### Larson's Carpet Care

Gary Larson knows how deadly a slip can be. Not too long ago, he slipped on ice, fell and broke his neck. Delicate surgery and a long, expensive recovery behind him, he's doing fine now, but he knows he's lucky to be on his feet, alive and moving around.

The experience gave him a mission. Larson's Carpet Care can help you make virtually any surface much safer with non-slip traction surfaces for concrete, tile, wood floors. Bathrooms and tubs are a particular target, and creating a non-slip surface is especially critical for seniors, for whom a fall can be devastating.

Creating a non-slip surface is relatively inexpensive — especially when held up against what a fall can cost you. Contact Larson's Carpet Care for

more information.

And don't forget, they still offer their outstanding cleaning services. So get your carpets in shape after winter and make your house a cleaner, brighter — and safe — place.
