HOUSEKEEPER: The kind of person we are looking for is someone who cares about and respects the environment they're in with a dedication to doing a good job. As a housekeeper you will clean rooms & cabins where guests have checked out that day. Your day typically starts off with checking in with everyone about what the day will hold, and receiving a list of arrivals and departures. As guests start to check out from their cabins & rooms typically the house person will clear the room beforehand and do the prep work for you to get them cleaned, then you will make beds, vacuum and wipe down surfaces to make sure it's ready for check-in. After everyone is out and you've done the daily duties, you'll pop in to laundry every once in awhile and move a load around to start a fresh one, restock the linen closets. When it's slow enough you will focus on deep cleaning projects and property-wide cleaning tasks. Please email: **Connie@thesuttlelodge.com**

Health advisory issued for lake

BEND, Ore. (AP) — Officials have issued a health advisory for parts of a popular Central Oregon lake.

The Oregon Health Authority says high levels of harmful toxins associated with blue-green algae have been found at Lake Billy Chinook.

Officials tell *The Bulletin* that the toxins can be especially harmful to children and pets.

The advisory covers parts of the areas where the Metolius, Deschutes and Crooked rivers enter the lake.

Officials say people should avoid swallowing the water while swimming or inhaling water droplets in areas where the algae is found.
