# Home & Garden

## In Sisters Country

Spring has well and truly arrived in Sisters Country. The days are growing long, the sun is warming the mountains and valleys, the grass and the flowers are coming up in full color.

Time to get to work.

Time to get the yard in shape; time to launch that home project; time to stop thinking and start doing.

Fortunately, you have a lot of resources to lend a hand. Skilled crews are standing ready to help you get your landscape in shape, to haul off the debris and detritus of winter and bring

on the green. Designers and contractors are ready to help you create new space or restore and make the most of the space you have.

Dedicated service professionals and skilled tradesmen can help you make your home safer, more functional, more livable — and more beautiful.

There's no end to the talent and experience available in Sisters. They can get your work done or help you do it yourself.

Rent the tools for the job or hire folks who have the best equipment.

## Peak Pump & Motor

When your well shuts off and the water runs out, it's a problem. You need help right away — and help is right here in Sisters.

Peak Pump & Motor, a division of Curt's Electric, is in the business of keeping your well running in top condition. Curt's Electric has been in business in Sisters for the past 13 years, and last year added a pump division and a brand-new pump truck ready to serve you.

Whether it's a residential well or a full-on irrigation system, Peak Pump & Motor can handle the job. They deal with motor controls, automation, variable-frequency drives — everything that is required to get your well back up and running, or to keep it from breaking down in the first place.

And there's no need to call in an electrician — you have all the service you need with one company: Peak Pump & Motor, a division of Curt's Electric.

## High Country Disposal

Spring has sprung — the wet weather is giving way to sunny skies, and this may be the best growing season we've had in several years.

Yes, it's time for spring planting!

For the best success with your garden, you need quality soil, and that is one component of a successful garden that is easy to acquire. High Country Disposal offers compost sales from our sister company, Deschutes Recycling.

Our newest product 50/50 Blend is a mixture of Top Soil and SoilBuilder compost.

This is a great product for our customer because it is already amended and can go right into planting beds, gardens, and used as-is for laying sod.

Our compost carries the US Composting

Council Seal of Testing Assurance to ensure quality and reliability. Convenient delivery is available.
