Therapeutic Associates

It seems like every season in Sisters Country offers unique ways to hurt ourselves. This is the season of falls on ice or on the slopes or out on the cross-country or snowshoe trails.

Therapeutic Associates Physical Therapy goes out of their way to help you avoid injury – but when it happens, they are also expert in helping you get back to work and/or back to your favorite sports as quickly as possible. Located adjacent to Sisters Athletic Club, they offer a unique “stepdown” program that allows patients to continue their rehab at SAC after they’ve completed formal physical therapy. Aquatherapy is also available through the SAC pool – a great way to recover.

Therapeutic Associates can also help with long-term mobility issues. You can schedule an assessment and learn how to move better, avoid injury and perform better in your activities. Therapeutic Associates also offers a free injury screening to Sisters Athletic Club members.
