

### NEW QUARTERS READY FOR STATE OFFICERS

Secretary Olcott Has Done a Splendid Piece of Work in Rearranging Capitol and Used Appropriation Well.

By the first of next week most of the state officers will be installed in their new offices that have been completed since the last legislature appropriated \$50,000 for remodeling the state capitol. Visitors who pass through the state capitol building say that Oregon's state house compares most favorably with those of the most of the other states and in many instances excels, especially in upkeep. Nine big rooms have been cut up into 47, and by moving the heating plant out into the capitol yard and moving the supreme court, the state library and printing department over into the supreme court annex, eight departments which were formerly housed in down-town offices are allowed room in the state house.

Not only has the state house been painted both outside and in, but all of the remodeling has been done on the \$50,000 appropriation and it is likely that \$4000 will be left for future improvements and new furnishings. The plans for the remodeling were prepared by State Architect Knighton. Secretary Olcott says it is a vast improvement over the former arrangement and one that will provide for the increase of the business of the state for years to come. The legislators at the next session will find they have about 20 office rooms for the use of the committees and it will not be necessary to meet in the corners of rooms occupied by the state officers.

The secretary of state's offices will occupy the west half of the north wing of the first floor. This space was formerly occupied by the state printing plant. There is at the disposal of this force one large room and four smaller offices and two more for the automobile department. Across the hall in the east half of this wing will be the offices of the state treasurer. This room was formerly used to house the heating plant and the labor commissioner. In the basement the state treasurer has one store room and the secretary of state four for the storing of documents and such. Both of these departments are equipped with vaults.

Two rooms have been added for the use of the insurance commissioner and the state accounting department now in Portland will be moved to this city. The mailing room has been rearranged for the department of weights and measures. One room formerly used as a store room has been added to the department of the superintendent of public instruction. This room, together with the two rooms now occupied by the Board of Control and the room to be used by the water commission, were made out of the rooms formerly used by the state railroad commission. A small hall which led to the stairway to the second floor has been converted into a ladies' rest and toilet room.

The rooms on the second floor now in use by the secretary of state will be occupied by the corporation commission. The state treasurer's office will be occupied by the tax commission. The room from which the tax commission recently moved will be used by the secretary of the State Fair board. The rooms at the north end of the senate chamber will be vacated for the uses of the senate during the coming session and after that one will be donated to the uses of press, and the room now in use by the corporation commission will probably pass as a heritage to the state architect.

On the third floor the old supreme court library room has been cut into 16 smaller rooms to be used as committee rooms by the legislators. Also a hearing room 30 feet square, for the uses of the different commissions, has been provided. The rooms formerly used by the supreme court have been remodeled and are now occupied by the state railroad commission. The state industrial accident commission took the three rooms used by the clerk of the supreme court. The rooms used by the justices of the supreme court and state librarian have been turned over to the labor commissioner, the fish and game commission, the state forester and the highway commission. The physician employed by the state industrial accident commission will soon occupy the room on this floor next to the fish and game commission.

There is still some linoleum to be laid on the new offices and some minor improvements to be made, and it is likely that most of next week will be "moving day," but all of the state officials, though each claims that he needs more room than he is getting, asserts that his new quarters are vastly better than the old ones and that the \$50,000 appropriation has been spread out over a multitude of improvements.

### Deafness Cannot Be Cured

by local applications, as they cannot reach the damaged portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a running second or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; since you are out of ear are caused by Catarrh, which is nothing but an inflamed condition of the mucous surface.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free.

### CALIFORNIA NAMES HER CANDIDATES

Results Are Somewhat of a Surprise, Especially the Winning of the Senatorial Nomination by Shortridge.

San Francisco, Aug. 27.—Hiram W. Johnson of San Francisco, Captain Jno. D. Fredericks of Los Angeles and John B. Curtin of Sonoma, Tuolumne county, will fight it out in the general election in November for the governorship of California. Although the returns from Tuesday's primary election continue to come in slowly, it seemed certain today that Curtin had won the Democratic nomination over Fred H. Hall of Bakerfield and Edward White of Watsonville. At 7:30 o'clock this morning returns from 1735 precincts out of a total of 4463 in California gave Curtin 13,845, Hall 10,984 and White 9092. It was generally believed here that Curtin would maintain his lead.

It seemed practically certain today that Congressman Joseph R. Knowland of Alameda had defeated Samuel Shortridge of San Francisco for the Republican nomination for senator. Latest returns show that 1729 precincts out of 4463 gave Knowland 35,150 and Shortridge 31,013. James D. Phelan of San Francisco won an easy victory over Thomas Griffin of Modesto for the Democratic nomination, and Francis J. Heney of San Francisco defeated Ches-

ter B. Rowell of Fresno for the Progressive nomination for senator by 2 votes to 1. Fredericks' campaign managers claimed today that final returns would show that the Los Angeles man defeated Francis V. Keeling, his closest competitor, by 20,000.

One of the most significant features of the primary was the strength shown by John Eshelman, a Progressive, who captured the Republican as well as the Progressive nomination for lieutenant governor. With the count not more than half completed, Fredericks so far has received 40,911 votes. Eshelman, running as a republican, received 37,034 Republican votes. He also has received 27,047 votes as the Progressive candidate for lieutenant governor.

Hiram W. Johnson, unopposed as the Progressive candidate for governor, so far has received 38,075 votes. In the congressional race Julius Kahn defeated Henry Colombat in the Fourth district for both the Republican and Democratic nominations. John I. Knowland captured the Democratic, Republican and Progressive nominations in the Fifth district. Indications at 10 a. m. today were that Wm. M. Conley and Frank M. Angelotti, had won places on the ballot for chief justice of the state supreme court, although Walter Bordwell of Los Angeles was running a close third. For the two associate supreme justiceships, Wm. P. Lawlor was leading, Lucien Shaw was second and John D. Murphy, third.

An Independent Leads. Los Angeles, Cal., Aug. 27.—Latest returns in Los Angeles county from

### NOTHING NEW FROM WAR AT COOS BAY

Marshfield, Ore., Aug. 27.—Although nothing indicating that a naval battle was in progress off Coos Bay was heard early today, verification of heavy firing yesterday afternoon apparently by warships reaching here from all along the southwest Oregon coast.

It was impossible to ascertain whether or not a naval engagement had taken place, and no wreckage was being washed ashore, but hundreds of citizens of this section, who heard the firing, were positive that it was that of cannon. The sea was overcast with fog today. If there were foreign war vessels in the offing, they could not be seen.

Tuesday's primary election indicated today an even greater lead in the south for John D. Fredericks, republican candidate for governor, than was shown by the earlier reports.

One of the surprises of the election here was that Thomas Lee Woolwine, independent, has taken the lead for district attorney of Los Angeles county over Jos W. Ford, republican nominee. Woolwine is showing remarkable strength in the outlying precincts and indications are that he will lead Ford by a good margin.

An extra force of clerks is at work at the office of the registrar of votes, which is literally flooded with election material.

The official tabulated count will commence today.

### RADIATORS TO INVADE SALEM

Eugene's Uniformed Club Will Make Junket to the Capital City During the State Fair.

Details of a junket trip to Salem, which will be made by the Eugene Radiators during the state fair, will be outlined at a meeting of the Radiators to be held at the Commercial club tomorrow night. Plans will also be made for attending the Lane county fair and invitations from several towns to attend festivities will be considered. Most important among these will be that from Pendleton to attend the "Round Up," and that from Walla Walla to attend the "Frontier Days."

A delegation of 40 or 50 is expected to attend the state fair at Salem, according to L. L. Lewis, president. Last year 26 men responded to the Cherrians invitation and this year a larger body will be sought.

It is also planned to make a good showing at the Lane county fair in Eugene next month, and details for this will be discussed.—Eugene Guard.

### RED CROSS DAY

Chicago, Aug. 26.—September 1 was designated as Red Cross day in the American baseball league by President Johnson today. On that date 25 per cent of the receipts of all games will be turned over to the American Red Cross society.

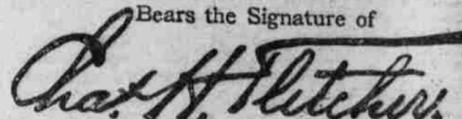

### Children Cry for Fletcher's CASTORIA

The Kind You Have Always Bought, and which has been in use for over 30 years, has borne the signature of Dr. J. C. Fletcher and has been made under his personal supervision since its infancy. Allow no one to deceive you in this. All Counterfeits, Imitations and "Just-as-good" are but experiments that trifle with and endanger the health of Infants and Children—Experience against Experiment.

### What is CASTORIA

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other Narcotic substance. Its age is its guarantee. It destroys Worms and allays Feverishness. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic, all Teething Troubles and Diarrhoea. It regulates the Stomach and Bowels, assimilates the Food, giving healthy and natural sleep. The Children's Panacea—The Mother's Friend.

### GENUINE CASTORIA ALWAYS Bears the Signature of

The Kind You Have Always Bought In Use For Over 30 Years

THE CENTAUR COMPANY, NEW YORK CITY.

## The Salem Garage Changes Ownership

The Geo. M. Reeves Garage, of Capitol and Union streets, has purchased the good will and business of the Salem Auto Garage, formerly operated by Chamberlain Bros., at 246 State street.

### E. A. PRUITT

The contractor, has purchased a half interest in the Salem Auto Garage with us, and is in charge as manager. You car owners are fortunate in having Mr. Pruitt's services offered to you in this connection. His reputation as a builder and as a man in this and Polk county guarantees GOOD SERVICE. Promises will be made only after due consideration, and when made will be carefully, punctiliously carried out. Mr. Pruitt will give his undivided personal care to every detail of this business.

### Storage of Cars for Professional Men

Will be a specialty here. The garage is close in, fire proof and has some one in it night and day. You'd best reserve your space soon and not take chances with the crowd which the rainy season will send here.

### Promptness and "Stay-Put" Work

You want your auto when you want it. We realize that, and shall constantly endeavor to cut down the time of repair work, and to help you to avoid those exasperating delays that so often occur, by doing our work in the best manner we know how—and only men with the "know how" will be allowed to work here.

## THE GEO. M. REEVES GARAGE

At Capitol and Union, we shall conduct exactly as heretofore, buying, selling or trading "second" autos and motorcycles. What do you need? What have you to trade? Our policy will remain one of paying a fair price for what we get, adding a little profit, and selling for less than real value. You are urged to investigate the big saving we offer you in comparison with the big profit (bonus) you'd have to pay the "new" dealer.

## THE SALEM AUTO GARAGE

Personally managed by that man Pruitt. 246 State Street. Phone 386

## THE GEO. M. REEVES GARAGE

Capitol at Union. Phone 971. Open Evenings. MONEY SAVERS TO WISE AUTO BUYERS.

### SPANISH POLITICIANS WOULD JOIN ALLIES

King Alfonso Opposes This and Would Maintain Strict Neutrality—His Advisers Think There Will be Much Spoil to Divide.

Madrid, Aug. 27.—Certain politicians at the Spanish court were trying hard today to create sentiment in favor of their country's participation, on the Anglo-Franco-Russian allies' side, in the pending war.

King Alfonso was said to oppose this strongly, insisting on the strictest neutrality. Many believed, however, that he would be overruled by men who believe there would be immense spoils to divide when the war ended, and want Spain to have its share.

Political radicals declared if this happened there certainly would be a revolution.

### PARIS EDITOR'S VIEW OF THE "YANKEE" HEN

Oregon Agricultural College, Corvallis, Ore., Aug. 27.—In one year the hen goes beyond all performance. It establishes the world's record of 291 eggs, and the Yankee specialists who declared about ten years ago that the laying of 200 eggs would be a fine ideal to reach now have the ambition of surpassing 300 in a year.

The foregoing is from an editorial in a French magazine, "Vie a la Campagne," which being translated means Life in the Country, of February 15, 1914. The edition containing it is a special poultry number and carries an illustration of the former O. A. C. champion hen whose world record stood but a few weeks before being broken by another Oregon Station hen. Concerning the lessons to be learned from the experiments of Professor Dryden and other poultry specialists the editor says that we know many more things about the laying hen than we did in 1905, "and we thus sum up our present day results."

"First the laying of a hen for a year may go up to 291 eggs. "Second, laying hens may be classified in three sections: First, extra layers with more than 250 eggs a year; second, very good layers with 200 to 250 a year; third, good layers with 150 to 200. Below 150 the production may be considered remunerative. "Third, hens give their maximum production the first year. "Fourth, intensive production lasts from four to five years. "Fifth, the total production of a hen

may go to 3000 eggs. Up to the present it is limited to 1382.

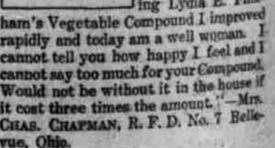

The French editor was highly delighted later to learn that a hen under the care of one of the Yankee specialists, Professor Dryden, had actually surpassed his 300-egg per hen limit by the margin of three eggs.

Married men are easily contented that they get all the punishment coming to them right here on earth.

### LOSING HOPE WOMAN VERY ILL

Finally Restored To Health By Lydia E. Pinkham's Vegetable Compound.

Bellevue, Ohio.—"I was in a terrible state before I took Lydia E. Pinkham's Vegetable Compound. My back ached until I thought it would break, I had pains all over me, nervous feelings and periodic troubles. I was very weak and run down and was losing hope of ever being well and strong. After taking Lydia E. Pinkham's Vegetable Compound I improved rapidly and today am a well woman. I cannot tell you how happy I feel and I cannot say too much for your Compound. Would not be without it in the house if it cost three times the amount."—Mrs. CHAS. CHAPMAN, R. F. D. No. 7 Bellevue, Ohio.

Woman's Precious Gift. The one which she should most zealously guard, is her health, but it is the one most often neglected, until some ailment peculiar to her sex has fastened itself upon her. When so affected such women may rely upon Lydia E. Pinkham's Vegetable Compound, a remedy that has been wonderfully successful in restoring health to suffering women. If you have the slightest doubt that Lydia E. Pinkham's Vegetable Compound will help you, write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass., for advice. Your letter will be opened, read and answered by a woman, and held in strict confidence.
