## 3 Sisters and Cook Contracting

Ed Cook is now bringing a lifelong commitment to quality work to Sisters as 3 Sisters and Cook Contracting. If you have a modest-sized project that you want done right down to the last detail, Ed Cook is your guy.

He's not the bargain-basement guy — he prides himself on a job well done, built to last. And one that offers the best value in the long run.

Quality of materials and quality work are hallmarks of 3 Sisters and Cook Contracting — whether it's carpentry or painting. Ed is a master of both trades and cares deeply about satisfying his customer — the first time around.

"I've never cut corners, and I never will," he says. "To give a good product, you've got to use good materials. I want to sell the best product I can at the fairest price I can deliver."

## Latigo

Latigo Restaurant is under new ownership, and Grant and Tracy are eager to welcome Sisters to their establishment with a warm smile. They've listened to the desires of customers, and have created a brand-new menu featuring Sisters-friendly pricing on such delicious items as an elk burger on the bar menu and a pork-belly sandwich that is getting rave reviews. They're also offering a broader selection of wines — something for everyone.

In mid-February, they will begin featuring sushi — again at the request of eager customers — and live music on weekends.

Latigo is a great date-night venue for Valentine's Day. On February 14, they'll be offering a prix fixe menu. Make reservations early! And keep your eye out for a beer pairing dinner in March.

Come out and give the great food and welcoming atmosphere at Latigo a try. It may just become your new favorite destination in Sisters!
