

GOLD DUST

—it actually works at hundreds of tasks daily

"Let the Gold Dust Twins do your work" is much more than a popular phrase. It is based on truth, an actuality, for Gold Dust really works.

The millions of women who use it for dishwashing and scrubbing know this. But Gold Dust should be used for cleaning and brightening everything. It is the only washing and cleaning powder needed in any home.

The small quantity required is quickly taken up by hot or cold, hard or soft water—forming a perfect cleaning solution. The valuable antiseptic cleaning agent it contains helps to make things sanitariously clean, as well as bright and new-looking.

SALEM MAN OFFERS DOLLARS FOR CHURCH ATTENDANCE JUNE 2

Jason Lee Memorial Church Receives Generous Proposition From Member

Frequently churches are spurred on in financial campaigns by an offer from some philanthropist to give dollar for dollar for some laudable enterprise but a Salem citizen has made an offer to the Jason Lee Memorial church to match dollar against attendance.

This (Wednesday) evening, June 2, is the last one of the series and every effort is being made to make it a record one. The Jason Lee congregation will welcome and appreciate a kindly visit from its friends throughout the city though the invitation is not intended, of course, to keep others from attending their own prayer-meeting in some other church.

The meeting this evening (Wednesday) is a departure from the regular date which is Thursday, but the change was necessary on account of the lecture at the First church on Thursday night. The hour of meeting is 7:15 or fifteen minutes early in order to accommodate those who may have other dates for 8 to 8:30.

WOMEN FROM 45 to 55 TESTIFY

To the Merit of Lydia E. Pinkham's Vegetable Compound during Change of Life.

Westbrook, Me.—"I was passing through the Change of Life and had pains in my back and side and was so weak I could hardly do my housework. I have taken Lydia E. Pinkham's Vegetable Compound and it has done me a lot of good. I will recommend your medicine to my friends and give you permission to publish my testimonial." — Mrs. LAWRENCE MARTIN, 12 King St., Westbrook, Maine.

Manston, Wis.—"At the Change of Life I suffered with pains in my back and limbs until I could not stand. I also had night-sweats so that the sheets would be wet. I tried other medicine but got no relief. After taking one bottle of Lydia E. Pinkham's Vegetable Compound I began to improve and I continued its use for six months. The pains left me, the night-sweats and hot flashes grew less, and in one year I was a different woman. I know I have to thank you for my continued good health ever since." — Mrs. M. J. BROWNELL, Manston, Wis.

The success of Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, is unparalleled in such cases. If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman, and held in strict confidence.

NORTH SALEM STORE IS BROKEN INTO AND ROBBED LAST NIGHT

Small Change in Register, Candy and Chewing Gum Is Extent of Loot

Some time last night, presumably about 11 o'clock, the grocery store of W. B. Potter, at the corner of Capital and Market streets, in North Salem, was broken into and robbed, about 75 cents or \$1 in change being taken from the cash register and some candy and chewing gum, being the only articles of value which the proprietor missed upon making an inventory this morning. Entrance to the building was gained by smashing a window on the north side of the building. A resident of the neighborhood, across the street from the store, heard a noise about 11 o'clock last night but he gave no further thought, thinking the noise had been caused by the machine. Clothing on the counters had also been disarranged and thrown about the store but, so far as Mr. Potter could ascertain, nothing of great value was taken.

It is evidently the work of boys, judging from the bunglesome nature of the job and the character of articles stolen, and Chief Welsh, was notified of the burglary this morning, is making an investigation.

Food and Water Problems both Solved by the Automatic Refrigerator

No refrigerator on earth keeps food fresher and finer tasting than the Automatic. As a plain food-keeping machine it deserves the consideration of every careful housewife.

In addition to this—you get in the Automatic the famous "built-in" water cooler—in a chamber by itself—which provides an abundance of safe, cold drinking water, perfectly protected against dust, impurities and food odors.

You will be interested in seeing the Automatic, even if you aren't ready to buy.

Buren & Hamilton HOUSE FURNISHERS

INSURANCE CONCERNS DO A GOOD BUSINESS IN STATE LAST YEAR

Small Margin of Profit Shown For Eleven Mutual Fire Insurance Companies

According to a statement given out by Insurance Commissioner Wells yesterday afternoon 51 casualty and other accident insurance companies in the state received a total of \$1,282,701.93 in premiums on insurance in this state during the year 1914 and paid out an aggregate of \$776,917.99 in losses, of which liability insurance companies alone paid out \$463,848.03 in losses, with net premiums of \$855,912.53.

The total premiums collected by the 51 companies on classes of insurance other than casualty amounted to \$819,923.15 and losses paid amounted to \$322,836.57. Three domestic life insurance companies had \$13,024,642 of insurance in force at the close of the year 1914, distributed among 635,535 policy holders, wrote \$3,523,161 in new insurance and terminated \$1,785,903. The net premiums collected less reinsurance in authorized companies amounted to \$415,862.76. Fifty foreign life insurance companies carried a total of \$11,144,899 in force in 1914, with net premiums of \$19,922,886 in new insurance. The insurance terminated amounted to \$1,809,509. Claims paid less reinsurance amounted to \$1,730,510.05, and premiums collected less reinsurance in authorized companies amounted to \$5,834,336.96. Foreign life insurance companies paid an aggregate of \$1,416,913.33 in premiums for taxation.

HEAVY MEAT EATERS HAVE SLOW KIDNEYS

Get Less Meat if You Feel Backache or Bladder Troubles You—Salt is Fine for Kidneys.

No man or woman who eats meat regularly can make a mistake by flushing the kidneys occasionally, says a well known authority. Meat forms uric acid which clogs the kidneys, they become overworked from the strain, get sluggish and fail to filter the waste and poisons from the blood, then we get sick. Nearly all rheumatism, headaches, liver trouble, nervousness, dizziness, sleeplessness and urinary disorders come from sluggish kidneys.

The moment you feel a dull ache in the kidneys or your back hurts or if the urine is cloudy, offensive, full of sediment, irregular of passage or attended by a sensation of stinging, stop eating meat and get about four ounces of Jad Salts from any pharmacy; take a tablespoonful in a glass of water before breakfast and in a few days your kidneys will act fine. This famous salt is made from the seed of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate the kidneys, also to neutralize the acids in urine so it no longer causes irritation, thus ending bladder weakness.

CROWDS ATTEND FEDERATION OF LABOR

Civics and Education Are Discussed At Morning Session of Convention

Portland, Or., June 2.—The White Temple auditorium was crowded today when the morning session of the General Federation of Women's Clubs was called to order by Mrs. Percy V. Pennybacker, president of the organization.

The two topics on which addresses were heard were civics and education. The civics department was presided over by Mrs. George Zimmerman of Ohio.

In giving a general view of civics, Mrs. J. C. Wilson of Wenatchee, Wash., pointed out the wonderful good done by training children in public sanitation, politics and civic righteousness. She recommended that all children be instructed in all of the big civic problems of the day.

In an address, which bristled with humorous anecdotes, Dr. Carter Helms, of Seattle, declared that the coordination of patriotism and politics was the route through which civic idealism would be reached. He pointed out that the greatest reforms were hatched in the minds of dreamers and prophets.

L. R. Alderman, city superintendent of schools of Portland, advocated the giving of school credits to children for work done at home, so that they may be better fitted to grapple with life's problems, after leaving institutions of learning.

Mrs. Frederick H. Cole, of Osnah, outlined the great need of civil service reform among office holders, declaring that a great economic saving would be effected if government, state, county and city employees were taken out of politics.

One of the most interesting addresses of the session was delivered by Mrs. Josephine Corless Preston, state superintendent of schools of Washington.

Mrs. Preston spoke of the difficulty in properly housing rural school teachers. Her statement that the state of Washington had already built 108 cottages for the use of teachers in rural districts, evoked applause.

This afternoon Dr. C. H. Chapman, of Portland, delivered an address on "The Spiritual Force Behind Modern Literature" and Mrs. Thomas G. Winter explained the relation of literature to life.

WANT PARTIES DEFINED.

San Francisco, June 2.—A movement to keep party lines in California well defined and to defend the constitutional amendment passed by the last assembly making all state officers non-partisan was started today by leaders of the old line political parties.

The decision to fight the amendment resulted from a meeting of a committee representing the democratic, republican, prohibitionist and socialist parties where the non-partisanship legislation was characterized as unable to fit the necessity of Governor Johnson and the progressive state administration. Compromises have been appointed to circulate referendum petitions.

Co. M Will Go To Rose Festival On June 11

Captain Max Gehlbach today received a long distance call from Portland inviting Company M to take part in the Rose Festival parade June 11. The Portland Commercial club will pay all transportation and provide one meal for the boys while in the metropolis. A special train will be provided for the company to leave Salem at 7 o'clock a. m. and to return with them late that evening. Captain Gehlbach accepted the invitation in the name of the company and it is expected that most of the boys will assuredly roll call on that date as this day has been declared a legal holiday by Governor Withycombe.

FARNAM'S TRIAL IS ON AT ROSEBURG

Douglas County Man Charged With Sweetheart's Murder Faces Jury

Roseburg, Or., June 2.—Following the completion of the jury, the taking of testimony was begun here this afternoon in the trial of Roy Farnam, a young farmer, charged with murdering his 15-year-old sweetheart and burning the body in a barn on the night of December 8, 1914. The jury in Farnam's first trial disagreed. The alleged murder was committed near Glendale.

Nearly 120 witnesses have been summoned among whom will be a physician whom Farnam is said to have applied to for treatment for Miss Morgan several days before her body was found. The charged body of Miss Morgan was found in the ruins of a barn burned the night of December 18, 1914.

In the room occupied by Miss Morgan prior to her disappearance the sheriff found a partly filled bottle of oil of turpentine. This drug, the prosecuting officers will claim, was given to Miss Morgan by Farnam for the purpose of paralyzing a venereal operation. A peculiar shaped horse's hoof will also enter prominently into the murder trial. The officers contend that on the morning following the disappearance of Miss Morgan they tracked Farnam's horse from the door of the stable on the Farnam ranch to a point almost directly in front of the Morgan home. From that point the animal was tracked to a field near the Bonner barn, where it was tied to a clump of bushes. On the tops of these bushes the officers alleged they found particles of hair identical with that of the Farnam animal. A woman's track, which the officers believe were those of Edna Morgan, were found leading from the spot where the horse was tied, to a point near the Bonner barn.

Although the defense is non-committal with regard to its line of testimony, it is known that much stress will be placed upon an alibi furnished by the defendant's parents. It is also expected that the defense will make an effort to show that Farnam's visit to the Coquille physician was in the interest of another man, whose identity Farnam refuses to disclose.

Farnam is now serving an indeterminate term of from three to twenty years in the state penitentiary on a charge of statutory rape against Edna Morgan.

Reliable authorities say that upwards of 90 per cent of the so-called colic in the head and throat are in reality dangerous indications of the presence of acute catarrh. When you hear a person sneeze or cough its almost certain they are throwing catarrh germs into the air for some other person to breathe and its just as certain that person breathing these germs will soon have catarrh of a catarrhal cold. The time to make these germs harmless and drive out your catarrhal cold is the very instant you feel a sneeze or cough or cough, so start to snuffle and wipe your nose every few minutes.

The quickest and surest way to stop a head cold and drive out germs out of your system is to pour a few drops of the all of Hyonol pronounced High-one) into one of the Hyonol inlating devices which comes with each large package and place the inlating between your lips and breathe the germicidal but pleasant smelling air into your nose, throat and lungs. This air actively destroys all catarrh germs. Hyonol quickly opens the closed air passages, makes breathing easy, clears your stuffed-up head, chases out your throat and soothes your sniffing and sneezing. There's certainly no snuffing or snoring and no factory way of breathing up a cold, even after it is well started, and a few weeks use will do away with all danger of chronic catarrh. Sold by druggists everywhere including Daniel J. Fry, who agrees to return the full purchase price to any who use it and are not satisfied. In buying Hyonol for the first time be sure you get the large size which contains the inlating as this is very essential for best results.

Why not call them Hay without Hay is grass with the greenness squeezed out.

If your wife was asked, "Is your husband stingy?" would she say "No" or tell the truth?

BISURATED MAGNESIA

WAS LINER ST. PAUL CHASED?

Liverpool, June 2.—Dispatches from Liverpool today stated that nothing was known in shipping circles there of reports that the American liner St. Paul was chased by a submarine last Saturday night.

Members of the crew would not verify the story said to have been told by some of the St. Paul passengers. They were said to have declared that the St. Paul was pursued by the Mersay, but that British torpedo boats drove the submarine off.

British Steamer Sunk In North Sea

London, June 2.—The British steamer Saiche, was torpedoed by a German submarine in the North sea yesterday, the admiralty announced today.

The Saiche was sunk and seven members of the crew and a stewardess drowned when one of the small boats in which they had put out capsized.

Eight passengers and 46 members of the crew were landed today at Chatham by a steam trawler.

The Saiche was a vessel of 3,303 tons. She was 320 feet long and plied between England and Egypt.

German General Is Taken Prisoner

Petrograd, June 2.—Baltic newspapers print an uncorroborated report that General Von Critz, who commanded the German at Libau, has been captured by a Red Army patrol.

General Von Critz was surprised by a Russian patrol while motoring along a country road, the reports stated. His escort resisted desperately but most of them were killed and the remainder were captured. The general is said to have been slightly wounded in the hand during the fight.

SAW TORPEDO BOATS.

Philadelphia, June 2.—Passengers on the American liner Dominica, which docked here today declared that two days out from Liverpool the ship sighted the portages of two German submarines. Hearing the ship would be torpedoed, Miss Prichard, a stewardess, jumped overboard and was lost.

Notice to Contractors.

Sealed proposals will be received by the board of school directors of district No. 24, Marion county, Oregon, at Superintendent's office in high school building, Salem, Oregon, until 7:30 p. m., June 14th, 1915, for the complete installation of fan and furnace system of heating for new McKinley school building, corner of High and McGilchrist streets, Salem, Oregon.

Plans and specifications will be furnished by W. H. Burghardt, Jr., 385 State street, Salem, Oregon, or George M. Post, architect, rooms Gray block, Salem, Oregon, on deposit of \$5, which will be refunded upon return of same in good condition on or before the time mentioned above.

No bid or proposal will be considered unless accompanied by a certified check payable to W. H. Burghardt, Jr., clerk of board, in amount of \$500, which check will be forfeited upon refusal of any bidder to enter into a contract to install this heating apparatus for the amount of their bid, and to furnish the required bond.

The board of directors reserves the right to reject any and all bids.

W. H. BURGHARDT, JR., Clerk.

DEATH OF MISS SIMMONS.

Local Market Conditions

What one again lunched the \$1 mark yesterday in the local market, due to the estimates of an unusually large crop this year, and the decline in the Portland market, oats are down 1 cent, now selling for 34 cents.

The hog market is weak in Portland, but quotations have not as yet been changed here. Veal has not fully recovered from the sudden slump of last week, although a few houses in Salem today paid 9 cents for tops.

Hens are slow on the market at 10 cents, while eggs are holding their own at 17 and 18 cents. Spring chickens to day brought only 16 cents. There is a general complaint among buyers that the fryers are too small. From 1 1/2 to 2 pounds seems to be the smallest spring chicken the market will buy.

New potatoes are now worth 4 1/2 and 5 1/2. Sugar is up 10c a hundred retail today.

Sister of Sidney Austin Dorsey Attends Funeral

Mrs. Myrtle Peed, of Moscow, Idaho, sister of Sidney Austin Dorsey, the young man who died in this city at 11 p. m. on Monday, arrived in Salem this morning to attend the funeral services held over the remains at the Higdon & Richardson undertaking parlors at 3:30 this afternoon. The services were conducted by Rev. A. A. Winter, of the United Evangelical church, and were attended by a large gathering of former friends and classmates of the high school. Following the ceremony the body was transported to Dayton, Yamhill county, by the auto hearse, and church services will be held at that place tomorrow morning and interment will be held in the Dayton cemetery. While in the city Mrs. Peed will be a guest at the home of Mrs. L. K. Page, at 402 North Cottage street, where the mother of the dead boy, Mrs. Susan J. Dorsey, and Mrs. Bellman, of Dayton, an aunt, have been staying since his death.

Had Lung Trouble and Expected to Die

The many recoveries brought about by Eckman's Alternative are attracting wide attention. Read about this cure.

33 H St., Keyser, W. Va. "Gentlemen—I was taken sick in November, 1908. I grew steadily worse. Had two consultations. The verdict was the fever had affected my lungs and that my case was hopeless; only gave me two months to live. My physician had tried most all kinds of treatment and none did me any good, so he asked my husband if he objected to him trying a proprietary medicine. I began your Alternative. I was in bed from November 30, 1908, until February 25, 1909, and was thought dying several times. Today I am healthier and stronger than ever." (Abbreviated.)

(Signed) MISS H. K. HIBBLEY. Eckman's Alternative is most efficacious in bronchial catarrh and severe throat and lung affections and up-building the system. Contains no harmful or habit-forming drugs. Accept no substitutes. Small size, \$1; regular size, \$2, sold by leading druggists. Write for booklet of recoveries. Eckman Laboratory, Philadelphia

WILLIAM E. FLOYD, Magician

FOR fifteen years the Floyds have mystified the American public with their marvelous art, and their refined entertainments have been demanded on the Lyceum platform, where they have attained greater fame than their heretofore possessed. Their acts are strictly high class, and for originality, dexterity and cleverness they cannot be surpassed. They are without an equal before the American public today, and they have arranged a program for this season consisting of tricks and illusions that surpass anything heretofore achieved in the field of modern magic. The mind reading by Mohala is unique and unlike similar attainments by others who possess second sight. Her exhibition not only affords amusement, but is an interesting exhibition of a scientific marvel.
