3,000 Teachers Will Join Association

The total registration of paid members of the national education association for the state of Oregon, according to a statement issued today by Superintendent of Public Instruction J. A. Churchill, will not be less than 3,000.

Superintendent Churchill's report to Secretary Springer shows that six hundred teachers have taken out their memberships with the state office during the past few weeks, many have already sent in their advance membership fees to secretary, and letters have been received from many schools over the state showing that several hundred teachers will purchase their membership certificates at Portland on the opening day. These reports taken together show that three thousand paid memberships for Oregon is a very conservative estimate.
