belongs to the USFS and must be bought from them. The alternatives are for someone to donate a parcel to the city or to start a GoFundMe approach.

Please go to the FB group “Sisters Dog Park Supporters” or “Community Watch of Sisters, BBR, Camp Sherman” if you are interested in furthering this project. It takes a village.

To the Editor:

Typically, July is a slower time of the year for a school district. At our last board meeting, Jeff Smith was nominated and approved to continue to be the Sisters School Board Chair. Jay Wilkins was nominated and approved to be the Board Vice-Chair. The various other committee assignments were established and assigned.

I want to thank our board for the time and energy they put in to help make Sisters School District a great organization and cornerstone of the Sisters Community.

We had an unusually long consent agenda, as we have been very busy hiring staff to replace those that have retired and/or moved on from the Sisters School District. Although we will miss our colleagues that have moved on, we are very excited about the depth and the quality of the new staff that will be joining the Outlaw Family this fall.

Finally, we have been very busy working

on bond projects, with the largest project this summer being the remodel of our middle school. This fall, not only will all of our schools have deferred maintenance upgrades, additionally, all of our schools will have double-door entry systems, card-lock doors, improved ADA access and cameras as advanced safety measures.

We are also re-engaging in the conversation about a new transportation center (not located in the high school parking lot) to continue to move toward the long-term goal of centralizing our facilities on one campus.

Curt Scholl
Superintendent, Sisters School District

To the Editor:

Once again, Mr. Rullman has inflamed the liberal residents of Sisters.

It is no wonder that calls have been made, that his “Bunkhouse” does not suit the sensitive tastes of progressive and government party elements in our community.

However, progress toward harmony has been made. The shunning of their political opponents will give the left an aura of theological superiority rather than the actual hatred of the Deplorables as represented by the Resistance.

Now hopefully the government party elites will allow the fly-over country rubes to retain our flintlock muskets while they pursue an end to magazine violence.

A non-maintained “user trail” leads from the Scott Trail to the summit of Four In One Cone.

HIKE: Wilderness permits are required for this adventure

Continued from page 17

miles and turn right (west) at the Scott Lake turnoff. There is a sign advising of the approaching turn, but there is an intervening turn-off, as well; so wait until you are abreast of the brown Scott Lake sign before turning off. Once off the highway, the Scott Trail parking lot is the next immediate right. This

road also leads to nearby Scott Lake, which is a nice place for a refreshing swim after a long hike on a hot day.

Almost the entire hike is within the Three Sisters Wilderness boundary, so wilderness permits are required and are free at the trailhead kiosk. Always be properly equipped for wilderness travel — particularly on a hike of this length and difficulty — and remember that weather conditions can change rapidly in the mountains.
