Habitat ReStore co-assistant managers Amy Shultz and Sean Caldarella are excited about the remodeled location.

Sisters Habitat ReStore has been restored

The Sisters Habitat ReStore is alive and well in the same location, thanks to a two-year lease with the building's new owner — Bend Soap Company. With Bend Soap Company's blessing, the ReStore has just completed a "facelift" to the interior.

The store entrance and checkout counter are now at the opposite end of the building (the west end) which separates it from the donations and pick-ups at the east end of the building.

The front door is for shopping, the back door for donations and pick-up. This eliminates the bottleneck that would occur on busy days and gives more room for sorting new items coming in.

Sean Caldarella, an assistant manager of the ReStore, said: "One of the best things about the ReStore facelift is that we certainly have a much

better flow. It makes the ReStore feel more like a store than it did before."

A much-needed bonus of moving the entrance is access to the ADA ramp at the front door.

There is also more space for the outside yard area, and for tools and electronics inside.

Assistant Manager, Amy Shultz encourages people to "come check it out. We're really excited for the new flow!"

During the month of March, ReStore is open Tuesday-Saturday 9 a.m. to 5 p.m. Donations are accepted Tuesday-Saturday 10 a.m. to 4 p.m.

Beginning April 1 ReStore will be open Monday-Saturday 9 a.m. to 5 p.m. Donations will be accepted Monday-Saturday 10 a.m. to 4 p.m.

Bringing out the best in a small community

By Tom Mullen
Guest Columnist

It may seem that our cousins in the big cities are overreacting, but a time of crisis generally brings out the best in people who live in small communities.

While some of our neighbors may be excessively worried, the level-headed will continue to do what they can do with the resources they have.

This is a time for generosity and leadership, and almost everyone can help.

Start by taking notes. Create a list of your neighbors, their telephone numbers and addresses.

If they don't want your help, that's fine, there are plenty of people who will appreciate your kindness.

Help those people you can, and do so in a healthy way.

Seniors are especially susceptible to illness, and those who live alone have an increased risk if no one checks in on them.
