**Bear Mountain Fire**

Now is the time to act to protect your trees' health — and your property from wildfire. Now is the time to call on Bear Mountain Fire.

Dave Vitelle has spent years in the woods, fighting fire and conducting thinning projects that improve forest health. Whether it's one stressed tree that you need to top or remove, or a forested property that needs active management, Bear Mountain Fire is the resource to turn to.

Bear Mountain Fire works with landowners to develop plans for fire prevention and forest health. Dave can seek out grants and market materials from projects to keep costs down (or even eliminate them) for landowners. He is expert at creating comprehensive plans for tree management on large properties.

The forest is our natural habitat here in Sisters, and fire our primary threat. Learn to live in harmony with both with Bear Mountain Fire.
