire structure was taken at \$960.

It is predicted that 50 per cent of the inhabitants of Hammond will enroll on the charter list of the proposed commercial club, when a big booster meeting will be held to start the campaign for new industries and a general plan of town improvement.

That not all fishermen's lies are untrue, is the theory of the Roseburg News, which says: "Were the News to mention the names of all those Roseburg people who spent Sunday fishing at Rock creek and Money creek, the article would be a column long. And were it to tell the stories that each one has told, a paper twice the size of the News would be required. And they all caught all they said they caught."

SIMPLE HOME REMEDY FOR WRINKLED FACES

Thousands are spending fortunes in frantic efforts to remove the signs of premature age from their faces. Such women willingly pay almost any amount of money for worthless wrinkle removers, of which there are many. If they only knew it, the most effective remedy imaginable is a simple, harmless face wash which can be made up at home in less than a minute. They have only to get an ounce of powdered squalite and half a pint of witch hazel at the drug store and mix the two. Apply this daily as a refreshing lotion. The effect is almost magical. Even after the first treatment a marked improvement is noticed and the face has a snug, firm feeling that is most pleasing.

PRESIDENT WILSON TO MEET WESTERN TRAINMEN

Washington, Aug. 1.—President Wilson was scheduled to meet with representatives of western railroads and trainmen here at 5 o'clock this afternoon in an effort to avert the threatened strike of engineers and firemen. He was expected to urge both sides to make concessions.

BUG EXTERMINATOR DRAWS BIG CUSTOM

Schappert's Dope Proves to Have the Drawing Powers of a Cocktail—The Bugs All Get to It.

A reward of the best cigar in the shop will be given by H. C. Schappert to anyone furnishing definite information that will lead to the capture or extermination of sundry flying bugs that infest the Paterson cigar store, being attracted by the bright light at the entrance. Schappert has been making quiet inquiries for several days past and has been advised to use everything from Bordeaux mixture to nitro-glycerine. One man told him to get an atomizer and spray the bugs with equal parts of oil of sassafras and chloroform.

Schappert went to the drug store and told the clerk what drugs he wanted, and added the remark: "I'll bet a cookie I won't be disturbed tonight." The drug clerk is a family man and knows the nature of the usual night disturber, and being well aware that the mixture called for would produce a permanent sleep for the child, sought to dilute the dose, and soaking the label from a bottle of standard soothing syrup wrapped it up and gave it to Schappert.

The intrepid cigar clerk tried the mixture, and though the big ones flew away the small ones remained behind. Determined to be rid of all of them he was advised to try citronella, or oil of lemon, and alcohol, with a dash of Vermont and dash of wintergreen.

It proved to be a popular cocktail. After the odor of the first spray floated out upon the "dry" night air the bugs came in herds and droves. They were seen flying around the room in wobbly circles and hanging on Schappert's neck. They even refused to observe the closing law, and when Patterson came down to open up this morning he found a number of them sleeping on the showcase.
