

### Found Way to Health Without Using Knife

MRS. MARY A. FERREE

Traxo she was entirely cured. I pray that my testimony may be the means of helping others to health. Fruita and Traxo are compounded from the original Eisall formulas at the Pinus Laboratories in Monticello, Ill., and can be purchased in Salem at Daniel J. Fry's drug store, 280 North Commercial St.; a doctor's prescription is not necessary. Fruita is a pure fruit oil that acts as an intestinal lubricant and disintegrates the hardened particles that cause so much suffering, discharging the accumulated waste to the sufferer's intense relief. One dose is usually sufficient to indicate its efficacy. Traxo is a tonic alternative that is most effective to rebuild and restore the weakened rundown system. A booklet of special interest to those who suffer from stomach trouble can be obtained by writing to the Pinus Laboratories, Monticello, Illinois.

### COUNCIL POSTPONES ACTION ON BUSH GIFT

### A Few Minor Matters and Action On Bills Comprised Session's Work

The matter of the acceptance of the deed to Bush's pasture by the city council was a special order of business at the regular meeting last night. It was brought up when Councilman Jones moved that the deed be accepted.

Councilman Unruh then asked if the change in the deed asked for had been made and also if the Bush people had been seen relative to the matter. Councilman Jones replied that the Bush people had not been seen nor had the changes been made. He said that as far as he could see there was no special need of a change in the wording of the deed and, he said that if the city wanted the park it ought to take the deed as Bush made it.

Councilman Rigdon asked for the opinion of the city attorney in this matter and Attorney Macy said he did not like to recommend its acceptance in the present ambiguous form in which the wording now was. He said that if the deed was to say something it should say it in plain, unequivocal terms.

It was the opinion of Councilman Jones that whatever ambiguities there were in the deed did not affect it materially. He said Judge Bingham had explained the deed, which was drawn as the Bush people wanted it.

It was all Greek to Councilman Buchner and he asked City Attorney Macy to read the clause in question. After it was read, Councilman moved to refer it to the city attorney to take up with Bush so as to get a clearer reading of the clause. This was adopted.

Claims Ordered Paid. The report of the finance committee relative to claims against the city was adopted and the recorder ordered to draw warrants for the amounts.

The report of the street committee recommending that a stairway from the street to the basement of the Hubbard building be allowed provoked considerable discussion. Councilman Rigdon doubted the propriety of allowing the stairway to be built as it would take up space needed for the sidewalk at a point where railway passengers congregate.

Councilman Buchner thought it was feasible and the street committee recommended after investigating. Councilman Wilson thought it ought to be allowed. A vote was taken at this time with the result that it stood four in favor and two against with several not voting. A second vote was called for and it stood four to four, with the new councilman, H. L. Stanton, not voting because not familiar with the question. Councilman Buchner then moved that

### WITTENBERG-KING CO. TO RUSH BUILDING

Will Have All In Readiness by September--Will Contract Now for Produce

Contractors of Wittenberg-King company have been on the grounds and the work will be pushed rapidly from now on in order to have the institution operating by September 1. Owing to the volume of business the company will need a greater tonnage of green produce than formerly expected. Offices have been opened at No. 17 Bush-Breyman building. Field Manager Armstrong with several field men will push the work of contracting green produce with all possible speed, the next 10 days, in order to assure the institution of a good year's run. The Wittenberg-King company will be in a position to handle apples and pears this fall, in spite of the fact that it was originally planned to run only prunes and vegetables. The company is offering contracts for from one to 10 years and would greatly appreciate meeting any of the growers who are interested.

Owing to the lateness of season, all vegetables desired by the company with the exception of onions can be planted as late as the 15th of June. The company has seed for all the produce wanted. See their half page announcement on page three of today's Capital Journal.

### WHAT BILLY SUNDAY SAYS

In one of his meetings at Boston the noted evangelist said, "I believe that every disease can be cured by some weed if we can only discover it. There is not an ailment that God hasn't somewhere an herb growing that will cure that ailment."

The choice medicinal herbs which will cure women's ailments were discovered more than forty years ago, and have been doing their beneficent work for half a century. Lydia E. Pinkham combined them in convenient form in her famous Vegetable Compound, which is to be found in the drug stores, where every ailing woman may conveniently get it at small cost. It does the work!

### It Works! Try It

Tells how to loosen a sore, tender corn so it lifts out without pain.

Good news spreads rapidly and druggists here are kept busy dispensing freezone, the ether discovery of a Cincinnati man, which is said to loosen any corn so it lifts out with the fingers.

Ask at any pharmacy for a quarter ounce of freezone, which will cost very little, but is said to be sufficient to rid one's feet of every hard or soft corn or callus.

You apply just a few drops on the tender, aching corn and instantly the soreness is relieved, and soon the corn is so shriveled that it lifts out without pain. It is a sticky substance which dries when applied and never inflames or even irritates the adjoining tissue.

This discovery will prevent thousands of deaths annually from lockjaw and infection heretofore resulting from the suicidal habit of cutting corns.

### Only Half Prune Crop In Douglas County

Bert Sutherland, a local prune buyer, stated this morning that he had made quite a complete canvass of the rural districts of Douglas county and is convinced that the prune crop for this season will not exceed half of that of last year. Mr. Sutherland attributes the light crop this season to the abnormal production of last year, and not to the cold rains of the spring. The prune crop last year was abnormal, according to Mr. Sutherland, and brought more money into Douglas county than ever before.—Roseburg Review.

### THE SECOND RESERVE CORPS

San Francisco, June 5.—Applications for enrollment in the second officers' reserve corps training camp to open at the Presidio August 27, will be received on and after June 15 according to announcement by training camp authorities today. Already scores of requests for admittance are coming in, but these cannot be considered until after June 15. A list of 10,000 recommended applicants for the first camp, also will be considered in naming men for the second training course.

### WATCHAMA COLUMN

By "GM"

Being Tired  
Being tired is a feeling some folks are born with and others acquire by hard work. Nobody's discovered a remedy for the first. But the best thing for the second is to hire a bedroom with a bed in it and proceed to wear it out.

With the man born that way, tiredness is a business. He starts through life wearily, reaches a fagged out middle age and dies around the century mark of complete exhaustion. He is not only tired himself, but he makes other people tired. He has Rip van Winkle looking like a light, intermittent sleeper.

### Secured His Plunder From Oregon California Trains

San Francisco, June 5.—Loot valued at thousands of dollars was recovered today by post office inspectors when they arrested Elton D. Hocker, a former railway mail clerk. Postoffice Inspector Morse declared that Hocker has confessed that for three years he and a companion have looted the mail cars running between San Francisco and Ashland, Or.

The alleged theft of a special delivery letter containing less than \$10 in cash resulted in Hocker's arrest. Inspectors traced the letter directly to Hocker's room.

For 10 years Hocker has worked on mail cars between Ashland and San Francisco. Inspectors say the pilfering has been going on for three years.

### CRANBERRY GROWERS BUSY

Astoria, Or., June 5.—Extensive activity this spring and summer has already begun in lower Columbia river cranberry marshes. H. M. Williams, the largest grower on the Washington side of the river, is preparing to build the largest fruit cannery in the northwest near his home at Ilwaco, Wash. He has been busy for some time collecting a series of winning recipes, and will push the sales of the Pacific coast cranberry, intending to make cranberry as popular as Loganberry juice. Williams has secured two unattended breweries in Portland to bottle cranberry juice.

Blair and Dr. Thomas Addis, convicted and fined \$1,000 each in 1915 for recruiting men for the British navy in this country, have secured a new trial and arrangements for its being held immediately are in progress today. The United States supreme court has sustained the order of the circuit court of appeals, holding Federal Judge Dooling, who conducted the trial here, erred when he instructed the jury to convict Blair and Addis.

WILL HAVE NEW TRIAL  
San Francisco, June 5.—Ralph K.

# OUR PLAN Pleases Everybody

We Are Here To Make Money for the Farmers of this vicinity. Incidentally we will make some for ourselves.

## Our Proposition To The Agriculturist Is:

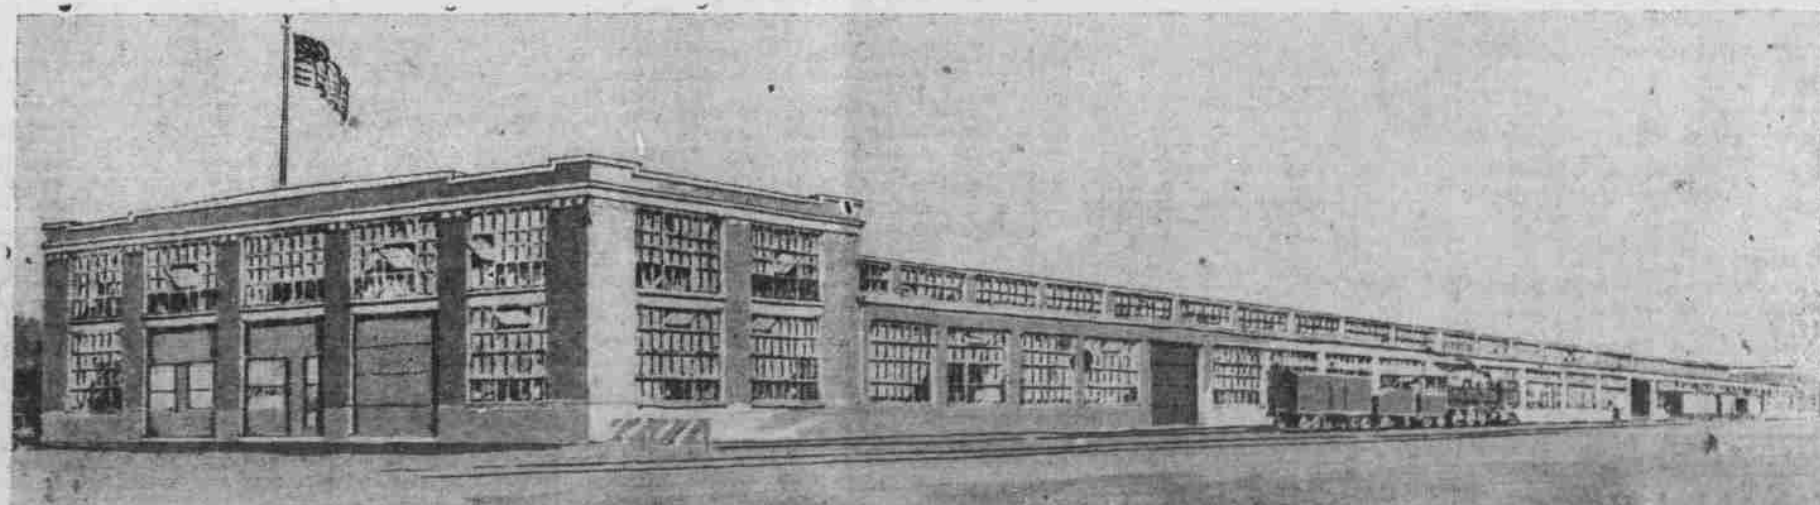

### We Need

- 600 Tons Rutabagas
- 600 Tons Carrots
- 600 Tons Onions
- 850 Tons Potatoes
- 500 Tons Celery
- 2000 Tons Apples
- 600 Tons Cabbage
- 300 Tons Squash
- 500 Tons Beans
- 300 Tons Late Spinach
- 500 Tons Pears
- 500 Tons Peaches
- 750 Tons Prunes

There is yet time to Plant these Vegetables

REMEMBER--We guarantee a market for the farmers' produce. We furnish containers for everything we buy. We accept the storage responsibility thereby saving the farmer the shrinkage. OUR CONTRACTS ARE FROM ONE TO TEN YEARS--During the next few years we will need 500 to 1,000 tons of loganberries and an equal amount of strawberries annually.
