## WHO IS REQUIRED TO HAVE A CONSTRUCTION CONTRACTORS LICENSE?

Oregon law requires those who work for compensation (except bona fide employees) in any construction activity involving improvements to real property to be licensed with the Oregon Construction Contractors Board. (There are several exemptions.) An active license means the contractor is bonded and insured. Go to [www.oregon.gov/CCB](http://www.oregon.gov/CCB)

## AIRPORT: Boundary and jurisdiction are not clear yet

*Continued from page 1*

on the proposal and precise boundaries, the Board will consider holding a work session to discuss this matter."

The commissioners had been scheduled to discuss three issues — a paved "run-out" on the airport runway that lies on Eagle Air Estates open space; a pending request by the airport to be added to the ODA list of recognized airports; and the use of a property on Barclay Drive as a landing site for skydivers.

Lelack told *The Nugget* that until an actual boundary proposal is made, it's not clear what County

jurisdiction would be on any of those matters, and the question of conditional use for skydiving would, in any case, likely be a matter for staff, not the commissioners.

The extent of the boundary that would ultimately be defined by state recognition is a significant one for concerned local residents, because, as County Planner Peter Russell notes, "For these airports, aviation uses are outright permitted on land within the airport boundary regardless of local land-use regulations. Lands within the airport boundary are lands either owned by the airport or leased for long-term use, or committed to airport use."

It remains unclear what the proposal currently before ODA entails. Airport Manager Dave Campbell

says that no formal application has been made. The County's action in deferring discussion indicates a lack of clarity as to what boundary will actually be proposed.

A public hearing will be scheduled by ODA in Deschutes County when an application is deemed complete. Assuming that happens, "affected property owners" — those whose property is within 500 feet of an airport boundary, within an approach corridor, or whose use of their property may be directly affected if the proposed airport is listed — will be given notice of a public hearing. ODA Planner Jeff Caines noted that others who are interested can be placed on a notice list by contacting the Oregon Department of Aviation.
