## NEW TEACHERS TO FILL VACANCIES

## Three Resignations Were Accepted—Other Business Before Board

The resignations of three teachers were accepted by the school board of directors at their meeting last evening, and appointments made to fill the vacancies. The resignations were from Miss Elizabeth Fowche, who will soon leave for Minneapolis; Miss Sadie Skat-tabe, who goes to Seattle, and Mrs. Blanche Farris.

Following the recommendations of Superintendent Elliott, Miss Lina Heist was elected teacher in German, at a salary of \$90 a month. Miss Heist has had three years' experience in this work and has been attending the summer school at Berkeley. Her work in the junior high school, Mrs. Z. J. Riggs was elected, at a salary of \$80 a month. Mrs. Riggs is a graduate of the Oregon Normal school and is especially qualified for the junior high school work. Phillip Parcher, who comes especially recommended from the Oregon Agricultural college, was elected as teacher of manual training at a salary of \$80 a month. David K. Bruce, who was elected as teacher at a former additional salary of \$70 a month for taking charge of the three playgrounds of the schools, and organizing the play.

Superintendent O. M. Elliott filed with the board, his annual report of the conditions of the schools, with recommendations and suggestions for their improvement. On enrollment and attendance, the report shows that the city's schools are growing rapidly since 1911, when the entire number enrolled was 2,640, compared to 3,372 for this year. The greatest gain was made in the high school where in 1911 the number registered was 307, compared to this year, when the enrollment was 829. It cost the taxpayers exactly \$41 on the average to pay for the entire year's schooling of each pupil. For the 1913-1914 year, the average cost a pupil was \$41.92. The average cost for each high school pupil was \$63.25 for the 1914-1915 year, compared to \$59.61 of the school year previous.

The tuition received during the last year was \$3510, compared to \$2820 for the year ending in 1914 and \$2009 for the 1912-1913 year.

The report takes up the problem of the health of the school children, and recommends the employment of a nurse under the direction of either a special or the city physician.

In connection with the commercial department, Merritt Davis will conduct an employment agency for the benefit of the pupils graduating in this department. The course of study has been especially arranged to meet the conditions in Salem and to prepare its students for such positions.

The superintendent also urged that in the re-organization of the schools, the common branches must be overlooked, especially to develop efficiency in the use of the English language, mathematics, spelling and writing.

Announcements in regard to the junior high school districts will be made in September. According to the report, the people of the city may be assured that the first six grades will be maintained in all the schools, except the dividing line between the Lincoln and McKinley school, will be Superior street west of High street and Howard street east of High.

All the Salem schools will open Monday, September 20.

## WHAT TO USE AND AVOID ON FACES THAT PERSPIRE

Skin to be healthy, must breathe. It also must perspire—most expel, through the pores, its share of the body's waste material. Certain creams and powders plug the pores, interfering both with elimination and breathing, especially during the heated period. If more women understood this there would be fewer self-induced complexion troubles. If they would use ordinary mercurized wax they would have healthy complexions. This remarkable substance actually absorbs a bad skin, also enclosing the pores. Result: The fresher, younger under-skin is permitted to breathe and to show itself. The exquisite new complexion gradually peeps out, one free from any appearance of artificiality. Obtain an ounce of mercurized wax from your druggist, and try it. Apply nightly like cold cream, for a week or two, washing it off mornings.

To remove wrinkles, here's a marvelous, only effective treatment, which also acts naturally and harmlessly: Dissolve 1 oz. powdered axaltin in 12 pt. witch-hazel and use as a wash lotion.

## Dr. DeBit's Soul-Mate Testifies In Court

Seattle, Wash., Aug. 10.—For the first time since the various proceedings in which she figures were begun here, Mrs. Dorothy A. Gerber, alleged soul mate of Dr. Ralph DeBit, head of the Yoga cult, took the witness stand yesterday in Judge Frater's court, in the habeas corpus action brought by Dr. Rudolph H. Gerber, of San Francisco, her husband, for the possession of five-year-old Ariel, their daughter.

Dr. Gerber's attorney introduced an instrument showing that the father of the girl, who is now in the juvenile detention home, was appointed guardian February 15 last by Judge J. M. Coffey of San Francisco.

Mrs. Gerber testified she had never been served with notice of the appointment of her husband, or of her removal as guardian. She left California, she said, last October and her attorney contended that the girl was in the jurisdiction of the California courts, when Dr. Gerber was appointed guardian.

Mrs. Gerber testified it had been over three years since she lived with Dr. Gerber. She spent \$10,000 on the cultivation of her voice in Berlin and is now giving Ariel private music, drawing and modeling lessons, as well as common school studies.

Dr. Ralph DeBit announced in the corridors of the court house here this morning that he and Mrs. Dorothy Gerber, with whom he has been charged with improper conduct, will go on the Orphanum circuit, DeBit, as Mrs. Gerber's manager.

Mrs. Gerber is a well known singer, having appeared on the stage as Dorothy Alden. DeBit says he is broke.

## Dr. DeBit Has Resigned

Seattle, Wash., Aug. 10.—Dr. DeBit has sent his resignation to A. K. Mozumdar, head of the Yoga cult at Spokane, it is announced here today by the former.

However, he said in his letter: "I shall continue to express my realization of man's relation to God, continuing in my work here in Seattle, and building a school where others may prepare for the service of revealing him out of his self-created ignorance and illusions." DeBit's resignation was withdrawn, he says, because he did not wish to embarrass the future of the "movement," inasmuch as his "loyalty in defending Mrs. Gerber against the persecutions of her husband has reflected upon the pure name of the Yoga."

## Wealthy Portlander Faces Serious Charge

Portland, Ore., Aug. 10.—Charged with invading the rooms of Miss Mollie Smith, a Portland school teacher and her sister, Miss Jennie Smith, a church worker, and completely disarranging the young woman's wardrobe, besides lacking many garments to pieces, M. H. Black, aged 23, said to be very wealthy, is held at the city jail today under bail of \$250.

Black resides at the Villa St. Clair apartments, with his mother in rooms adjoining those of the Misses Smith.

According to the police, Black has confessed, but gave no motive for his actions.

The alleged trespass is said to have taken place while the Misses Smith were visiting the exposition at San Francisco.

Suspicion pointed toward Black through a letter he is said to have written to Mrs. Baird of Kansas City, telling her that Miss Mollie Smith had fractured her arm, and wanted \$25 when she was able to write a check.

In a coincidence Mrs. Baird was with the Smith sisters in San Francisco when she received the letter. The communication was turned over to the federal postal inspectors who are conducting an investigation.

## "A sensible cigarette—that's what I want"

There are a number of good, sensible cigarettes on the market—Fatimas are not the only ones. But Fatimas are the best-liked and best-selling of all the cigarettes costing over 5c. Of course, your taste may be different—you

may not like Fatimas as well as all these thousands of other men do. But you can't deny that they are worth trying—not only for the delicious taste that has made them so famous, but also to see just how SENSIBLE they really are—how COOL and comfortable to the throat and tongue and how free they are from after-effects. Clip out these tests and see if you can find any cigarette that meets them as well as good old Fatimas do. Make this important test today.

*Lizette's Magazine*

**TWO TESTS FOR ANY CIGARETTE**

The taste of the cigarette—according to a leading tobacco journal—is up to the smoker. But there are other qualities that you should look for in the cigarette that may help the average smoker to choose more wisely between different kinds of cigarettes.

The first test is for coolness. A cigarette should be cool in the throat and not sufficient to make this test. Hold it in your mouth for a few seconds. Hold it "round" against your tongue. If it mild tobacco contains a high grade of COOL, and smooth both to your throat and to your tongue.

On the other hand, if the proportions are not right and if the cigarette contains inferior grades of tobacco or hidden brands of rank, only test, you will feel a burning sting at the tip of your tongue after smoking all day.

Test number two—How do you feel? A correct proportion of mild grades and heavy grades has been proven to be the best. If the proportions are not right, you will feel a burning sting at the tip of your tongue after smoking all day.

But with another cigarette in which the tobacco is of the highest grade, you will feel a burning sting at the tip of your tongue after smoking all day.

Clip out these tests and try them on Fatima.
