Why the Journal is popular-

it prints the world's news to-

The proper use of the vast fund of agricultural information assembled by the federal government at a cost of about \$250,000,000 to the aution, has not been general by a satisfactory POR RENT-Furnished or unfurnished number of people on the farm. "The situation," says Paul V. Maris, state leader of county agricultural work in oregon, "has been compared to that of a great manufacturing concern whose warehouses are full to overflowing but whose selling and distributing facilities are so inadequate that the products cannot be placed in the hands of the consumer. Agricultural bulle tins, institute lectures, farm paper ar-ticles, state demonstration farms, all ticles, state demonstration farms, all these and other agencies have played an important part, but experience has taught that the ocular demonstration on the farmer's own farm of improved varieties, better cultural methods, standard market grades, etc., is the most effective agency for bringing about the wide spread adoption of better methods. The announcement that an improved strain of wheat has been an improved strain of wheat has been developed is not sufficient to bring a-bout its use. It is the actual demonstration of its merits on ten or twenty farms of any county that cause it to be grown, resulting in an increase in the total cereal production of he county that may far exceed in value the cost of the demonstrator. This is one reason why the rounty agent work was started."

MARION COUNTY I. O. O. F.

The next Marion county I. O. O. F. district convention will be held in Gervais on Saturday, October 14. The afternoon session will commence at 2 o'clock and will be held in the Masonic at 7:30. At 3 o'clock there will be a hall. The evening session will be held public meeting in the city hall. There will be speeches from several of the most prominent Odd Fellows of the state and the public will be given an opportunity to bear many good things about Odd Fellowship.

Our crop is good and clean, on high trellis and we furnish baskets, wood, tent, apples, puro baskets, wood, tent, apples, puro water and clean sanitary camp grounds with large camp stove, all free. sept12

Three strong reasons urge you to buy the Ford car: First, because of its record of satisfactory service to more than fifteen hundred thousand owners; Second, because of the reliability of the Company which makes it; Third, because of its large radiator and enclosed fan, streamline hood, crown fenders front and rear, black finish, nickel trimmings, it is most attractive in appearance. To these must be added its wonderful economy in operation and maintenance-about two cents a mile; likewise the fact that by reason of its simplicity in construction anyone can operate and care for it. Nine thousand Ford agents make Ford service as universal as the the car. Touring car \$415.70; Runabout \$400.70-f. o. b. Salem.
